UNCLE SAM IS DISPLEASED

PROTEST COMING ON BRITISH TRADE BAN

Washington, March 16.—President Wilson declined to discuss the British order in council, shutting off trade with Germany, with callers today because he had not had opportunity to look over the official text. The United States has as yet been only informally advised of its terms, but he indicated broadly that the unofficial outline of its contents was very displeasing to the United States government.

Callers asked the president if there was precedent in law or history for Great Britain's action. The president began to reply, and then, evidently reconsidering, said he would defer any expression until officially advised of the order and until after conferences with state department officials. Discussion among other officials, however, was taken to indicate that a protest would be made to Great Britain and her allies.

Cotton Heavy Sufferer.

Cotton shipments from the south would suffer particularly by the new order. Although Great Britain has promised to pay for shipments of cotton taken into her ports en route to Germany, the fact that these cargoes will be sold at market and not contract price has aroused the cotton growers, who, through their representatives in congress, are preparing to insist on a strong declaration from the Washington government on the subject.

With the president devoting his entire time now to foreign affairs an exhaustive study of the new situation will be made. One general protest from the United States embodying its position on the general principles involved may be based on previous diplomatic exchanges on the subject and in some official quarters today it was though that might take the form of firm insistence on a compliance with principles of international law more vigorous than any of the notes hitherto sent by the United States.

Raises New Complications.

Officials at the state department who have studied the British order say it raises new and embarrassing complications which have never before arisen in maritime history.

What perhaps displeases officials most is the prohibition on commerce consigned to neutral countries and suspected of enemy desttination. It forms the principal basis upon which the government will insist on the freedom of its commerce.

OFFICERS AND A FEW OF THE DELEGATES HERE TO ATTEND STATE MEETING OF THE MACCABEES.

About two hundred delegates are here to attend the state convention and second quadrennial review of the Indiana great camp of Maccabees in session here for two days. In the picture are a few of the officers and delegates who arrived early to be here for the opening session. The tallest man in the front row, with soft hat and cigar in his left hand, is Milo R. Meredith, of Wabash, great commander of the state. Other Indiana great camp officers in the picture are: M. A. Clapper, Hartford City, past great commander; J. W. Replogle, Goshen, great record keeper; J. L. Karns, Urbana, great chaplain; W. H. Unversaw, Franklin, great master-at-arms; L. L. Case, Muncie; Joseph Riebeling, Indianapolis; D. S. Greaney, Fort Wayne, great finance auditors.

MEREDITH IS AGAIN CHOSEN

Maccabees Re-elect Wabash Man Once More Great Commander.

200 DELEGATES IN ATTENDANCE

Mayor Hosey Gives Formal Address of Welcome to Fort Wayne.

Three of the old officers were elected Tuesday afternoon without opposition at the second quadrennial review of the Indiana great camp of the Maccabees in session for two days in the Knights of Pythias hall on Washington boulevard west.

Milo R. Meredith, Wabash, was reelected great commander; W. P. Turgi, Alexandria, great lieutenant commander, and J. W. Replogle, Goshen, great record keeper. A. H. Hirt, Shelbyville, was elected chaplain over W. M. Street, Noblesville. The officers are elected to serve for a period of four years.

The opening session of the convention was held at 10 o'clock Tuesday morning with an attendance of over 200 delegates from all sections of the state.

The address of welcome was delivered by Hon. William J. Hosey, mayor of Fort Wayne, to which Hon. R. N. Smith, of Laporte, responded on behalf of the visitors. Milo Meredith, of Wabash, great commander, is presiding and the meeting which continues over Wednesday promises to be the largest as well as the most enthusiastic ever held.

Hon. D. P. Markey, of Detroit, is expected to be the guest of honor at the convention. He is supreme commander of the Maccabees of the world.

Great Camp Officers Here.

Practically all the Indiana great camp officers are in attendance as follows: M. A. Clapper, Hartford City, past great commander; Milo R. Meredith, Wabash, great commander; W. P. Turgi, Alexandria, great lieutenant commander; J. W. Replogle, Goshen, great record keeper; W. C. Landis, M. D., Claypool, great medical examiner; J. L. Karns, Urbana, great chaplain; C. M. Spangler, Maxinkuckee, great sergeant; W. H. Unversaw, Franklin, great master-at-arms; J. K. Pence, Frankfort, great first guard; J. J. Lash, Columbus, great second guard; Fred Fell, Monterey, great sentinel; C. C. Thompson, Terre Haute, great picket; R. N. Smith, Laporte, great counselor; L. L. Case, Muncie; Joseph Riebeling, Indianapolis; D. S. Greaney, Fort Wayne.

The sessions of the convention are strictly secret, only duly elected representatives with proper credentials and officers being eligible to participate in the proceedings. The meeting promises to be most harmonious.

List of Committees.

The list of committees for the great camp review is as follows:

Credentials—A. G. Kauffman, Atlanta; H. H. Skiles, Bluffton; M. S. Harshbarger, Claypool.

New Business—George H. Snyder, Auburn; W. F. Phipps, Evansville; H. M. Ramsaey, Bedford.

Finance—W. P. Turgi, Alexandria; C. L. Burns, Elkhart; Harve Reynolds, Muncie.

Laws—Ralph N. Smith, Laporte; Walter C. Bailey, Peru; Robert C. Baltzell, Princeton.

Appeals, grievances and petitions—Jacob Coleman, South Bend; Paul J. Hueffner, Fort Wayne; Joseph Stanley, East Chicago.

Mileage and per diem—Dr. W. F. Danielson, Huntington; Alfred L. Turner, Anderson; W. H. Snyder, Onward.

Resolutions—James E. Southard,

NAVY READY HE ASSERTS

Daniels Answers Critics of Naval Unpreparedness for Hostilities.

NEVER IN BETTER SHAPE TO FIGHT

Secretary Speaks Following Launching of U. S. Dreadnaught.

Newport News, Va., March 16.—Secretary Daniels answering critics of the unpreparedness of the American navy for war declared in a speech today that never before in its history was the navy in better shape to fight. He spoke at a lunch given in his honor following the launching of the new superior dreadnought Pennsylvania.

"There never was a time," said Secretary Daniels, "when the navy was so powerful, so ready, so efficient as now. Nor has there been a year when the fleet has given so much time to target practice, maneuvers, war games and practice as the present year. Skill, modern adaptation, new tactics are being carried out day and night. The motto of the navy today is 'Training, training and more training. Practice and more practice, nothing else makes ships and men fit. Today they are fit and ready."

Marks Important Step.

Secretary Daniels reviewed the process of building battleships and said the launching of the Pennsylvania was one of many concrete processes of the strength, efficiency and development of the navy.

"No nation," said the secretary, "has placed such substantial faith in the deadly power of the submarine. Within a comparatively short time when our mighty fleet lies in Hampton Roads, ready to traverse the seas, it will be accompanied by submarines which can make twenty knots and send hurtling

SEARCH PASSENGERS FOR $30,000 STOLEN

Galveston, Texas, March 16.—The reported theft at sea of Mexican bank notes and London exchange valued at $30,000 gold caused the presence at the pier today of United States officials, city detectives and special agency operatives when the Norwegian steamship City of Tampico arrived from Vera Cruz. There are 53 passengers on board and each one along with his personal belongings, was searched as was every member of the crew. The loss of the money was reported by Gabino Viscera, of El Paso, a passenger on the City of Tampico.

READY TO MAKE A DEMAND ON GERMANY

Washington, March 16.—The United States will make its formal representations to Germany on the sinking of the American ship, William P. Frye, by the cruizer Prinz Eitel Friedrich as soon as certain necessary facts regarding the destination of the Frye's cargo of wheat are obtained.

President Wilson said today that the informal conferences between state department officials and Count Bernstorff, the German ambassador, had served to pave the way for formal representations, which will include a demand for an indemnity for the cargo and ship.

HUSBAND AND WIFE END LIFE BY NOOSE

Reading, Pa., March 16.—Edward Seyfert, a farmer, and his wife committed suicide by hanging themselves in their barn. The tragedy was discovered by their two young sons who went to the barn to feed the stock.

Upon entering the building they found their parents hanging side by side. Husband and wife retired last night in the best of spirits, bidding their children a pleasant good-night.

They were about 45 years old. There is no known motive for the double suicide.

GERMANS ARE HIT IN WEST

Have Suffered Reverses at Two Points, Declares Paris Report.

BUT BEAT BACK RUSSIAN ATTACK

Nineteen of Sunken Dresden's Crew Reported Missing.

Today's War News Given in Summary.

The claim is made by the French war office that the Germans have suffered reverses in two sections of the western front. The British army is said to have recaptured St. Eloi and to have carried new German positions near the village. In Champagne progress for the French at two points is reported.

The German official statement announces the winning of St. Eloi but makes no mention of its subsequent recapture by the British. The French attacks in Champagne, it is said, broke down.

Only brief mention of the eastern campaign is made in the Berlin report. It is asserted that Russian attacks near Przasnysz were defeated everywhere and that the Germans took 2,000 prisoners.

Additional Prussian casualty lists bring up the total of killed, wounded and missing since the war began to 1,050,029. This does not include casualties in the German states other than Prussia.

The British auxiliary cruiser Orama, which took part in the battle off Juan Fernandez island on Saturday, in which the German cruiser Dresden was sunk arrived at Valparaiso, Chile, and it was learned that 19 members of the Dresden's crew were missing. The survivors, some wounded, were aboard the Orama.

Paris, March 16.—The events of yesterday on the Franco-Belgian front are described in a statement from the war office this afternoon as follows:

"The Belgian army has consolidated its gains for the past few days. The British army, after having retaken St. Eloi, has also recaptured trenches to the southwest of the village and compelled the enemy to evacuate trenches to the southeast of the same point which have been completely demolished by the artillery.

"In Champagne fresh progress has been made to the northeast of Souain. In the forest of Le Pretre we have recaptured from the Germans the remainder of the trenches won by them yesterday morning, or to be more precise, the site of those trenches, for defensive works had been destroyed by

MEXICAN FERMENT SUBSIDES A BIT

Washington, March 16.—Official assurance that Gen. Carranza has abandoned his blockade of Progresso were received today from two sources. American Consul Silliman, at Vera Cruz, reported that Carranza "at the request of President Wilson has recalled his order closing the port of Progresso."

Carranza's minister of foreign affairs telegraphed the Carranza agent here: "I beg to advise you that on March 14, the port of Progresso will be open."

Conditions in Mexico generally are regarded by President Wilson as much less in a ferment than they were a few days ago. He told callers today that the American representations and notes had been effective and that he feels that there were now security for foreigners. Keeping open the railroad between Mexico City and Vera Cruz the president regards as an awkward task, because the Carranza force held the Vera Cruz end, while their enemies are in possession at Mexico City. The Vera Cruz line is considered more of a military question now and the president indicated that if the railroad north from Mexico City to the American border were kept open as an avenue of egress for foreigners, the Washington government would be satisfied. The president said he had no doubt that those guilty of killing John B. McManus, an American citizen, recently, would be punished. With punishment of the offenders and payment of indemnity to the family the incident probably would be closed.

AGED LABORER HURT IN UNUSUAL MANNER

John E. Irwin, aged 70 years, and residing at 713 St. Mary's avenue, was seriously injured at 11 o'clock at the intersection of Wayne and Barr streets, where he was employed as a street cleaner, when an automobile and a two-horse wagon came in collision. The accident occurred in singular fashion. The auto, belonging to the Randall Sales company and driven by Theodore Bronson, a young colored man, came from the south on Barr street just as the wagon, in charge of Frank Mays, 1004 Eliza street, and employed by the Gilmartin Lumber company, was turning from the west into Barr street. Mays had a skeleton wagon, used to haul lumber and it being without a load was short-coupled with its reach projecting six or seven feet from the rear. The auto turned in such fashion as to strike the projecting reach and hurled the wagon to one side. Irwin, who was at work with his shovel and hand-cart, was struck and knocked down by the wagon. A large hole was torn in his forehead and he suffered other wounds of the scalp and injuries about the chest. He was taken to Hope hospital in the police ambulance. He will recover. Bronson says he could have avoided the collision had not his brakes failed to work. Bystanders who saw the accident agreed that no one seemed to be especially at fault. The injured man will recover.

COMPLETE PLANS FOR ST. PATRICK'S DAY

Big Parade Will Form at St. Patrick's Church at 8 O'clock.

Everything is in readiness for the celebration of St. Patrick's day, Wednesday, by the Ancient Order of Hibernians. According to the program the annual parade will move promptly at 8 o'clock and the line of march and assignments of places are as follows: Allen county board A. O. H., Citizens' band, St. Patrick's A. O. H. cadets, Cathedral A. O. H. cadets, all under command of Edward C. Cleary, marshal; Division No. 1 A. O. H. and all patriotic Irishmen.

The line of march will be north on Calhoun street to Wayne, east on Wayne to Barr, north on Barr to Berry, west on Berry to Fairfield, south on Fairfield to DeWald and east on DeWald to St. Patrick's church.

Upon arrival at St. Patrick's church the parade will be met by Ladies' Auxiliaries Nos. 1 and 2 and all will join in assisting at solemn high mass, which will be celebrated by Rev. Joseph F. Delaney, assisted by Rev. Nicholas Keller, deacon, and Rev. Bennett, subdeacon. Rev. Edward Mungovan will be master of ceremonies and will deliver the sermon.

After the services close the parade will re-form at St. Patrick's church and move north on Harrison to Butler, east to Calhoun, north to Lewis, around Cathedral square to Library hall and disband.

The evening entertainment will be under the auspices of Divisions Nos. 1 and 2, Ladies' Auxiliary Ancient Order of Hibernians. Brief addresses will be delivered by Hon. James E. Deery, state president A. O. H.; Rev. John R. Quinlan and Rev. Joseph F. Delaney. Refreshments will be served. Hon. James E. Deery is judge of the Indianapolis municipal court.

Green will doubtless be greatly in evidence throughout the entire day. Many of the stores will be appropriately decorated.

BUSY SEASON FOR THE COUNTY AGENT

C. Henry, county agent, will give another oat smut demonstration Tuesday evening at Milan Center in Milan township. A demonstration was given Monday evening at the M. E. church in Scipio township before the members of the Scipio Township Farmers' clubs. About forty members were present. On Friday together with T. A. Coleman, in charge of the county agents of the state, he will attend a meeting of farmers to be held at Auburn.

The county agent has been busy for the last two days sending out letters to the teachers of the county regarding the boys' and girls' clubs and asking for their co-operation.

Mr. Henry received word Tuesday morning from T. A. Coleman, of Purdue university, that the conference of county agents to have been held at Monroe on [illegible]

RICH JEWELS FROM MEXICO

Priest in Flight Brings a King's Ransom in Church Gems.

VALUE MORE THAN HALF A MILLION

Historic Vestments Pass Hostile Lines in Battered Suit Case.

New York, March 16.—A king's ransom in jewels blazoned in the royal eagles of Spain at the time of Charles V, the most powerful monarch of the sixteenth century, lies under guard at the customs house here awaiting appraisal.

The gems, set in gold on white and purple robes and mounted on two golden crowns, were brought into New York by a Catholic priest clad in shabby clothes, who fled from Mexico City a month ago, made his way to Vera Cruz and sailed aboard the steamer Montevideo.

From the depths of a battered suit case the gems and robes were tumbled out upon the dock for inspection by the customs authorities. They so dazzled the inspectors that they were hastily put back into the suit case. Under guard they were taken to a safe deposit vault, where they were locked up and special watchmen detained to guard them. Rough estimates placed their value at from $300,000 to $500,000.

Had Lain for Centuries.

This rich prize, it is said, lay in the cathedral of Mexico City, presumably for centuries—till it slipped through Carranza's fingers in the flight from Mexico of the priest who brought it to America. The name of this priest was withheld. It was learned, however, that the priest had said he hastily packed the jewels and robes in his suit case when Gen. Obregon called for a church tax of $500,000, locking up many Catholic priests in Mexico City until the tax was raised.

An archbishop's robe of purple is the chief article of value. The robe is of silk and apparently of great antiquity. Wrought in diamonds, emeralds, rubies and pearls, on the front of the robe so that it covers the wearer's breast, is the ancient Spanish coat of arms consisting of double eagles, back to back, wings raised, necks, back and beaks open. The entire design is done in gold, in which the gems are mounted, and the robe is very heavy.

From Sixteenth Century.

From the double eagle design, the customs officials believe there is truth in the priest's story that the robes were sent to Mexico in the sixteenth century. Spain in that period was at the height of her power and her ruler, Don Carlos I, was known as Charles V of the Holy Roman empire.

Next in value to the archbishop's robe are two gold crowns mounted with diamonds, rubies, emeralds and sapphires. Some of these gems, it is said, are as large as hazelnuts. There are [illegible]

Dead Men's Names on Registration Books

Indianapolis, Ind., March 16.—Dead men were placed on the registration books in Terre Haute last October, according to Ira Wellman, Silas Brewer and Jos. G. Elder, who testified in the Terre Haute election fraud case today.

The three men testified they had verified the poll as taken from the registration books and found many registered from vacant houses, impossible numbers, and addresses outside of the precincts in which they were working, and several hundred names of men who could not be found at all.

Wellman verified the poll in three [illegible]

Brewer worked in four precincts he said and found one man, who had been dead a year, registered from a house that had been moved away. There were a total of about 200 names on the books that he could not locate, he asserted. In addition he testified many were registered from vacant lots and impossible street numbers.

Elder also testified he found ten persons registered from vacant lots in one precinct.

WILSON ATTEMPTS [illegible] END BIG DEAL

Washington, March 16.—

ITALY NOW NEAR DECISION ON WAR

London, March 16.—Dispatches from Italy make it apparent that nation is approaching a decision whether it shall adhere to its policy of armed neutrality or intervene in the war.

Following the reports of partial suppression by Italy of the mails to Austria and the conference of Emperor Francis Joseph with his ministers of war, concerning the defense of the Italian frontier, is a dispatch from Rome to the effect that the Italian fleet is being concentrated at Tarento. This is the point in Italy nearest the Dardanelles.

So far as has been reported officially the bombardment of the Dardanelles has produced no further important results. Unofficial advices from Athens say that on Sunday the attacking warships silenced Turkish batteries, which had been posted above Kum Kalet, at the entrance of the Dardanelles.

A Russian official statement says the German assault on Ossowetz is producing only insignificant results. In their effort to capture this important fortress, where they have centered their attack on the Russian fortified line in northern Poland, the Germans have moved up their heavy artillery, but the Russian statement says the advantage thus far rests with the defenders. It is also said that the German advance toward Przasnysz is being held in check and that attempts to relieve Przemysl, in Galicia, have been ineffectual.

It is admitted that in the Carpathians the Russians are making little progress and have suffered very heavy losses.

WRIT SAVES HARRY THAW

His Attorneys Halt Effort to Rush Him Back to Matteawan.

ASYLUM ATTACHES READY IN COURT

Justice Page Denies Motion to Return Him to New Hampshire!

New York, March 16.—Harry K. Thaw will not be sent back to New Hampshire by the state of New York, as his counsel demanded, but must be returned to Matteawan asylum "unless legal papers calling for his detention in New York city are served upon the warden of Tombs prison."

Such was Supreme Court Justice Page's decision today in disposing of the formal motion to have Thaw returned to New England.

In the meantime counsel for Thaw, as in anticipation of just such a decision, had obtained from Supreme Court Justice Bijur a writ of habeas corpus which will keep Thaw in Tombs prison till next Friday when he must be produced in court.

Close Call for Thaw.

It was a close call for Thaw as plans had been considered by the state for returning him at once to his long-time residence in the hospital for the criminal insane. Asylum attendants were in the court room, ready to rush him there by automobile the moment the motion for a return to New Hampshire was denied. But the writ of habeas corpus which had been served half an hour before on Warden Hanley of the Tombs prevented this.

Sheriff Grifenhagen, of New York county, had heard whisperings of a plot to abduct Thaw during the brief interval when he should be out of Warden Hanley's custody in going to and from the prison to the court room across the bridge of sighs. Accordingly, the sheriff armed twenty deputies with revolvers and scattered them throughout the crowd that packed the court room. Many more armed deputies were sprinkled among the crowds in the corridors.

Taking No Chances.

"I am taking no chances," the sheriff said. "I am well heeled for an abduction."

Thaw entered the court room smiling and confident. He glanced over the crowd for a familiar face, apparently seeking his mother, his sister and his half-brother, Josiah Thaw, but they were not present.

Smile Changes to Frown.

When the decision was announced Thaw's smile changed to a frown. Plainly he was disappointed. He turned quickly to John B. Stanchfield, of his counsel, spoke a few words in an undertone and took his seat. A moment later, two of the sheriff's deputies led him away to the Tombs.

Justice Page took occasion to comment, in his decision, on the good faith displayed by the state of New York towards New Hampshire by placing Thaw on trial on the conspiracy charge. There had been no evidence the court held, to warrant the charge that Thaw had been brought back simply to again be sent to Matteawan. Nor had there been adduced any adequate reason why Thaw should be sent back to New Hampshire after his trial and acquittal.

Thaw was to go back to Matteawan, Justice Page decided, upon the old commitment of Justice Dowling.

Next Step on Friday.

The next step in the litigation to keep Thaw out of Matteawan will be taken Friday before Justice Bijur upon return of the writ of habeas corpus. It is expected an effort will be made then to have the question as to Thaw's insanity decided by a jury. Failing to obtain Thaw's release there is a strong probability that the case will be thrown into the federal courts again and will eventually find its way to the United States supreme court. Mr. Stanchfield so asserted. "The motion to have Mr. Thaw returned to New Hampshire and its denial are without precedent in law," he said. "In a case of this kind, where a man's sanity and constitutional rights are involved it seems to me that the matter should be settled by the United States supreme court."

It was understood that an appeal probably would be carried through the state courts to the highest tribunal and afterward, if necessary, taken into the federal courts and finally before the supreme court.

SURE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get about two ounces of plain powdered neroxin from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin—pinching and squeezing only cause irritation, make large pores, and do not get them out after they become hard. The powdered neroxin and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.

RULES FOR CORN GROWING CONTEST

Each Contestant Must Grow Five Acres in One Continuous Piece.

Rules for the county corn growing contest to be held in Allen county and other counties throughout the state have been announced by the agricultural extension department of Purdue university and are as follows:

Each contestant shall grow five acres of corn, same to be in one continuous piece in one field and within Allen county.

Each contestant shall make application for entry to contest on or before May 15, 1915.

Each contestant shall keep an accurate record of how the crop was grown and shall report same on blanks furnished by the committee not later than September 30, 1915.

Each contestant shall keep an accurate record of all items pertaining to the cost of producing the crop. Each two-horse load of manure is valued at $2 per load, and commercial fertilizer at the actual cash value, but only one-half of either will be charged to the present crop. Labor of each man shall be valued at twenty cents per hour, while man and team shall be valued at thirty-five cents per hour. Estimate rent of land at $6 per acre. This is to be reported on blanks furnished by the committee not later than September 30, 1915.

Each contestant shall assist the committee in measuring the plot and determining the yield.

The plan to be followed in determining the yield of the field is as follows:

On or before October 10, 1915, a committee of three disinterested persons, one of whom shall be appointed by Purdue, shall visit the field to secure data as to—

(a) Size of plot.
(b) Ear bearing stalks per acre.
(c) Weight of corn per acre.
(d) Weight per bushel (moisture content to be considered).

Awards will be made on the following basis:

(a) Yield 70
(b) Cost of production 30

CALLS INTERVENTION ALMOST INEVITABLE

Paris, March 16.—That "anarchy in Mexico and the crimes committed there make intervention by the United States almost inevitable," is a statement credited to Premier Dato, of Spain, in a dispatch to the Petit Journal from its Madrid correspondent. The premier is reported to have said the Spanish government had decided not to maintain diplomatic relations with Mexico until the situation there again is normal and will decline the invitation of Gen. Carranza to send a representative to act as successor to Minister Caro, who was expelled from Mexico.

A dispatch from Madrid on March 14 said the Spanish government had published the negotiations with Gen. Carranza, which grew out of the expulsion of Minister Caro. It was said that Spain had accepted in principle the explanation offered by Carranza and probably would send Manuel Walls Merino to Mexico as its confidential agent.

NAMES MULBERRY MAN.

Indianapolis, March 16.—Governor Ralston has appointed Nathan B. Combs, of Mulberry, a member of the state board of veterinary medical examiners. He succeeds Dr. Thomas A. Sigler, of Greencastle, who resigned. Mr. Combs a democrat, was a member of the 1913 general assembly.

Beware of Tight Cough, Precedes Pneumonia.
Home-Made Syrup Loosens.

You can make a simple laxative cough syrup which will loosen the tightest cough in one hour and cure any cough or cold in a very short time. Here is the formula:

Essence mentho-laxene.....2½ Ozs.
Granulated sugar syrup.....13½ Ozs.

Make the syrup by using a pint of granulated sugar and a half pint of boiling water. Mix, stir and let cool. Then go to the drug store and buy a 2½ oz. package of Essence Mentho-Laxene (concentrated), empty it into a pint bottle and fill up with the syrup. Take a teaspoonful every hour or two as needed and you will soon be entirely rid of your cough and cold. This relieves and cures old people quicker and surer than anything ever heard of, and it is just fine for children, they like the taste so well.—Adv.

WILL CONTINUE USE OF RED CROSS SEALS

The Fort Wayne Anti-Tuberculosis society will continue to use the Red Cross seals of the state organization, according to an agreement that was reached Monday afternoon at a conference between the executive committee of the local body, Prof. Severance Burrage, of the state organization, and Dixon Van Blarlom, of New York city, field secretary of the national organization.

According to the agreement the state society will in the future receive 25 per cent. of the money derived from the first 100,000 seals sold by the Fort Wayne body, 20 per cent. from the second 100,000, and 15 per cent of all over 200,000. Last year a total of 270,000 seals were sold here, Fort Wayne ranking second among all the cities in the United States according to its population.

It was contended by the local society that the state society was not organizing the smaller towns in this section. Since making this complaint the state society has established [illegible]

LOUIS MOHR PASSES AWAY IN CALIFORNIA

Louis Mohr, a former well known business man of this city, and a distinguished music director, died at the family home in Whittier, Cal., Sunday evening at the age of 72 years, following an extended illness. This was the message received by relatives in this city but contained only a few details. However, it stated that Mrs. Mohr was seriously ill and would be unable to accompany the remains to this city.

The deceased was born in this city and was the son of Mr. and Mrs. John Mohr, and was a member of one of the best known and oldest families of the city. While residing in this city Mr. Mohr was engaged in the sewing machine business but moved his family to the west six years ago. For a short time while living in Fort Wayne he was in the insurance business.

Besides the widow he is survived by the following children: Arthur Mohr, Rose and George Mohr and Mrs. W. S. Howey, of California. Mrs. H. C. Taylor, of this city, is a sister.

ACCUSE MUNCIE MAYOR OF ACCEPTING BRIBE

Muncie, Ind., March 16.—Following a grand jury investigation of several days, Mayor Rollin H. Bunch and Deputy Prosecutor Gene Williams were arrested early last evening on grand jury indictments which charge them with accepting bribes and Justice of the Peace John Day was arrested on an indictment charging him with having failed to docket cases in which fines were levied by him in his court.

Mayor Bunch is charged in true bill with having accepted $1,600 from Loyd Yount, an agent for a machine concern, and Deputy Prosecutor Williams is charged with having accepted $100 from Yount. All three men were released on bond.

Dresden is Sent Down in a 5-Minute Fight

London, March 16.—The admiralty office last night announced that the German cruiser Dresden had been sunk.

The Dresden was trapped by the British warships Glasgow and Kent and the converted cruiser Orama near Juan Fernandez island, in the Pacific, 400 miles off the Chilean coast.

After five minutes' fighting the Dresden's colors were hauled down. The ship had been set on fire, its magazine exploded and the vessel sank.

The 320 members of the crew, including fifteen badly wounded, were saved. None of the British ships was damaged and there were no casualties among their crews.

Escaped Falklands Battle.

The Dresden was the only German vessel which escaped in the battle near the Falkland islands in the South Atlantic in December, when the Scharnhorst, Gniesenau, Leipzig and Nurnberg were destroyed.

The sinking of the Dresden leaves at large on the high seas, so far as is known, only the cruiser Karlsruhe, last reported as operating in the West Indies, and the auxiliary cruiser Kronprinz Wilhelm, which is raiding commerce in the South Atlantic.

The Dresden was a sister ship of the famous Emden, which was sunk off Cocos island, in the Indian ocean, by the Australian cruiser Sydney after an adventurous career.

Ends Long Search.

The destruction of the Dresden ends a search of two seas which has been in progress on the part of the British "flying squadron," aided by Japanese cruisers, ever since the Falkland islands battle.

The Dresden, a vessel of 3,600 tons, was no match for the battle cruisers in the fleet of Vice Admiral Sir Frederick Sturdee in the battle, and after the destruction of the four other German ships the Dresden steamed away and escaped in the darkness.

SEEK STATEMENT FROM SURVIVORS

New Terre Haute Murder Case Proves Puzzle to the Police.

Terre Haute, Ind., March 16.—Efforts were to be made today by police and prosecutor to get a statement from one of the survivors of the family of William C. Balding, the telephone company employe, three members of whom were murdered in their beds and three others of whom were wounded by being beaten with flat irons. At the hospital Clifford Balding, 12; Irene, 3, and Walter, one year old, were still unconscious this morning. An attempt was made to get a statement from Clifford last night when he showed signs of returning consciousness, but it proved unsuccessful. The mother, Mrs. Mary C. Balding, died last night.

The police held one man today whom they suspected might know something about the tragedy but were not confident of any immediate solution of the mystery.

Reports that $10 which Mrs. Balding was known to have had in the house turned the police toward the theory that robbery may have been the motive for the crime. William C. Balding, the husband and father, returned to the city early this morning from Centralia, Ill., where he had been doing line work for a telephone company. He said he knew of no enemies of the family and could give the police no additional information upon which to base their search for the murderer.

OFFICIAL FLAG FOR THE VICE PRESIDENT

Washington, March 16.—A flag for the vice president, the first in the history of the American navy, has been authorized by Secretary Daniels. It is like the president's flag except that it has a white instead of a blue field, for the coat of arms of the United States. The flag will be hoisted for the first time when Vice President Marshall as the representative of President Wilson at the Panama-Pacific exposition, boards the flagship Colorado at San Francisco, this month.

MARSHALLS AT CHICAGO.

Chicago, March 16.—Vice President Marshall and Mrs. Marshall are here on their way to the Panama-Pacific exposition at San Francisco. They will leave tonight. Franklin B. Roosevelt, assistant secretary of the navy, will make the trip to the coast with them.

ARMED MEN GUARD BODY OF MRS. ROCKEFELLER.

Tarrytown, N. Y., March 16.—Two armed guards kept watch today over the body of Mrs. John D. Rockefeller, sr., in the mausoleum of John D. Archbold, in the Sleepy Hollow cemetery here. It was stated that guards would be kept on duty until [illegible]

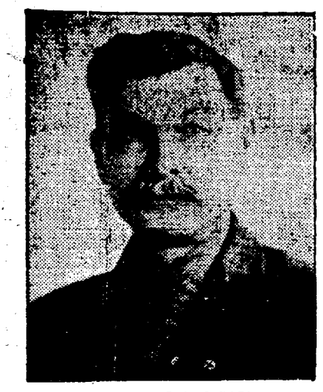
ROGERS

ANTHONY HOTEL BLDG.

SEVERE HEADACHES, SLEEPLESS NIGHTS

Was the Lot of A. O. Richardson 2418 Gay St., Fort Wayne; Is Now Well.



A. O. RICHARDSON.

Eminent authorities say that headaches are merely warnings of other trouble, in other words it is merely a notification of nature that something is wrong and generally it is the digestive system that is clogged up and you are poisoning yourself and your nerves cry out in protest, and many just swallow a headache powder, depress the heart and circulation and let it go at that, with the results that the warning is suppressed and dire results often follow. Clean out your stomach and intestinal tract and you will get rid of the pain in the natural way, and Herb Lax-a-Tone will not only clean it up, but it will put it into such shape that your trouble will disappear permanently. Mr. Richardson says, have had a bad stomach for three years, would bloat up terribly with severe pain across the stomach and such terrible headaches that I had to sit up nights with pain. But now, thanks to Lax-a-Tone, I can truthfully say my trouble is at an end. If you have bilious spells, constipation, kidney trouble with swollen feet and ankles, try this great tonic.

The Herb Lax-a-Tone man is at Dreier Drug Co., 526 Calhoun street, where he is demonsrating this remedy. Free samples given Tuesday and Wednesday.

DIVORCED AND REWED AT 15.

NEWS OF FORT WAYNE'S NEIGHBORS

KEPT MARRIAGE LONG SECRET.

Bluffton, Ind., March 16.—The friends of Charley Wiley, of Elwood, a former Bluffton boy, and the son of Mrs. Susan Wiley, of this city, have been informed of his marriage performed while Mr. Wiley was working in New York city over twenty years ago and which had never previously become known here. Mr. Wiley's wife died about a year and a half after their marriage, according to the best information obtainable here, and left him with an infant son. Mr. Wiley placed the son in the charge of his maternal grandparents and has been supporting and educating the boy with them for twenty years past. The announcement of the marriage was made last week when Mr. Wiley sent for the boy to join him at Elwood.

ADAMS COUNTY FARMER DIES.

Decatur, Ind., March 16.—John Newton Stevens, aged 35, one of the well known young farmers of Union township, is dead at his home on the Clark Brothers' farm. Mr. Stevens had been suffering from pneumonia, which developed into heart failure, causing his death very unexpectedly. Mr. Stevens was a son of Mr. and Mrs. Smith Stevens, residents of Union township, and was born there Sept. 19, 1875. He was reared to manhood on the farm and had followed that vocation all his life. Mr. Stevens s survived by a widow and two daughters.

PASTOR TO LEAVE AUBURN.

Auburn, Ind., March 16.—The members of the First Baptist church of this city were taken by surprise when Rev. H. B. Mellinger, pastor of the church, announced that on May 10 he would leave the pastorate of the church. As yet Rev. Mellinger is undecided as to where he shall go from Auburn, but it is certain that he will move from this city. Mr. Mellinger has been the pastor of the local church for the past ten months and at the time his resignation takes effect on May 10 he will have been here a year. Mr. and Mrs. Mellinger came here from Clyde, Ohio, where he was pastor of the church at that place.

FIND BONES OF MASTODON.

Plymouth, Ind., March 16.—On exhibition in this city are the bones of a mastodon, the prehistoric elephant that roamed this region when its climate was more tropical. Eight bones were unearthed by a dredger digging the Seltenright ditch on the Mosslander farm four miles north of Plymouth. Six of the bones are vertebrae and are of enormous size. There is also a part of the femur, or thigh bone. Only about two-thirds of this bone is preserved. Its size indicates that the specimen to which it belonged was in life seventeen and one-half feet high and approximately thirty-four feet long. The bones have attracted much attention here.

AGED NATIVE OF COUNTY DIES.

Goshen, Ind., March 16.—Mrs. George W. Farrell, one of the oldest natives of Elkhart county, is dead at her home here, aged seventy-six years, after a year's illness. Mrs. Farrell was born at Fairlawn farm, March 1, 1839, and was a life-long resident of the county. She was a daughter of William Latta, who was one of the first settlers of Elkhart county. She was one of eleven children, only two of whom are still living. They are Mrs. Mary L. Bivins, of Goshen, and Mrs. Carrie Hachstaff, of Denver, Colo. In 1870 she was united in marriage with George W. Farrell and lived at Waterford until 1886, when the family moved to Goshen. Her husband, three sons and three grandchildren survive.

OF INCENDIARY ORIGIN.

Hartford City, Ind., March 16.—Three colts, six milch cows and two calves were burned to death in a fire which destroyed two large barns and a buggy shed and damaged the house on the farm of John Schwartzkopf, well known Harrison township man, near Montpelier. The loss will be about $6,500, with $3,500 insurance. Schwarzkopf believes the fire was of incendiary origin. So quickly did it break out in the larger of the two barns that there was evidence that the fire had been started simultaneously at a number of points. Twelve head of horses, a bull and a buggy were saved from the flames.

WOMAN HAS SMALLPOX.

Huntington, Ind., March 16.—Mrs. D. H. Shell, wife of the county superintendent of roads, who lives in Union township, is ill with smallpox. Though the case is not severe, Mrs. Shell has been very ill. The illness was at first treated for a case of the grip without a physician seeing Mrs. Shell. Later it was reported that she had broken out with something and a visit by two physicians showed a well-developed case of smallpox.

SCARLET FEVER EPIDEMIC.

Huntington, Ind., March 16.—The ninth case of scarlet fever in the vicinity of Monument City was quarantined yesterday when Helen Wolverton, young daughter of Mr. and Mrs. Edward Wolverton, was found to have contracted the disease. It is believed that she was exposed to the disease at the Monument City school, as several other pupils are now quarantined.

EAGLES TO ENLARGE HOME.

Warsaw, Ind., March 16.—Plans to enlarge the Eagles' home in the future assumed definite proportions when the Eagles' lodge secured an option on the building of Robert Hickman, now occupied by the Brant and Beebe billiard hall. According to the agreement at the death of Mr. Hickman the lodge is to buy the building. A price of $7,100 is to be paid.

ST. JOE WOMAN CALLED.

Auburn, Ind., March 16.—Mrs. John Y. Davis, for thirty-four years a resident of St. Joe, passed away at her home there Monday, dropsy being the immediate cause of her death. She had been ailing for about three years and for the past three months had been confined to her home. She is survived by her husband, one son, Frank Davis, of St. Joe, and one step-daughter, Mrs. John Wineland, also of St. Joe.

LAOTTO PAIR JOIN HANDS.

Albion, Ind., March 16.—Miss Ina M. Simon, of near Laotto, and Donald Brown, of Laotto, were married here in the Lutheran parsonage by Rev. C. S. Bream. They expect to reside on a farm near Laotto. The bridegroom has been a resident of Laotto for the last two years, being employed in a store. He will quit to start farming. The bride is the attractive daughter of V. C. Simon, trustee of Swan township.

MAKES WORK FOR COURTS.

Goshen, Ind., March 16.—A few hours after she had received a decree of divorce from her husband, Earl Woods, and was allowed to resume her maiden name, Violet Hardwood filed a paternity charge against Carl Routsong, of this city. Routsing was arrested and held under $400 to circuit court.

TAKEN TO PENITENTIARY.

Bluffton, Ind., March 16.—Clint Deam, whom Judge Eichhorn sentenced to two to fourteen years in the state prison at Michigan City, has been taken there by Deputy Sheriff George Albright. An appeal had been granted, with bond fixed at $3,000, but it was indicated that there would be no appeal. Deam was found guilty of assault and battery with criminal intent to commit rape.

GET TO THE CAUSE

Fort Wayne People Are Learning the Way.

There is but little peace or comfort for the man or woman with a bad back. The distress begins in early morning—keeps up throughout the day. It's hard to get out of bed, it's torture to stoop or straighten. Plasters and liniments may relieve, but cannot cure if the cause is inside—the kidneys. When suffering so, use Doan's Kidney Pills, the tested and proven kidney remedy, used in kidney troubles for over 50 years. Doan's Kidney Pills are recommended by thousands for just such cases. Proof of their effectiveness in the testimony of this Fort Wayne resident:

Mrs. A. Smead, 1010 High St., Fort Wayne, says: "Last summer I used several boxes of Doan's Kidney Pills and they did me more good than any other kidney medicine I had ever used. My kidneys were weak and the trouble affected my back. Doan's Kidney Pills cured me and since then I haven't had any trouble. I advise anyone who has kidney complaint to use Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smead had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

POLICE HEAR STRANGE TALE.

East Carmi (Ill.) Man Tells of Stabbing Intruder in Home.

Carmi, Ill., March 16.—Elmer Baker, a resident of East Carmi, has told a strange story to the police of this city. He said he went home a few nights ago and that when he entered a room some one struck him on the shoulder. Believing the assailant a burglar, he drew his knife and began stabbing at him. He then ran to the home of a neighbor and the two returned and examined the room with the aid of a light. The walls and floor were spattered with blood.

A boat was found near the river, a short distance from Baker's home with the sides blood stained. The police are of the opinion that the wounded man went to the boat to wash away the blood and fell into the river and drowned. Arrangements are under way to drag the river.

THE SENTINEL'S DAILY SCRIPTURE READING.

Luke 18:31-43.

31 Then he took unto him the twelve, and said unto them, Behold, we go up to Jerusalem, and all things that are written by the prophets concerning the Son of man shall be accomplished.

32 For he shall be delivered unto the Gentiles, and shall be mocked, and spitefully entreated, and spitted on:

33 And they shall scourge him, and put him to death; and the third day he shall rise again.

34 And they understood none of these things: and this saying was hid from them, neither knew they the things which were spoken.

35 And it came to pass, that as he was come nigh unto Jericho, a certain blind man sat by the way side begging:

36 And hearing the multitude pass by, he asked what it meant.

37 And they told him, that Jesus of Nazareth passeth by.

38 And he cried, saying, Jesus, thou Son of David, have mercy on me.

39 And they which went before rebuked him, that he should hold his peace; but he cried so much the more, Thou Son of David, have mercy on me.

40 And Jesus stood, and commanded him to be brought unto him: and when he was come near, he asked him,

41 Saying, What wilt thou that I shall do unto thee? And he said, Lord, that I may receive my sight.

42 And Jesus said unto him, Receive thy sight: thy faith hath saved thee.

43 And immediately he received his sight, and followed him, glorifying God: and all the people, when they saw it, gave praise unto God.

Selling to Warring Nations.

Statisticians with access to a view of the trade channels of this country come forward with the statement that during the first six months of the European war the United States sold war supplies to the value of $400,000,000 to the warring nations. These figures do not take into consideration exports of food supplies destined for the civil population of those countries, but only the material that has actually to do with war operations.

Of this $400,000,000 which was poured into the trade channels of America, about $25,000,000 was expended for motor cars, $105,000,000 for arms and explosives, $65,000,000 for iron and steel, $30,000,000 for uniforms, socks, sweaters, etc.; $6,000,000 for chemicals and hospital supplies; $18,000,000 for soldiers' shoes, harness and other leather products, and $160,000,000 for miscellaneous goods, including food supplies known to have gone to the various armies.

It is not possible, of course, to trace accurately every shipment of goods that will ultimately find its way into military use abroad. A large proportion of the purchases are made through brokers who maintain secrecy regarding the destination of the shipments. The manufacturers may have a suspicion as to the final use of the products, but they are vastly less concerned regarding this phase than in the assurance that payment will be forthcoming, and it usually is. Goods are sold for delivery here, and all shipment is at the buyers' risk.

The ultimate magnitude of American business with the warring nations will, of course, depend largely on the duration of the struggle. Contracts already placed will bring the aggregate up to at least one billion dollars, and it is probable that a good many millions more will pour into the United States in this form of trade before the treaty of peace is signed.

One phase of the problem of the unemployed with which it is difficult to have any sort of patience was forcefully presented in the Fort Wayne city court Monday morning. But two men out of a total of some fifty who had congregated there to feast idle curiosity and degraded tastes by absorbing the reeking details of shame and misfortune were at all attracted by the announcement that jobs for at least twenty-five men were awaiting claimants on a sewer construction contract. The remainder simply treated the offer with silent contempt. There is always sympathy for the man who really wants work and cannot get it, but the sort that made up that police court audience is entitled to neither sympathy nor assistance.

Indianapolis dispatches would have us believe that a $2,000 state job—that of tariff clerk to the public service commission—is yawning in a vast chasm of vacancy because nobody can be found to take it. Much as it pains us to doubt the veracity of Indianapolis dispatches, there are limits to which human credulity cannot extend itself. The case in point is one of them.

Fort Wayne is both gratified and honored by the presence of the Indiana Maccabees in state convention. It extends to them the most cordial welcome, and it expresses the hope that their stay in the city may be most pleasant and their deliberations in behalf of their great fraternal organization most profitable.

And now Senor Guiterrez, who was for a brief space of time nominally provisional president of Mexico, has set up his own junta at Washington as a contribution to the assortment of Mexican factions represented at our national capital. Oh, well; what's a few confidential agencies more or less between friends?

The Indianapolis Times observes that Fort Wayne is showing the proper spirit in taking promptly in hand her own flood problems. It [illegible]

SOMETHING PRACTICAL.

(Indiana Daily Times.)

If the friends of a constitutional convention are to get anywhere, that forward progress must be on practical lines. First of all, it is suggested the advocates of a new constitution take measures to get political party majorities and committees interested in the movement. This means activity in all parties to select progressive precinct committeemen, county chairmen and state committee members. So the reorganization of parties comes first. Under the new primary law is to be found the opportunity so long desired by the progressive element in every party.

In the making of state delegates is another big work for the practical forces that urge a constitutional convention. It is plain the constitutional convention will be in sight if the progressive forces are able to induce all political parties to adopt a constitutional convention plank in 1916. Having the parties pledged and having individual legislative candidates nominated and put on record in favor of a constitutional convention, it will follow the 1916 legislature must call a constitutional convention without delay. The people have seen in the 1915 legislature how party organizations can be induced to fulfill party promises.

It is to be hoped the advocates of a constitutional convention will give at least part of their time to practical politics and to the task of getting the great agencies of government working for progress. After all, propaganda is not the only essential. Friendly organization men, pledged parties and legislators on record for the constitutional convention are the absolutely vital things.

THE CANAL BUSINESS.

(Pittsburgh Dispatch.)

The traffic through the Panama canal so far exhibits the peculiarity that it is far in excess of Prof. Emory Johnston's estimate on the domestic traffic and far below his estimate on the foreign traffic. Fifty-nine American vessels engaged in coast-wise trade operate regularly through the canal. The domestic traffic through the canal up to February 14 was 992,711 tons, or nearly as much in six months as Prof. Johnston estimated for the first year. So the domestic tonnage is liable to be nearly twice the estimate. The foreign tonnage has, however, fallen short of the estimate, being 1,374,533 tons. This is evidently due to the European war. The remedy for that must be looked for either in the return of peace or the rise of the United States in commerce to supply the lack. We are building ships to do more commerce; but the substitution of American commerce for European will of necessity be a work of time.

After fourteen years of service Capt. T. C. Whiting, a tool gate keeper on the New Haven road, has resigned and will move to his pleasant suburban home, "Hilltop," on the Bluffton road.

Dr. Charles E. Barnett, who was graduated from the Fort Wayne College of Medicine this week, will leave next week for his home in Nashville, Tenn., and later will locate in Nebraska to practice his profession.

An inventory of the personal estate of the late Hon. William Fleming was filed in the circuit court yesterday afternoon by Messrs. George H. Wilson and George D. Crane, who were appointed to appraise it. The personal property is appraised at $261,394.53. It is believed the real estate will exceed this in value and that the entire estate is worth considerably above $500,000.

INDICTMENTS ARE QUASHED.

Vincennes Prosecutor Will Appeal Gambling Charges.

Vincennes, Ind., March 16.—One hundred and fifty indictments returned by the grand jury against citizens of this city were quashed yesterday when Judge C. M. Willoughby, of the Knox circuit court, sustained a motion, by defense attorneys, to dismiss the charges for gaming and visiting gaming houses. In his rulings, Judge Willoughby held that the first counts in the indictments were faulty because they charged gaming instead of gambling and that the second and third counts were void in that each charged gaming with the same person.

After the motion to quash had been sustained, Prosecutor Kimmell announced that he would appeal the ruling to the higher courts.

HIGH COST OF DYING CONFRONTS CAPITAL

Washington Cemetery Companies Have Boosted the Price of Lots.

Washington, March 16.—The high cost of living in the nation's capital has now been supplemented by the high cost of dying. The cemetery companies have all collaborated in an increase in price of all cemetery lots ranging from 6 to 10 per cent. The only company not included in the death combine is one whose lots are already all sold.

About seven years ago the federal penitentiary at Florence, Ariz., lodged four intellectual prisoners. They were Mexicans who had started a revolutionary junta in Los Angeles and by the activities of our department of justice, influenced by the then administration's friendship for Diaz, had been railroaded to jail on the charge that they had violated a federal statute by equipping actual revolutionary expeditions against a friendly country. They served four years. Among them was one Antonio Villareal.

Today Villareal is the revolutionary governor of the Mexican state of Nuevo Leon. His regime differs from that of Villa, Carranza and the other "leaders" in that there has not been a single execution for political reasons in his district since he assumed power. One of the first things he did when he took office was to announce that all lands not in use for agricultural or other purposes were open to any persons who might wish to use them for such purposes. He has no regard for paper titles or real estate precedents. Land is for those who will use it and use is the only title to land which he recognizes. He settled a strike on the Monterey street railways by briefly informing the European stockholders that if they could not come immediately to terms with the men, the government could easily do so by taking over the properties and running them as a public utility. The stockholders promptly granted the demands of the striking operatives.

A member of President Wilson's cabinet recently stated that the German spy system in Washington had been found to be so pervasive that the president was seriously considering abandoning the twice-a-week meetings with the newspaper correspondents at which he expresses his opinions more or less freely on many subjects. This may or may not have some connection with the recent determination to intermit for three weeks these, as well as other appointments, while the affair of the German commerce destroyer, Eitel Frederick, is under diplomatic consideration.

NICKEL PLATE IS SUED FOR $10,000

That Sum Demanded for the Death of Arthur T. Sturgeon.

Suit has been filed in the circuit court by the Tri-State Loan and Trust company, as administrator of the estate of the late Arthur T. Sturgeon, against the New York, Chicago & St. Louis railroad for $10,000 for the death of Sturgeon. It is alleged in the complaint that Sturgeon met his death November 29, 1913, at his home east of the city while trying to flag a west bound Nickel Plate passenger train that dashed into a farm wagon loaded with manure that had stalled on the tracks where a private roadwy to the Sturgeon home crosses the rilroad. It is said that the condition of the company's right of way at this point was such that the wagon could not be moved. Sturgeon, it is said, saw the train coming at a distance of 6,000 feet and fearing a wreck and the death and injury of passengers, stood on the track and gave warning signals. He was struck, according to the complaint, by a piece of the wagon, into which the train dashed. The company is blamed for conditions which stalled the wagon and for failure of the train to stop when the obstruction was sighted and the warning given.

Kerr Murray Matter Settled.

After more than two years of litigation of one sort and another the estate of the Kerr Murray Manufacturing company, which failed and went into the hands of a receiver, has been finally settled and disposed of in the circuit court by Special Judge Sol A. Wood, who has entered final decree to that effect, in the suit of George Cressler against the insolvent corporation. The decree cites the report of the receiver that all the property and assets have been sold and disposed of, all claims in favor of the company have been collected and all claims against it allowed or disallowed. The payment of fees to Walter A. Olds and Thomas E. Ellison, attorneys in the case, is directed and the distribution pro rata among creditors of $16,652.59 cash, now in the hands of the receiver, is ordered. The estate is therefore declared finally settled.

Notes of the Courts.

Lafayette O. Logan, widow of the late Orrin Logan and administratrix of his estate, has filed her final report in the circuit court.

Frank Wilson has begun action in the circuit court against Noah Amstutz for collection of $60 on account.

The last will and testament of the late Victor A. Huguenard has been filed for probate. The estate is left to the widow, Marie Jane Huguenard and a son, Joseph.

In the circuit court Robert Jeffries, a youth of 18 years, made a plea of guilty to a charge of entering a house to commit a felony and was given a suspended sentence of from two to fourteen years in the reformatory. Judge Eggeman told him that he would give him one more chance to pursue an honest life.

The will of Benjamin F. Ogden has been filed for probate. He leaves all his estate to his wife during her natural life, to then be distributed to his four daughters. Agnes Emily Philley, a daughter, is named executrix.

The superior court awarded the plaintiff $125 in the suit of Nathan Kaplan vs. Henry C. Pequignot.

The suit of the National Mill and Supply company has been dismissed from the circuit court.

The circuit court has denied the petition to have Edward Felger declared of sound mind.

BASS COMPANY IS DEMANDING SHARE

Wants Its Portion of Money Paid in for Ornamental Lights.

Through its attorneys, Barrett, Morris & Hoffman, the Bass Foundry and Machine company has filed with the mayor, the board of public works, the city comptroller and County Treasurer J. Herman Bueter, ex-officio treasurer of the city, a formal demand for its proportionate share of the sum of $2,900 that has been paid in by property owners as their assessments for ornamental lighting systems constructed under the board's resolutions numbers 5, 6, 7, 11 and 12, adopted Feb. 3, 1913, and number 12, adopted Sept. 13, 1913. The sum of $3,900 was received by the city March 13, 1915. The demand states that of this sum $3,000 is due the Bass company for furnishing the ornamental standards for the lighting systems. The assessments for work under some of these resolutions have been delayed owing to the fact that collection was resisted in the courts. A number of property owners, however, have been making payments and the Bass company [illegible] on the construction of a canopy in front of the buildings at 1030 and 1032 Calhoun street. The Jefferson Theater company is having a Calhoun street entrance to its playhouse, which fronts on West Jefferson street, built through at 1030 Calhoun street, and a part of the design is an ornamental canopy. This was being constructed also in front of 1032, occupied by the National meat market, and promised a portico twice as large as the board had originally contemplated. The permit for the work now applies only to the theater entrance.

HAVE ELECTRIC INCUBATOR.

An electric incubating device for developeing germ cultures taken to determine contagious diseases has just been installed in the laboratory of the city health department. A gas incubator did not work satisfactorily and was discarded. The electric device has an automatic thermal regulator and the heat is kept uniform at a normal bodily temperature, so that development of cultures is never arrested by too low a degree of heat. Another one will be installed in police headquarters that physicians may place their cultures at night when the health office is closed and no time will then be lost in having determinations.

AT THE MAJESTIC.

"High Jinks" Here Matinee and Night Saturday.

The story of "High Jinks," which Arthur Hammerstein will present at the Majestic theater Saturday is all about a perfume, which, once inhaled, makes all who have sniffed of it not only good-natured but remarkably hilarious. The secret of the perfume is communicated by the discoverer to an American nerve specialist, in Paris. The doctor decides to try it in his practice, and experiments on a young female patient. She becomes so joyous under its influence that she throws her arms around the doctor's neck and kisses him to her heart's content. Her husband, a quarrelsome Frenchman, is witness of the incident, and at once seeks satisfaction from the doctor. How the physician sought to outwit the Frenchman, and a tangled maze of femininity form the substance matter of the remainder of the plot, whose fun mounts higher and higher as it proceeds. The book and lyrics were written by Otto Hauerbach, Rudolf Friml, composer of "The Firefly," has furnished a score which is said to be richer in lively and humorous dance melodies than any of recent production. Besides a large chorus of pretty girls, the company includes a score of well-known entertainers.

AT THE NEW PALACE

"The Meanest Man in the World" is the sketch for which Fort Wayne has been waiting, lo, these many moons. Refreshingly humorous without any slapstick monkeyshines to mar the beauty of the lines the skit which is presented by Allan Dinehart, assisted by Miss Marie Louise Dyer, is by far the best offering of its character ever seen in Fort Wayne. Mr. Dinehart, as an impoverished attorney, attempts to collect an old account from an out of town customer and after declaring himself to be the meanest man in the world, he capitulates before the abject woe of the young girl, who owes the bill, borrows the money from a friend to settle the bill and then claims he did it because that's what everybody does, "helps the other fellow along."

Polly Connolly's singing of Percy Wenrich's latest song hits and his own playing of the refrains of a number of them on a Packard grand combine to make their little offering the brightest and snappiest of its character that ever was presented at the New Palace.

AT THE JEFFERSON.

TYRONE POWER IN "ARISTOCRACY"

Noted Tragedian at Jefferson in Paramount Drama.

Tyrone Power, the distinguished actor of the American stage, and acknowledged to be one of our foremost tragedians, comes to the Jefferson theater today, heading a cast of extraordinary brilliancy in a remarkable screen adaptation of Bronson Howard's noted society drama, "Aristocracy." No cast that has ever appeared in a Famous Players' production eclipses the one present in this picture, when individual and collective brilliancy is concerned. Marguerite Skirvin, the beautiful actress whose successes on the operatic stage acclaimed her to American audiences before she entered the silent drama is cast as the young wife of Stockton (Mr. Power) a socially ambitious man who marries the girl for her position in that circle; she, in her turn marrying him for his money. Edna Mayo plays the role of Stockton's daughter, Virginia. Other celebrities in the cast are William Roselle, Arthur Hoops and Ida Waterman.

"Sunshine Molly," another Paramount attraction will hold forth on the Jefferson screen tomorrow.

AT THE EMPRESS.

"I can see nothing wrong with that show," was the way that one lady spoke of "The Tango Queens" as she left the Empress theater last evening, "and I am sure that I am going to tell all my friends about it as I think it was a very good show from start to finish. I always had a different idea of burlesque, but when the Empress announced that they were going to give clean burlesque I thought I would take one chance and now I am glad for I am sure that I will be back every week."

"The Tango Queens" is playing at the Empress all this week and from the way the seat sale is going it looks as if there were a number of people that were glad that the Empress had changed from vaudeville to the class of present shows. However, there are a number of very good vaudeville acts on the present bill and they will please all.

LARGE AUDIENCES AT MAJESTIC.

German Pictures of Great War Are Interesting.

A large audience, of which the greater portion were from the German population of the city, enjoyed the German war pictures shown at the Majestic theater last night and many seats are sold for the matinee and evening performances today. The pictures are clear and easy to watch and present many interesting scenes of which there are a few that have not appeared in magazines or newspapers. The pictures of the German emperor and members of his staff are among the first shown and are especially interesting. There are a variety of scenes of the different armies involved in the awful struggle, of cities destroyed, of battlefields and battleships, ruins of cities and ruins of buildings, the effects of shot and shell on stone and iron, the big guns in action, French hydroplanes and German artillery; in fact so much that few will carry away with them the memory of all they have seen. The pictures are explained by a man who speaks both German and English and he was frequentl yapplauded during the entertainment.

Miss Spindler presided at the piano and played the "Blue Danube" waltz and other equally entertaining selections as well as "Die Wacht am Rhein" in which nearly the entire audience joined in singing.

GRIGG WRITES LETTER.

Calls Attention to New Law to Eliminate Houses of Ill Repute.

Harry H. Grigg ,of Kendallville, superintendent of the Indiana branch of the World's Purity Federation, has written to members of the league in this city asking for their co-operation in the elimination of houses of ill repute if there are any in Fort Wayne. Mr. Grigg calls attention to the injunction and abatement law passed by the last legislature, which makes the owner of the property responsible rather than the keeper.

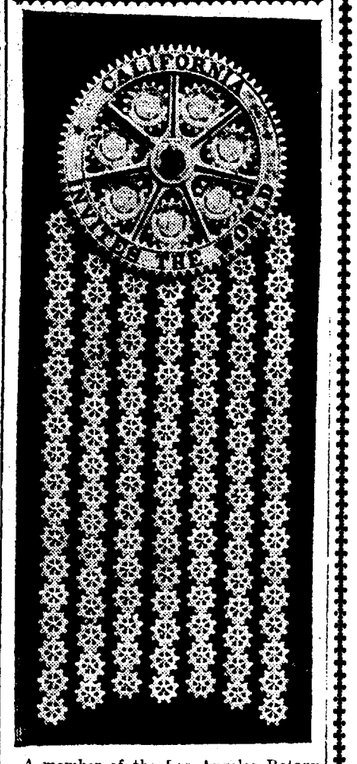
Golden Wheel Said to Be Worth $10,000



A member of the Los Angeles Rotary club conceived the idea of this unique invitation to the Rotariaans of the world and their friends to attend the California expositions in 1915. The Los Angeles Rotary club invited the six other clubs of California—Oakland, Sacramento, San Diego, San Francisco, San Jose and Stockton—to join them in extending the Rotary invitation, which resulted in this beautiful golden wheel with its smaller wheels for each Rotary club.

This golden wheel was designed and made at an expense of about $10,000 and presented to the International Association of Rotary clubs. The large wheel represents the International Rotary emblem, while the small wheels inside represent the Rotary clubs of California. These wheels are made of California gold. The small wheels below the large wheel represent the various Rotary clubs affiliating with the International association, though several additional clubs, including the Fort Wayne club, have been affiliated since the wheel was made. The wheel represents workmanship of a very high order by California craftsmen, and is well worth seeing. It is on exhibition in the window of Trenkley & Koerber's jewelry store.

The wheel is on a tour of the Rotary cities in the United States, Canada, Great Britain and Ireland. At the conclusion of its pilgrimage it will be displayed at the exhibition grounds at San Francisco and San Diego. The local committee in charge is composed of Robert Koerber, chairman; James Shields and H. P. Moran.

On Wednesday the wheel will be escorted by two policemen to the noon luncheon of the club at the Commercial club. Wednesday evening the wheel leaves for Warsaw, Wisconsin.

Millinery Opening

A Wonderfully Interesting Exhibit of the Best of the New Millinery Fashions for Spring Will Begin Tomorrow--"Courtesy Day"

"What will be the millinery styles for spring? is now a question of absorbing interest. It is a question to which we present a complete and highly interesting answer tomorrow in our Spring Millinery Opening. This display includes our entire millinery stock and embraces the new season's best ideas.

Tomorrow will be "Courtesy Day." Purchases will be allowed but deliveries will not be made until the day following. In times past, patrons have come to see the new models late the first day, only to find assortments incomplete because many had been purchased. By leaving every hat on display for one day, visitors can see all the new styles and gain a complete knowledge of Fashion tendencies. We believe that the fairness of this method will be heartily approved.

There are scores of different shapes, styles and trimmings represented in this exhibition; but whatever the shape, if it is small, it is intended to be worn tilted over the right eye and perched upon the head so as to leave the back hair exposed. Rough effects are here in large quantities—all of the shiny tubular straws, gelatine braids, basket-weave raffias and leghorns that are going to be most popular. Straws of high lustre used by themselves or in connection with silks, will probably prove to be the leading favorites.

In trimmings, fruit effects are popular, and many smart flower-trimmed and ribbon-trimmed hats are also shown. After all, though, it is not so much a matter of what is used as how it is used; and the artistes who have created these hats of ours have given to each a distinctive touch that assures smartness and becomingness.

A cordial invitation is extended to you to come to see these new hats tomorrow. We believe you will enjoy your visit!

WOLF & DESSAUER'S

Spring Opening This Evening and Wednesday Evening.

Arrangements are completed for the first night of the spring opening of the Wolf & Dessauer firm and their store presents a beautiful appearance which the throngs of visitors tonight are bound to appreciate. An orchestra will play and the proprietors and their assistants will be out in full force to make the store a still more attractive place to visit and to admire. The decorations are such as might suggest a young girl's party were it not for the long counters laden with cases of rich and varied materials and the shelves and ledges on each of the three floors and in the basement where goods are exhibited. The store is a mass of pink bloom not to be realized without a visit to see its loveliness. The peach tree is in full bloom in the store and only the white cyclamen, Easter lilies, dutzea and pots of fern have been used to carry out the effect of pink and white. Even the cases are lined with green paper of different tints while the handsome goods, silks, chiffons, laces, trimmings and the numerous new things have been displayed in pastel shades particularly to make a harmonizing tone. From the beautifully decorated windows with coats, suits, waists, hats, etc., to make the eyes of women water with longing, to the third floor where carpets and draperies in the newest of "up-to-dateness" sets everyone to planning for new things in her home, the store sets forth the same order of new and attractive things, quite equal to Chicago and New York in variety and choice. The opening will continue tomorrow afternoon and evening.

NEW BROTHERS' SCHOOL.

Contract for Drawing Plans Awarded to Charles R. Weatherhogg.

The contract for drawing the plans for the new Brothers' school to be erected at Clinton and Jefferson streets, has been awarded to Charles R. Weatherhogg, the architect. The building is to be two stories high, with a large gymnasium in the basement. It will be strictly fireproof and will cost between $35,000 and $40,000.

A civil service examination for food and drug inspector will be held in the federal court room on March 17 and 18.

The board of directors of the Commercial club will hold their regular monthly meeting Tuesday evening at 8 o'clock.

The regular weekly meeting of the Fort Wayne Medical society will be held Tuesday evening in the assembly room of the court house. Papers will be read by Dr. C. G. Beall, Dr. C. C. Grandy and Dr. B. Van Sweringen.

CYANIDE PUT IN WHISKY.

Enough to Kill Everybody in Town, According to Chemist.

Oxford, O., March 16.—Donald Logue, aged 20, was committed to the county jail in default of $700 bond, charged with placing two and one-half ounces of cyanide of potassium in a quart of whisky for the purpose of catching a thief. Logue recently bought out a pool-room patronized by negroes, and opened a "speak-easy." In a raid on the place the police found thirteen quarts of whisky hidden under the floor. He was fined $100 and costs.

One of the bottles seemed to contain a foreign substance, and when questioned Logue told of "doctoring" the stuff. Dr. W. H. Whitcomb, professor of chemistry in Miami university, analyzed the liquor and reported that it contained enough cyanide of potassium to kill everybody in town.

Your Grandmother's Remedy for Purifying the Blood

And Renovating the System in the Springtime

Ask for Sulpherb Tablets.

What was grandmother's unexcelled remedy? Haven't you heard of it? Yes, you have! It was sulphur, cream of tartar and molasses. The main trouble with it was it was its nauseous taste.

The modern method puts the cream of tartar and sulphur into a sugar-coated tablet and mixes them with herbs, roots, etc., making a wonderful tonic blood purifier and system cleanser.

Just try Sulpherb Tablets (not sulphur tablets), but Sulpherb—remember the name—and get the tablets in sealed tubes at 50c per tube.

Grown-up people and children who don't feel well, who are constipated or sluggish, or who have pimples, boils, carbuncles, ulcers and the like, can soon rid the system of these impurities by taking this good old-fashioned remedy in modern form. Their action satisfies or money is refunded by the Prescription Products Company, Dayton, Ohio. A free trial sent to any address. Buy of any well stocked druggist.

DINNER TO HURTY WAS NOTABLE ONE

Brilliant Gathering Honors Indiana State Health Secretary.

Indianapolis, Ind., March 16.—The testimonial dinner given Dr. John N. Hurty, commissioner of public health, at the Claypool hotel Saturday night in honor of Dr. Hurty's twentieth year of consecutive service as the head of Indiana's health bureau, was one of the most distinguished events ever held in the city of Indianapolis. The governor of Indiana acted as toastmaster at the banquet, the vice president of the United States made the presentation speech in which Dr. Hurty was given a costly Huxley vase, and United States Senator John W. Kern paid the health commissioner a tribute of a kind received but rarely. Among the other distinguished guests present and who made talks were Dr. Victor C. Vaughn, Ann Arbor, Mich., president of the American Medical association; Dr. William A. Evans, Chicago, former health commissioner of that city; Dr. W. E. Stone, president Purdue university, Lafayette; Dr. William Lowe Bryan, president Indiana university, Bloomington; Dr. Alexander B. Craig, secretary American Medical association, Chicago; Miss Vida Newsom, Columbus, Ind., president of Indiana Federation of Women's Clubs; Dr. George T. McCoy, Columbus, former president Indiana state board of health.

The dinner was held in the largest banquet hall of the hotel, more than 400 guests, men and women, from all parts of the state and nation, constituting a brilliant gathering. The one theme of all the speakers seemed to be that Dr. Hurty had placed "Indiana on the map" in a health way and Governor Ralston, in a burst of frank enthusiasm, declared that if he should be governor of Indiana for twenty years that Dr. Hurty would continue as health commissioner of the state, should the doctor desire it. Vice-President Marshall said that no servant of the state had made a more profound impression on him when he was governor than Dr. Hurty because of the intensity of Dr. Hurty's desire to give to the people of the state better health protection." Hurty has made Indiana known at the capital of the nation in a health way," said the vice president. "They will tell you at Washington that Hurty is the chief sanitarian of the United States." Senator Kern said that he gave to Dr. Hurty what men do not give to most men, a full measure of personal affection based upon the character and worth of the man who was at the head of Indiana's health work.

A letter was read from Dr. Harvey W. Wiley, Washington, D. C., former United States chemist, in which Dr. Wiley said: "I congratulate Indiana on having had the good judgment to keep Hurty at his post."

When Dr. Hurty rose to speak after the presentation, the guests sprang to their feet and gave him an ovation. Dr. Hurty spoke briefly. He said he had never desired to make money, but that he did have an ambition to remain at his post until the time should come when he could no longer render efficient service. Almost overcome he thanked the governor and other speakers for their kind expressions. Mrs. Hurty sat by his side and seemed to enjoy the occasion more than her husband, Dr. Hurty being a little embarrassed at times by wealth of warm praise showered on him.

OSSIAN NEWS.

Ossian, Ind., March 16.—Mrs. R. K. Aldred and her cousin, Miss Jane Busby, of Lapel, were week-end guests of the former's son and his wife, Mr. and Mrs. Meredith Aldred.

Mrs. L. F. Wilson will entertain the Presbyterian Ladies' Aid society on Wednesday afternoon, instead of Thursday, the regular day.

Conrad Norwalt, sr., has furnished a room in the home of his son, Conrad jr., where he will make his home. He has sold his residence to Theodore Melching.

Mr. and Mrs. Robert Sparks, Miss Ruth Sparks and her guest, Miss Esther Archbold, of Tocsin, motored to Markle Sunday and were guests of Mr. and Mrs. Vol Giger.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heal the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway Pine, rich in [illegible]

LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

When constipated or bilious give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

HAYS CALLS COMMITTEE.

Republican Managers to Meet at Indianapolis on Friday.

Indianapolis, March 16.—Will H. Hays, chairman of the republican state committee, has issued a call for a meeting of the committee in this city Friday, March 19. Party organization will be discussed and the members will be entertained at a luncheon at the Columbia club along with republican county chairmen of the state.

It is understood that a committee will probably be named at the meeting to take up the work outlined for the state committee by the new primary election law. The Jones law provides that all state committees coming under the provisions of the act shall meet within six months after the going into effect of the law, to revise their party organizations' rules to comply with the provisions of the new law.

Another matter to be considered at the meeting, it is said, will be the naming of a successor to Perry Smith, former chairman of the Thirteenth district who died recently at his home in Warsaw.

GAMBLING IS NOT ALLOWED BY RICKEY

St. Louis Manager Says Poker Must Be Eliminated.

Houston, Tex., March 16.—Following the arrival of the main squad of Brownies from St. Louis, Manager Rickey issued instructions of conduct for his men to follow.

"I may have earned a reputation of being easy with my athletes last season," Rickey said, "but they will find me a different man this year. I have always gone on the theory that I treated men fairly, because they treated me fairly. But I learned that some of my men were taking advantage of me. The earlier they learn that I do not intend to tolerate any loose methods of training or conduct the better it will be for them, and for my team, too.

"I am going to offer no new rules. The players will not be permitted to gamble. That's an old rule, but wasn't enforced last season. By gambling I mean that the men must not wager for any sums that they cannot afford.

"No gambling will be permitted in the hotels. The players may promise to break up their games at 11 o'clock, but they seldom do that. So the ban is on gambling in the hotels, no matter what the promise is for calling the contest earlier, or of limited stakes.

"A little session on the train, under my observation, will be permitted. I can then see that the players cease card playing and retire at a reasonable hour. I do not favor gambling, however.

"Only this morning, when I asked two of my men to room together this season, I learned that there was an objection because of ill feeling that had arisen six months ago over a gambling debt. It is just such little aftermaths as this that injure the ball club. And I don't intend to tolerate it.

"My so-called stars will not be exempt from this or any other club rule. I have always treated my men according to their different temperaments and dispositions, but I have found that some have not been fair with me. They will find in me a different man this season."

It seems that Rickey is not at all pleased with the behavior of some of his players. It all happened more than six months ago, but Rick hasn't forgotten about it. He says he'll have discipline even at the expense of firing an athlete or two, whose salaries are in the neighborhood of $7,000 each. He mentioned no names.

Hamilton reported that his physical condition is good. He also said that he believed his arm would show no ill effects of the auto accident last October when he crashed into a railing on the Eads bridge. He said he believed the wing would be O. K. following several tests he made at his home in Oswego, Kan., in throwing a baseball.

Leverenz, the other left-hander, who had a dismal season in 1914, has been taking things easy all winter in California. He says he took baths in Paso Robles, Cal., and believes the water did him much good. He did a bit of tossing on the coast and felt ni kinks in his salary wing, he says. Levy, incidentally, was paid $4,200 for winning one game last season. He sold his auto and bought a ranch.

Clarence Walker, the Brown's leading hitter last season, was stricken with typhoid after the close of last season. The attack was not severe, and he pulled up here weighing far more than when he quit the 1914 season.

NEW SEMI-PRO TEAM.

Fast Independent Team Being Organized by Two Former Central Stars.

Charles and Cy Alberts, two former Central league ball players, are busily engaged organizing a semi-pro baseball team. Several good players already have been secured, among them being Hoffer, Bob Smith, DeGroth, Peckham, King, Voltz, Druhot, Dietrich, Benoy, Railing, Cy and Charles Alberts.

MANY OLD PLAYERS ARE GIVEN RELEASE

New Manager Expects to Completely Overhaul Fort Wayne Team.

W. C. Klitzke, who heads the new company that has taken over the Fort Wayne Central league club from C. H. Varnell, is contemplating many changes in the team. As a matter of fact the overhauling has already commenced, under the direction of Manager Bade Meyers.

Infielder Mark McLafferty, the veteran member of the local team, has been sold to Terre Haute and Marry Martin, manager last year, has been given the privilege of securing another club to purchase his release. It is said that five members of last year's team are to be disposed of within the next few days. Fort Wayne will have almost an entirely new lineup.

While Martin, last year's manager, is a splendid catcher and will have no trouble in landing a good job with some class B club, it was thought best to let him go in view of the fact that he is to no longer act as manager.

Members of the Fort Wayne team will report for practice on April 5. Manager Meyers left Monday on a scouting trip and expects to land several good players before he returns.

WESTERN AUTOISTS COMING.

Party from Colorado Expects to Spend Night in Fort Wayne.

Charles L. Biederwolf, secretary of the Commercial club, is in receipt of a letter saying that a number of automobiles filled with representatives of an alliance of Colorado commercial clubs would start east on April 8. The trip, which is being made for the purpose of advertising the fact that there are splendid roadways over the Rocky mountains to the Pacific coast, will be made from Denver to Columbus, O. On the return the party will pass through Fort Wayne, spending the night here.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or have Bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and also bladder irritation. Jad Salts is inexpensive,

GOVERNOR JUGGLES WITH RACING UNTIL ARKANSAS IS DIZZY.

Hot Springs, Ark., March 16.—They have Governor Hays, of this state, in a hole up to his neck with regards to the state fair bill which has to do with racing in this city and elsewhere in the state.

The governor's action with the bill was very similar to the famous "off again, on again, gone again" stunt of Mr. Finnegans.

First he signed the bill and then he crossed his name off, signed it again, and then crossed it off once more, thereby starting several small squabbles that bordered on riots.

By this action every business man in the town feels that he has been hit square in the vitals; viz., the pocketbook. Had the governor let the bill go through, as was his first impulse his action would have put a flourishing finish financially on what has been the worst and dullest season of the springs.

Too many grasping men wanted to be appointed as commissioners and that is supposed to be one reason that the governor "scratched."

The oratory in his office became too warm for his honor and he folded up the bill, put it in his pocket and took it home with him where in the quiet of his library he penned a few words, which the wise birds say was his political funeral and the death of racing in this state.

So confident was the feeling that the bill would go through without a hitch, that several of the horsemen had sent their stables here to get them acclimated.

The attorney general states that the bill already is a law in as much as the allotted five days' time had elapsed before the governor took action, but he has advised the secretary of state not to publish it in the journal of the general assembly until further notice.

If it is a law then there is another funny situation on hand. There can be no racing without a permit from the three commissioners which the bill calls for. The governor has to appoint three men and he hasn't and probably won't. If, however, sufficient pressure is brought to bear upon him he may see fit to appoint three ministers of the gospel, who would probably permit racing for one day only in order to comply with the law.

Business in the town is at a standstill since the unfavorable reports sifted in here from Little Rock.

One well known lawyer, with crepe on his sleeve, passed a group of men and was asked:

"Where are you going, Bill?"

"To the governor's funeral," was the reply.

An invitation also has been extended to Harry Kissell, of Springfield, O., the winner of the same cup two years ago.

Bed-Wetting Cured in Ten Days

URI-STOP WILL CURE

Don't Wait for Children to Outgrow the Trouble—Start Them Taking Uri-Stop Today.

Bed-wetting with all its disagreeable effects, can be cured if given prompt attention. This is a disease and every parent should assist their children to effect a cure by procuring for them Uri-Stop. The wonderful success realized by this remedy seems little short of marvelous, but the many cures in Fort Wayne proved its merits.

Incontinence of the urine is not a local trouble alone, but is a disease embracing the entire urinary system as well as the bladder and kidneys. Uri-Stop is put up in tablet form, pure and harmless. Easily taken by the most delicate child. Price $1.00.

The Boettger Chem. Co., Peoria, Ill., are so confident of the curative value of this preparation that they have authorized the Dreier Drug Co. to refund your money if you are not satisfied after a careful trial. 2-9-tues-3-31

SCHEDULE AWAITS COURT'S DECISION

Chicago, March 16.—Drafts of schedules for the coming season, to be submitted for adoption at a meeting tomorrow, were under consideration by club owners of the Federla league here today.

The schedules will be presented for adoption immediately after the decision tomorrow by Judge Baldwin, of the circuit court, on the plea of the Kansas City Federal league club for a permanent injunction to restrain the league from transferring its franchise to Nework, N. J. Judge Baldwin took the case under advisement yesterday, promising to give his decision tomorrow. Club owners representing every city in the circuit were in conference last night on the schedule proposition but declined to say whether the playing chart under consideration eliminated Kansas City from the league. James A. Gilmore, president of the league, appeared to be certain, however, that the league would have a club in Newark this season. Pressed for an explanation, Gilmore said he felt confident that everything would be adjusted satisfactorily.

"I can tell more about it," he said, "as soon as the court hands down its decision. This baseball business is a funny thing. Last year at this time we had only six clubs in our league. Now we've got nine."

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

MARSHALL TALKS AS WIFE SEES MODISTE

Thinks Foreign Relations Safe and Opposes War With Mexico.

Chicago, March 16.—Vice President Thomas R. Marshall, who is in Chicago on his way to San Francisco, where he will represent President Wilson at the formal dedication of the Panama-Pacific international exposition March 20, yesterday voiced his views concerning the problems that the administration is facing.

He came unannounced. Mrs. Marshall was busy with her modiste and the vice president retired to the lobby of the Hotel LaSalle, where they are stopping, to receive reporters.

In discussing the questions that are causing worry the vice president wanted it understood that he gave his own views and that he wasn't speaking for the administration.

Against War With Mexico.

"Vera Cruz, with its snipers, taught us only in a small way what armed intervention in Mexico would mean," he said. "It would mean wholesale bloodshed. It would be years after we captured the cities before we could subdue the country. What would we do with the bloodthirsty Yaqui Indians? We might never subdue them.

"While we were intervening how would the republics to the south of us look upon it?

"Even after we conquered Mexico wouldn't we have another Philippine islands on our hands—something we would want to let loose of and couldn't find a way out?

Of Foreign Relations.

"Ever since the war in Europe broke out we have been sitting on a powder barrel as regards our foreign relations. We hardly get one mixup straightened out until we are in another, but everybody down at Washington is extremely hopeful. The nation can thank itself it has a Woodrow Wilson sitting in the presidential chair at this time.

"Those jingoists who are talking war ought to be made to take a physical examination and enlist in the army as a test of their valor before they are permitted to spread broadcast their doleful predictions.

"I'm glad that congress adjourned. There isn't any doubt in my mind that while it was in session business stood still. Business had a right to pause in the face of the full dose of legislation given it, not to speak of the serious situation arising out of the European war.

Way Clear Now.

"There is no reason now, however, why it shouldn't proceed. This talk about 'wait until the courts determine what the new statutes mean' is all bosh. Both as a lawyer and politician I say that no business man needs a lawyer to tell him what is right and what is wrong.

"I realize that there are many freak statutes on the books whose meaning might be misconstrued, but no business man need fear the enforcement of any legislation affecting business unless there is some radical wrong, not upon the part of one man, but upon the part of many, and a public demand based on moral right asking for its enforcement. All business men have to do is to obey the dictates of their consciences and they need fear no trouble."

OPPOSE RUM RATION TO BRITISH TROOPS

English War Office Gets Severe Criticism from the Press.

London, March 5.—Correspondence of the Associated Press.—Opposition to the action of the war office in supplying rations of rum to the British troops at the front is manifest in many sections of the British press. Although the war office in defense of its action stated that the allowance of rum was regarded by the military authorities as a medicinial supply rather than a part of the food ration, a large part of the demand for the abolition of the alcoholic ration comes from the medical profession.

A round dozen physicians, all of them leaders in their profession, were signers of a recent appeal to the government to follow the lead of Russia in abolshing absolutely the sale of spirituous liquors in Great Britain for the duration of the war.

Speaking in behalf of the army medical corps, Captain Sir Victor Horsley, a well known medical and scientific leader, contributes an article to the current issue of the British Medical Journal, remonstrating against the issue of rum to the soldiers as an alleged protection against cold and damp. He says:

"All medical scientists now know that although alcohol produces a temporary flush on the surface of the skin, this is due to a rush of blood to fill the arteries slackened by alcohol, and that the excess of blood thus driven to the surface loses its heat and on returning to the interior chilled by such exposure, inevitably lowers the bodily temperature.

"Although army regulations say the rum is only issued by order of the commanding officer on recommendation of the medical officer, the spirit is no part of the medical stores, but is in the commisariat with the food supplies and in many battalions has been issued daily in and out of the trenches to every man who would accept it.

"The spirit drinking habit in the British army was first contracted during the duke of Marlborough's campaign in Flanders two hundred years ago. It is a national misfortune that this story of two hundred years ago is being repeated, for our army is again as then, being taught to become victims to the spirt-drinking habit.

"In the American civl war, when McClellan's great army on the banks of the Potomac endured several weeks of severe hardship in trenches, it was determined to issue spirit rations, but after one month the rations were withdrawn because the men were the worse for it, the medical officers reporting specifically that the ration was injurious, that it had increased the ailments of the men, and was 'nothing but an unmitigated evil.'

"In the present war, the authorities have contracted for the supply of over 500,000 gallons of rum, of which more than half has already been sent to France. The war office has gone from bad to worse by a new concession of rum to raw recruits in training at home.

"I stake by professional reputation on my declaration that rum causes loss of resistance to cold and is a cause of chilliness, misery and frostbite. It also causes loss of resistance to such diseases as pneumonia, dysentery and typhoid."

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" is the quickest and surest Stomach Relief.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth, and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxitives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

MARINE INSURANCE HIGHER.

Loss of Steamer Indian Prince Has Nearly Doubled Rates.

New York, March 16.—Marine insurance rates to French and British ports within the field of operations of the German submarines have advanced today to almost double those prevailing last week. This was attributed mainly to the loss of the steamer Indian Prince, with her $750,000 cargo of cotton which, it was said, swept away the profits of the war risk insurance on all cotton shipments to England and France since the war began.

SARAH BERNHARDT IMPROVES.

'QUAKE DEATHS TOTAL 29,978.

Rome, Via Paris, March 16.—(12:55 a. m.)—An official parliamentary report on the earthquake of January 13 gives the number of deaths thus far reported as 29,978 without including persons who afterwards died of injuries and illness caused by the disaster. The communes damaged by the earthquake numbered 372.

CORPORATIONS MAY FILE EXEMPTIONS

County Assessor Gets Ruling by Attorney General on Mortgage Debts.

Attorney General Richard M. Milburn of Indiana has ruled that corporations in this state may file mortgage exemptions and claim the benefit in taxations, according to notice received by County Assessor William Eggeman. Some other interpretations of the tax laws relating to assessors and assessments are given in the attorney general's letter and these are some of them:

"The affidavit required by section 2, of the law, may be sworn to before any person authorized to administer oaths and must be filed with the county auditor. A new affidavit must be filed each year the exemption is claimed.

"The affidavit must be filed between the first day of March and the 30th day of April. Affidavits cannot be legally filed after that date.

"The auditor is not required to furnish blanks, but he, or his deputies, may swear persons to affidavits and charge therefor 25 cents. This fee belongs to the county and not to the auditor.

"Under no circumstances can one person legally secure more than $700 deduction under the law, no matter how many mortgages he may have given. Neither can he deduct his mortgage indebtedness from the assessed value of his real estate and then use that portion of his mortgage indebtedness so deducted as a deduction from his personal credits.

"Partnerships are entitled to exemptions the same as natural persons, likewise corporations, where such mortgage has not already been taken into consideration in making their assessment.

"Under no consideration can a deduction from real estate exceed one-half the assessed value as shown by the tax duplicate for the year in which the deduction is prayed.

"The word 'mortgage' includes mortgages held by non-residents of this state as well as school fund mortgages held by building and loan associations. It does not include a bond for a deed; nor a vendor's lien, a ditch assessment, an indemnity mortgage or any kind of a lien except one securing a bona fide existing indebtedness.

"It is the duty of the county board of review to pass upon the validity of each claim for deduction and reject or allow the same in the proper amount and make a record of the rejection or allowance showing the sum allowed for deduction."

Government Indian Land Schooling Car Is Here

Sent out from McAlester, Okla., to interest the public in the manner of securing the rich Choctaw land which will soon be offered by the department of the interior, a handsome Pullman car arrived here today. The car is located on the Calhoun street crossing of the Nickel Plate railroad and will be open to the public from 9 a. m. to 9 p. m. daily and Sundays. According to R. J. Jeffcott, manager of the car, it will remain in Fort Wayne several days to give the people of this city the opportunity of learning about the segregated lands.

These lands are in the extreme southeastern corner of the old Indian territory, which is now a part of Oklahoma, having been joined to Oklahoma territory in 1907 at which time Oklahoma entered into statehood.

According to the report of John White, the United States demonstration agent at McAlester, fully 50 per cent of the lands in Pittsburgh county, of which McAlester is the county seat, is first-class agricultural land; the balance is well fitted for ranching or fruit growing.

Oil Possibilities Bright.

The segregated lands are all within the proven oil belt of the state and Oklahoma is the leadmg oil state in the union, so the opportunity for the settler or investor is most unusual, as he may not only be buying himself a good farm for a few dollars per acre, but the oil that may be discovered on his land may make him independently wealthy. Owing to the fact that this land was not available for drilling, the field has long remained undeveloped, but recently active development work was commenced and the records of Pittsburgh county show that, at least, 60 per cent of the land in the county is covered by oil and gas leases or is owned outright by oil and gas men.

The rules governing the auction sale promulgated by the department of the interior provide that no one person is entitled to more than 160 acres of agricultural land; hence, the necessity of advertising the sale in the older states.

Admission to the car and all information is free and the public is cordially invited to inspect the exhibit of farm [illegible]

SHOP AND RAIL ROAD NEWS

NEW INDUSTRY HAS BEEN ESTABLISHED

Auto Food Company Installs Plant for Making Potato Chips.

A business which its promoters expect to expand until it has taken a prominent place among the industries of Fort Wayne is the Auto Food company, which has leased the second story of the building at 610 Clinton street and equipped it for the manufacture of the Auto brand potato chips, which are put up in neat paper boxes and retailed at 10 cents a package. "Always ready to eat" is the legend on each box and potato chips were never placed on the market in a more attractive manner. H. C. Schlie and F. B. Ladd are the chief movers in the Auto Food company.

Y. M. C. A. AUXILIARY.

Women Join the Men in the Interest of the Association.

Nineteen women signed the membership roll of a Ladies' Auxiliary to the Railroad Y. M. C. A., which was organized at the association rooms Monday afternoon. The greater portion of the charter members were present at the meeting and the interest displayed presages the success of the movement. The charter members are Mrs. O. M. Rhodes, Mrs. A. W. Willeman, Mrs. C. B. Watterman, Miss Flora E. Wehrle, Mrs. A. M. Brown, Mrs. George Tibbets, Mrs. G. W. Barbier, Miss Eldora Evans, Mrs. Ray Woodhall, Mrs. Bert Mains, Mrs. S. N. Longsworth, Miss Elizabeth Beattie, Miss Margaret Beattie, Mrs. V. C. Miller, Mrs. E. N. Osborne, Mrs. Lucile Tegtmeyer, Mrs. R. B. Evans, Mrs. William Madara and Mrs. A. J. Cash.

The officers elected yesterday are Mrs. O. M. Rhodes, president; Mrs. A. M. Willeman, first vice president; Mrs. C. B. Watterson, second vice president; Miss Flora E. Wehrle, secretary; Mrs. A. M. Brown, treasurer; Mrs. George Tibbets, chairman of membership committee; Mrs. G. W. Barbier, chairman devotional committee; Miss Eldora Evans, chairman social and reception committee.

The charter will be held open awhile to admit those who wish to get in as charter members. Meetings will be held the first Monday of each month.

HIS MICA WAS CELLULOID.

Nickel Plate engineers and firemen are enjoying a story concerning a well known engineer, which leaked out yesterday after it had been in the background several months. As the story goes Emory had to get some new curtains for his automobile and some new mica pieces for his base burner, and being of a resourceful turn, he conceived the idea of making the lights in the curtains serve in the base burner. He soon had the damaged pieces in the stove replaced by pieces of the curtain lights, but, alas, when he built a fire in the stove, the new "mica" went out with a flash and smoke poured out and filled the room. Then he discovered the curtain lights were celluloid. "Yes, it's a fact," said Emory, when Caller Henry Ulenhake asked concerning the story, "but how in the Sam Hill did you learn of it?"

LIGHT DEMAND FOR LUMBER.

Inquiries concerning prices and the number of orders being placed for building material at present are below normal and lead the lumber dealers and operators of the planing mills to the belief that there will not be as much business for them the coming spring as there was last year. "Our shop is fairly busy at present," said a planing mills and lumber yard man, "but the orders coming in are small and chiefly for material to be used in repair work. New work may develop later, but there is little to indicate a building boom such as Fort Wayne experienced the preceding two or three springs." The light demand for lumber, however, has not materially reduced the price.

INJURED TURK IDENTIFIED.

The Turk who was injured by a train at Lima, Ohio, about a week ago, is recovering and will leave the Lima hospital this week. The railroad company yesterday took another Turk to the bedside of the injured man and by this medium obtained the correct name of the fellow and his story about the accident. His name is Yanie Pinagot and he says he was going down the track to look for a fellow countryman when he stepped aside to allow a train to pass and was struck by another train. He was not on a train, nor was he trying to get on one.

BOOMING THE CO-OPERATIVE STORE.

At a meeting of the ward workers for the Co-operative store project at the office of C. M. Preble last night, it was announced that meetings for the residents would be held in the various wards from time to time to give opportunity to subscribe for stock. A mass meeting will be held at the James H. Smart school, in the Tenth ward, tonight, and meetings for the Ninth ward people will be held at 1829 Richardson avenue; 1629 St. Mary's avenue, and on Sherman street, near the corner of Putnam.

BIG BUSINESS ON ROAD.

The Nickel Plate had a rush of business over the line last Saturday and Sunday that was heavier than expected. As a consequence two emergency crews were sent out of Fort Wayne and one out of Bellevue. Much of this extra business was for export.

by Dr. J. Frank Dinnen for appendicitis. The sick man was discovered in an unconscious condition in one of the parks of the city and taken to the hospital, where an examination revealed the fact that he was suffering from appendicitis. He is doing well and will be able to go home in two or three weeks.

TAKING BACK SOME OF THE FURLOUGHED.

There has been a slight improvement in the demand for products at some of the departments of the Fort Wayne Electric works and some of the girls who had been on furlough have been recalled. Yesterday eight were taken back in the small motor department. The Electric Works' employes have been more fortunate than the employes of some other industries, inasmuch as the works have managed to keep the working force of the plant very near the normal mark during the dull times of the past year.

ELKS' ROUTE TO CALIFORNIA.

The transportation committee for the Indiana Elks announce the following route to Los Angeles, the convention city: Pennsylvania from Fort Wayne to Chicago: Rock Island to Colorado Springs; Denver and Rio Grande to Salt Lake City; Salt Lake route to Los Angeles. A special train will leave Chicago the night of July 7 for Los Angeles. The convention will be held in July.

WILL MOVE TO EAST END.

John H. Kappel, the West Main street druggist, is fitting up a store room at the corner of Lumbard street and New Haven avenue and will move his stock of drugs and store fixtures there the latter part of April. Druggist Kappel has been located at the corner of West Main and Mechanic streets for sixteen years.

STRUCK WITH A SLEDGE.

A glancing blow sent a big sledge against the stomach of George Hoopingarner, a carpenter at the Wabash shops, this morning and painfully injured him, though he pluckily remained on duty after Dr. C. F. Kaadt had examined him and applied some remedies. The hammer landed just below the breast bone and no bones were broken.

MOVING TO TEXAS.

Among the passengers on Wabash train No. 9 this morning were Mr. and Mrs. Joshua Stapleton, of St. Joseph township, who are en route to Crystal City, Texas, near which place they own some land on which they will settle and reside in the future. It is understood that these people have disposed of their ownings in St. Joseph township and that they will be followed soon by other people from this county.

STATIONMASTER HAYS SICK.

W. H. Hays, night stationmaster for the Pennsylvania, is quite sick at his home. He was taken ill last Friday and has gradually grown worse until he is now confined to his bed. Mr. Hays is not seriously sick, however, the attending physician says.

TWO SHOPMEN INJURED.

Two Pennsylvania shopmen were injured this morning and were attended by the company's surgeon. H. Klenke, a boilermaker, had one of his hands cut and bruised. Machinist M. O. Shookman had the little finger of one of his hands crushed.

INDUSTRIAL NOTES

John Rost, of the Pennsylvania blacksmith shop, is sick and off duty.

Machinist William Lerch, of the Pennsylvania shops, is sick and off duty.

Nickel Plate Conductor B. H. Hire is quite sick at his home, 707 Runion avenue.

Brakeman W. G. Robinson is off duty from the Nickel Plate on account of sickness.

Nickel Plate Engineer John W. Wells is taking a lay-off to look after some private matters.

Joseph Slater, foreman of the Bass blacksmith shop, made a business trip to Muncie yesterday.

Machinist George W. Schlichte, who was sick a few days, is at work again in the Pennsylvania shops.

Conductor A. W. Secley resumed work on the Nickel Plate yesterday, after a few days' lay-off for rest.

Pennsylvania Engineer Lucas Ormiston, who was sick two weeks, has reported for work on the road.

W. J. Welch, general foreman of the Wabash shops, is in Indianapolis today on business for the company.

Cal Durfee is taking a few days' rest and W. O. Granger is sick and off duty. They are Nickel Plate engineers.

Machinist W. C. Doehrman, of the Pennsylvania, is planning for a visit with relatives at Peoria, Ill., next week.

A. F. Needham, general foreman of the Toledo shops of the Wabash, was here today on business for the company.

Master Mechanic E. E. Griest, of the Pennsylvania, was looking after some business in Chicago for the company today.

Commercial Agent E. O. Wagner, of the G. R. & I., has returned from Grand Rapids, where business called him a few days ago.

Milo Slagle, the Pennsylvania fireman who was injured a week ago, is still unable to work, though his injuries are not serious.

Mrs. Calkins, wife of Assistant Yardmaster J. O. Calkins, of the Wabash, is quite sick at the family home, 901 Walnut street.

E. A. Worman, the Nickel Plate fireman, who was hurt three weeks ago at Nickels, Ind., has recovered and is at work again.

Nickel Plate Conductor W. H. Walker has taken a leave of absence and gone to his home in Chicago for a few days' rest.

H. W. Weisheit, who had his eyes injured two or three weeks ago, was able to report at the Pennsylvania erecting shop for work this morning.

Brakeman A. G. Rogers, who had an ankle sprained ten days ago, is recovering and expects to resume work on the Nickel Plate in a day or two.

P. C. Harrod, second trick operator at the Grand Rapids and Indiana offices, was taken ill last night and may not be able to report for work for a day or two.

Brakeman Frank Brown, who has been in the St. Joseph hospital several days, is doing first-rate and will soon be able to resume work on the Nickel Plate.

A. L. Hadley, at the head of the engineering department of the Fort Wayne Electric works, was in Logansport yesterday looking after some business for the company.

Machinist M. J. Crowe, of the Pennsylvania erecting shop, was summoned to his old home in Pennsylvania yesterday by a message stating that his aged father was seriously ill.

George Pederson is a new switchman at the Nickel Plate yards. Mr. Pederson was formerly employed at Kankakee, Ill., in the yards of the Chicago, Indiana and Southern road.

Walter Fagg, night clerk at the Nickel Plate yards, is on duty again after a brief absence, during which he was married to Miss Gladys Arnold, mentioned by the Sentinel Saturday.

Arch R. Reynolds, a yardman at the Berghoff brewery, suffered a painful injury to one kidney yesterday when a heavy box fell on him. He was taken to the Lutheran hospital and was attended by Dr. J. Frank Dinnen.

James Siverts, whose injury while practicing for the tug-of-war event at the Electro-Technic club's blow out lost the game to the firemen, as they claim, is not so badly crippled that he cannot attend to his duties at the works. He will be as well as ever soon.

A. A. Deatrick, checker at the Nickel Plate yards, will resume the show business as soon as the fair season opens next summer. He has been in Cleveland several days, making arrangements for concessions at various points in Ohio. Last year Mr. Deatrick was quite successful in this line.

Secretary A. J. Cash, of the Railroad Y. M. C. A., has erected a bulletin board in the entrance to the reading room on which the events of the day are placed. This morning it announced the noonday meeting at the Pennsylvania shops and the bible class and bible class social at the association rooms tonight.

E. S. Cloud, passenger engineer on the east end of the Nickel Plate, fell in alighting from his engine at Bellevue yesterday morning and was dragged a considerable distance, bruising the flesh and straining the ligaments of one of his legs badly. Mr. Cloud is well known to all Nickel Plate enginemen and trainmen.

200 BUSINESS MEN GREET TOUR PARTY

Marion Lawrence Speaks on the Sunday School as a Good Investment.

Nearly two hundred business men of the city gathered at the First Baptist church at noon Tuesday for the noonday lunch to greet the six members of the International Sunday school tour party, who arrived in the city for the day. Following the lunch Marion Lawrence, the general secretary of the International association, delivered an address on "Investments That Pay."

He said: "The organized Sunday school work is the greatest enterprize in every scope and way, as it has at the present time over 30,000,000 members and 300,000 separate schools. This is the great gain which it has made from one school in 130 years. Nearly 200,000 men have been added to the membership of the schools each year and the schools are the means whereby nearly 1,000 are added to the church each day." He gave these statistics to show that the Sunday schools are a great investment.

Warren First Speaker.

E. K. Warren, the president of the association, and also president of the Warren Featherbone company, in Three Oaks, Michigan, was the first speaker. He spoke on the Sunday school from a business standpoint of view and told how a business man was greatly benefited by having membership in a Sabbath school. The third address was delivered by W. C. Pearce, who chose as his subject, "The Tread of the Mighty Army," in which he referred to the Sunday school as the mighty army, and told that this army would be the only one which some day would conquer the entire world.

The party, which is composed of E. K. Warren, Marion Lawrence, W. C. Pearce, Bert Cashman, Dr. George H. Lau and George W. Bond, arrived in the city at 11:45, coming here from South Bend, where they conducted meetings Monday. Approximately 5,000 people turned out in that city to hear them at the various meetings which were also some of the best ever held by the tour party.

The Afternoon Meetings.

At the close of the noon day luncheon, the party went to the Wayne street M. E. church, where another large audience greeted them. W. C. Pearce, superintendent of the adult division of the International association, delivered a lengthy address on the subject, "The Challenge of America's Adult Bible Class." He supplied some interesting figures as to the number of members which the organized adult bible classes of America had. He said that it has been proven that the Sunday school is not only for children, but for adults as well, and that no school could be a successful one unless it had one or more adult bible classes.

At 3:30 o'clock Marion Lawrence conducted a round table conference at which time he supplied some valuable information to eager Sunday school workers, who gathered at the church to ask any questions on the work in the school.

At 4:30 o'clock this afternoon hundreds of school children gathered at the West Jefferson street Church of Christ, where Bert Cashman gave a stereopticon lecture on the subject, "The Sunday School Work of the World." His instructive talk was made still more interesting by the hundred or more slides which he showed on the work of the Sunday school in various parts of the world.

The closing session of the tour party will be held this evening at 7:30 o'clock at the Wayne street M. E. church, corner Wayne and Broadway, and will open with a song service, under the direction of George H. Lau. The main address of the evening will be given by Marion Lawrence on the theme, "Greatest Character Factory of the World."

NAVY READY, HE ASSERTS

(Continued from Page 1.)

through the water torpedoes capable of sinking leviathian ships any nation can construct. The Sixty-third congress had the wisdom to see that the backbone of any naval fighting machine is the great ship which is able to keep the ocean when storm-tossed."

Secretary Daniels said that he had been directed by President Wilson to say for the president that he was proud of the new Pennsylvania and hoped it would never be called upon in war to prove its prowess.

Urges Example of Peace.

"There never was a time when it was so important for our country to set the warring world an example of peace. May we not hope that the day is not far distant when the nations at war will solicit our good offices in leading the way to honorable peace."

The secretary said the country was fortunate that the mantle of patience and peace of martyred Lincoln had fallen upon the shoulders of President Wilson to guide the ship of state. With such a pilot, he said, the nation could look with confidence to the future.

PENNSYLVANIA LAUNCHED.

Uncle Sam's New Dreadnought Is Mightiest Warship Afloat.

Newport News, Va., March 16.—The new dreadnought Pennsylvania was successfully launched here this morning shortly after 10 o'clock.

In size and gun power the Pennsylvania is greater even than the Queen Elizabeth of the British navy, which led the recent terrific assault of the allies on the forts of the Dardanelles. While the British monster carries larger guns, her main battery is only two-thirds the size of that of the Pennsylvania in number and the American battleship is 3,000 tons greater in size.

The Main Battery.

The main battery of the Pennsylvania will consist of twelve fourteen-inch, forty-five calibre rifles, set in four turrets, three guns to a turret, the plan of big-gun arrangement adopted in the sister ships which preceded her, the Nevada and Oklahoma. Her tonnage measurement is 31,400 against 27,500 for the Nevada and Oklahoma and the Queen Elizabeth. The latter, however, carries eight fifteen-inch rifles, forty-five calibre, set two to a turret, while the Nevada and Oklahoma have ten fourteen-inch rifles each in two three-gun and two two-gun turrets. In all these ships, including the Pennsylvania, the turrets are all on the center line to concentrate their fire on either broadside.

Five battleships of the British navy yet to be launched will have less tonnage than the Pennsylvania, the ships of the Royal Sovereign class being of 24,500 tons displacement, and none will equal the Pennsylvania in armament. Each is designed to carry eight fifteen-inch guns.

Details of four other British battleships, already authorized, are not known here officially.

Five ships of the Japanese navy, estimated for in 1914 and known as the Fuso class, will not equal the Pennsylvania in tonnage with their displacement of 30,000 tons, but will carry the same main battery of twelve fourteen-inch rifles. They will exceed the Pennsylvania in speed, estimates calling for twenty-two knots against twenty-one knots for the Pennsylvania.

The 1914 estimates for the German navy call for three ships of the Kaiser Fredrich III class, with a displacement of 29,000 tons and carrying eight fifteen-inch rifles.

The British ships of the Queen Elizabeth class greatly exceed those of any other navy in speed, requirements calling for twenty-five knots an hour while the [illegible]

which no report has been made. So far as is known, however, no vessels have been planned which will exceed in size the three American ships of the California class, work on which has barely started.

These will have a displacement of 32,000 tons each and armament equal to that of the Pennsylvania.

Increased Cruising Radius.

The cruising radius of the Pennsylvania will be considerably increased by the fact that she will be equipped for oil fuel exclusively and will have a capacity of 2,322 tons of fuel oil. The Queen Elizabeth has a capacity of 4,000 tons of oil because of her high speed requirements.

From her enormous main battery the Pennsylvania will be able to hurl, with the pressure of a single firing lever, seven and a half tons of steel on either broadside. In addition she will carry a secondary battery of twenty-two five-inch rifles for defense against torpedo boats. She will be fitted also with four submerged twenty-one-inch torpedo tubes and her ships company will be composed of sixty-five officers, 863 bluejackets and seventy-four marines. The ship measures 608 feet over all and ninety-seven feet beam and her mean draft is twenty-eight feet ten inches, almost the limit in size for the Panama canal and present navy dry docks. There are only few docks in the world which can receive her and she could not enter many busy harbors except under most favorable conditions of tide and wind.

When completed the Pennsylvania will have cost the government more than $13,000,000. She will be ready for commission, under contract, by February 28, 1916. Her keel was laid October 27, 1913.

The enormous size of the new ship and the startling rapidity with which battleship construction had developed, even before the great war, is indicated by comparison of the Pennsylvania with the British battleship Dreadnaught, first of the all-big-gun ships in any navy. The Dreadnaught was estimated for in 1907. She was designed to displace 17,900 tons, but actually is considerably larger. In the main battery are ten twelve-inch guns with a broadside fire of six guns and her trial speed was twenty-one and two-tenths knots.

The Pennsylvania will be equipped with turbine engines as is the Oklahoma, the Queen Elizabeth and all of the newest English, German and Japanese battle craft. The Nevada will be operated by reciprocating engines while the California, of the 32,000 class, will be driven by electricity. One of the other two American battleships of the California class will have turbine engines and the other reciprocating in line with the navy department's policy of not entirely abandoning the reciprocating type until a thoroughly satisfactory marine turbine is found. If the experiment on the California with electric drive, current to be generated by steam turbines running at high speed, is successful, the engine problem may be solved. It already has proved satisfactory in a navy collier and the experiment with the California only needs to determine whether it is equally efficient in high power plants.

CHICAGO GRAIN AND PROVISIONS.

Chicago, March 16.—Diminishing of stocks in Europe tended today to lift the wheat market. The trans-Atlantic visible supply total was reported as showing a decrease of 344,000 bushels, as against an increase of 10,424,000 bushels a week ago, and an increase of 1,400,000 bushels a year ago. There were also advices that Portugal had purchased 1,500,000 bushels in Argentina and that 1,000,000 bushels was being taken out of store at Kansas City to go to the gulf for export. After opening ⅜c to 1⅜c higher, prices reacted to a moderate extent.

The close was weak at ⅝c to 1c net decline.

Corn suffered from lack of support. Better weather counted against the bulls. Opening prices, which varied from ¼c off to ⅛c advance, was followed by a sag all around.

The close, though, was steady at ⅝@⅞c under last night.

Export demand gave relative steadiness to oats, as compared with corn. Commission houses, though, were generally on the selling side, with prices slightly under last night's level.

Lower quotation for hogs weakened provisions. The chief pressure was on ribs.

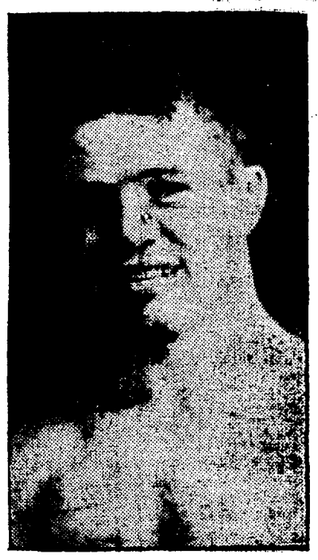
LIGHTWEIGHT CHAMP AND PARTY ARRIVE

Freddie Welsh in Perfect Trim for Go With Hal Stewart Here.

Freddie Welsh, of England, world's premier lightweight fighter, who meets Hal Stewart, the local aspirant for the laurels and bays of the 133-pounders at the Majestic theater Wednesday night, arrived in Fort Wayne with his party Thursday forenoon over the Pennsylvania. With the champion were Harry Pollock, his manager; Griff Davis, welterweight title holder of Canada, his trainer, and



HAL STEWART,
Fort Wayne's 133-Pound Boxer, Who Meets the World's Champion.

Burt MacIntosh, his sparring partner. The Welsh party took quarters at the Anthony, and there Welsh was provided with a room in which to have a rub down and do some shadow boxing, which with some light road work is all the training he will do in preparation for his go with Stewart Wednesday night.

The champion surely showed need of nothing in the way of condition. He looks good to score all the points out of a possible hundred and he declared himself to be feeling just as good as he looked.

"I never get much out of condition," said Welsh. "I keep myself right on my own account because, you see, I expect to go right on living for a good while and the better I keep myself the longer and easier that will be. Of course I've not had time to fall off much in condition if I had been careless, for I did some getting ready for my bout with Willie Ritchie in New York the other day. So I'm all right for Mr. Stewart, and they say he is a fine strong boy, willing to have things hard and lively. It ought to be a right interesting meeting and I'm sure it will not be my fault if we do not."

Welsh was in good humor, and his broad and ready smile proved it. He was a bit tired from his long journey, but a rub down and a trifle of exercise limbered him up and he seemed ready to step into the ring on a moment's notice.

The champion did not agree with all the newspaper reports that Willie Ritchie, from whom he stripped the championship in their London contest, had all the best of the New York meeting.

"Ritchie is a good boy, a hard fighter, and Americans may be proud of him. But I think the London go was a good argument for me. We shall probably get together again over the longer route, and then we shall see who has the right to be called the world's champion if there is any doubt about it," said Welsh.

There is widespread interest in the contest Wednesday night and the Majestic will be crowded to capacity. The reservations for outsiders is heavy. From Payne, O., Hal Stewart's hailing place, will come one hundred of his neighbors. Lima has ordered 125 seats and nearly all northern Indiana towns within a radius of fifty miles will send big delegations.

THE DAY ON WALL STREET.

New York, March 16.—Specialties were again more active than the seasoned issues at the outset of today's market operations. The Copper, Alaska gold, Central Leather and Motor shares made general gains, while leaders were slightly lower or unchanged. Later Bethlehem Steel and Texas company were added to the list of higher prices, the former advancing two points. Some very substantial recessions were recorded by Americans in London, notably Canadian Pacific, Reading and Union Pacific.

Reading became acutely weak toward midday, declining two points to 142¾ on steady selling, much of which was ascribed to out of town sources. The balance of the list was sympathetically affected, Canadian Pacific yielding 1¾, with substantial declines in United States Steel and Amalgamated Copper. Bethlehem Steel, however, held much of its rise. Bonds were lower, several large blocks of the New York Central debenture sixes selling at lowest prices.

Specific stocks were further affected by moderate liquidation and standard shares made but slight recovery from their low levels. The closing was heavy.

THE WEATHER.

OFFICIAL FORECASTS.

For Fort Wayne and vicinity: Fair tonight and Wednesday; not much change in temperature. Lowest tonight, about 28 degrees.

day fair.

For Lower Michigan: Fair tonight and Wednesday.

WEATHER CONDITIONS.

Some cloudy and unsettled weather prevails over much of the Ohio valley and the Atlantic coast states this morning, with some rain or snow, but the precipitation during the last twenty-four hours has not been heavy over any section of the country. Cooler weather prevails over much of the central states, and snow extends southward to Tennessee this morning.

Fair weather is general west of the Mississippi and no very cold weather is reported from any section of the country.

Fair weather will continue in this section tonight and Wednesday, with but slight changes in temperature.

GERMANS ARE HIT IN WEST

(Continued from Page 9.)

THE GERMAN VERSION.

Berlin, March 16.—The German war office today gave out a report on the progress of the fighting which is dated March 16 and which reads as follows:

"The English position on the height near St. Eloi, south of Ypres, has been taken by the Germans. Fighting for the possession of this location has been going on since the day before yesterday. On the southern slope of the Lorette hills, to the northwest of Arras, fighting is going on for the possession of the crest of a hill.

French trenches. An engagement begun yesterday in the Argonne continues today. Also in the Vosges there are several places where the fighting is still going on.

"On the Orzyc, to the northeast of Prasnysz Russian attacks everywhere have been repulsed. There was an especially violent engagement for the possession of Jednorozak. Two thousand Russians were taken prisoners.

"South of the Vistula there is nothing to report."

BAD BOYS TURN OUT THE PRETTY LIGHTS

Three Sections of Ornamental Illumination Put Out of Use.

When the ornamental street lights on Calhoun street from Wayne to Washington, on Wayne street from Harrison to Clinton and on Washington street for the same distance suddenly went out at 8 o'clock Monday night and left one of the busiest downtown sections in darkness, people in the neighborhood wondered what had happened at the city power plant. The management of the Palace theater also wondered, for the street leading to Fort Wayne's newest and finest playhouse was as dark as a cistern. Night Patrolman Bert Brown, who also was in that part of the city, likewise wondered. He also investigated and as a result of his sleuthing he picked up William Gillespie, 14, of 623 Harrison street; John Pattee, 13, of 201 East Superior street, and William Fisher, 15, of 815 Clay street, and booked them for disorderly conduct. The lads had got at the control switches in the alley west of Calhoun street between Wayne and Washington streets, and with a pole shut off the current from the three sections of ornamental lighting. They did not know exactly why they did it, and their extreme youth precluded any suspicion of a big safe cracking or mercantile robbery. Judge Eggeman in the juvenile court will undertake to learn the why and wherefore of the mischief, for the boys were certified to that tribunal and turned over to Probation Officer Work.

Tom Tolan Back to Jail.

Tom Tolan, whose vicissitudes, marital and otherwise, make up a varied and heavy burden, was sent back to jail to stay fifteen days in default of paying $5 and costs on a drunk charge. Thomas and his wife have separated and she is suing for divorce. Tolan was arrested one night last week while trying to enter his wife's apartments through a back window. He pleaded to be shown mercy, but threats he has made orally and in an intercepted letter written at the jail respecting a supposed invader of his home counseled that he be kept in confinement for a more thorough cooling off.

Other City Court Cases.

David Ochstein, a junker, who also conducts a little store at 2125 Maumee avenue, was in court charged with selling milk without a license. On his promise to lose no time in taking out a license, Judge Kerr continued the case indefinitely. Ochstein lost no time making good.

John Mack, charged with drunkenness, was continued until Thursday and put under $200 bond. He will be investigated.

Frank Richards, a loiterer, was turned loose.

William Stone, aged 16, who ran away from his home in Findlay, O., was held for the arrival of Miss Gadt, probation officer in the Ohio city, who wired that she would come for the lad during the day.

STRUCK BY STRAY BULLET.

A stray bullet fired by someone who had been shooting at a mark with a revolver, struck J. F. Hathaway, 2115 Broadway, in the breast as he was returning along the Wabash track Monday evening from his work in the Pennsylvania offices. The bullet, a 38-caliber projectile, struck him just as he was a block west of Fairfield avenue. Because the bullet was already well spent, and Hathaway was at the time wearing a heavy corduroy vest probably saved his life. Only a slight flesh wound was inflicted.

PROTEST COMING ON BRITISH TRADE BAN

Washington, March 16.—President Wilson declined to discuss the British order in council, shutting off trade with Germany, with callers today because he had not had opportunity to look over the official text. The United States has as yet been only informally advised of its terms, but he indicated broadly that the unofficial outline of its contents was very displeasing to the United States government.

Callers asked the president if there was precedent in law or history for Great Britain's action. The president began to reply, and then, evidently reconsidering, said he would defer any expression until officially advised of the order and until after conferences with state department officials. Discussion among other officials, however, was taken to indicate that a protest would be made to Great Britain and her allies.

Cotton Heavy Sufferer.

Cotton shipments from the south would suffer particularly by the new order. Although Great Britain has promised to pay for shipments of cotton taken into her ports en route to Germany, the fact that these cargoes will be sold at market and not contract price has aroused the cotton growers, who, through their representatives in congress, are preparing to insist on a strong declaration from the Washington government on the subject.

With the president devoting his entire time now to foreign affairs an exhaustive study of the new situation will be made. One general protest from the United States embodying its position on the general principles involved may be based on previous diplomatic exchanges on the subject and in some official quarters today it was though that might take the form of firm insistence on a compliance with principles of international law more vigorous than any of the notes hitherto sent by the United States.

Raises New Complications.

Officials at the state department who have studied the British order say it raises new and embarrassing complications which have never before arisen in maritime history.

What perhaps displeases officials most is the prohibition on commerce consigned to neutral countries and suspected of enemy destination. It forms the principal basis upon which the government will insist on the freedom of its commerce.

OFFICERS AND A FEW OF THE DELEGATES HERE TO ATTEND STATE MEETING OF THE MACCABEES.

About two hundred delegates are here to attend the state convention and second quadrennial review of the Indiana great camp of Maccabees in session here for two days. In the picture are a few of the officers and delegates who arrived early to be here for the opening session. The tallest man in the front row, with soft hat and cigar in his left hand, is Milo R. Meredith, of Wabash, great commander of the state. Other Indiana great camp officers in the picture are: M. A. Clapper, Hartford City, past great commander; J. W. Replogle, Goshen, great record keeper; J. L. Karns, Urbana, great chaplain; W. H. Unversaw, Franklin, great master-at-arms; L. L. Case, Muncie; Joseph Riebeling, Indianapolis; D. S. Greaney, Fort Wayne, great finance auditors.

MEREDITH IS AGAIN CHOSEN

Maccabees Re-elect Wabash Man Once More Great Commander.

200 DELEGATES IN ATTENDANCE

Mayor Hosey Gives Formal Address of Welcome to Fort Wayne.

Three of the old officers were elected Tuesday afternoon without opposition at the second quadrennial review of the Indiana great camp of the Maccabees, in session for two days in the Knights of Pythias hall on Washington boulevard west.

Milo R. Meredith, Wabash, was re-elected great commander; W. P. Turgi, Alexandria, great lieutenant commander, and J. W. Replogle, Goshen, great record keeper. A. H. Hirt, Shelbyville, was elected chaplain over W. M. Street, Noblesville. The officers are elected to serve for a period of four years.

The opening session of the convention was held at 10 o'clock Tuesday morning with an attendance of over 200 delegates from all sections of the state.

The address of welcome was delivered by Hon. William J. Hosey, mayor of Fort Wayne, to which Hon. R. N. Smith, of Laporte, responded on behalf of the visitors. Milo Meredith, of Wabash, great commander, is presiding and the meeting which continues over Wednesday promises to be the largest as well as the most enthusiastic ever held.

Hon. D. P. Markey, of Detroit, is expected to be the guest of honor at the convention. He is supreme commander of the Maccabees of the world.

Great Camp Officers Here.

Practically all the Indiana great camp officers are in attendance as follows: M. A. Clapper, Hartford City, past great commander; Milo R. Meredith, Wabash, great commander; W. P. Turgi, Alexandria, great lieutenant commander; J. W. Replogle, Goshen, great record keeper; W. C. Landis, M. D., Claypool, great medical examiner; J. L. Karns, Urbana, great chaplain; C. M. Spangler, Maxinkuckee, great sergeant; W. H. Unversaw, Franklin, great master-at-arms; J. K. Pence, Frankfort, great first guard; J. J. Lash, Columbus, great second guard; Fred Fell, Monterey, great sentinel; C. C. Thompson, Terre Haute, great picket; R. N. Smith, Laporte, great counselor; L. L. Case, Muncie; Joseph Riebeling, Indianapolis; D. S. Greaney, Fort Wayne.

The sessions of the convention are strictly secret, only duly elected representatives with proper credentials and officers being eligible to participate in the proceedings. The meeting promises to be most harmonious.

List of Committees.

The list of committees for the great camp review is as follows:

Credentials—A. G. Kauffman, Atlanta; H. H. Skiles, Bluffton; M. S. Harshbarger, Claypool.

New Business—George H. Snyder, Auburn; W. F. Phipps, Evansville; H. M. Ramsaey, Bedford.

Finance—W. P. Turgi, Alexandria; E. L. Burns, Elkhart; Harve Reynolds, Muncie.

Laws—Ralph N. Smith, Laporte; Walter C. Bailey, Peru; Robert C. Baltzell, Princeton.

Appeals, grievances and petitions—Jacob Coleman, South Bend; Paul J. Hueffner, Fort Wayne; Joseph Stanley, East Chicago.

Mileage and per diem—Dr. W. F. Danielson, Huntington; Alfred L. Turner, Anderson; W. H. Snyder, Onward.

Resolutions—James E. Southard,

NAVY READY HE ASSERTS

Daniels Answers Critics of Naval Unpreparedness for Hostilities.

NEVER IN BETTER SHAPE TO FIGHT

Secretary Speaks Following Launching of U. S. Dreadnaught.

Newport News, Va., March 16.—Secretary Daniels answering critics of the unpreparedness of the American navy for war declared in a speech today that never before in its history was the navy in better shape to fight. He spoke at a lunch given in his honor following the launching of the new superior dreadnought Pennsylvania.

"There never was a time," said Secretary Daniels, "when the navy was so powerful, so ready, so efficient as now. Nor has there been a year when the fleet has given so much time to target practice, maneuvers, war games and practice as the present year. Skill, modern adaptation, new tactics are being carried out day and night. The motto of the navy today is 'Training, training and more training. Practice and more practice, nothing else makes ships and men fit. Today they are fit and ready."

Marks Important Step.

Secretary Daniels reviewed the process of building battleships and said the launching of the Pennsylvania was one of many concrete processes of the strength, efficiency and development of the navy.

"No nation," said the secretary, "has placed such substantial faith in the deadly power of the submarine. Within a comparatively short time when our mighty fleet lies in Hampton Roads, ready to traverse the seas, it will be accompanied by submarines which can make twenty knots and send hurtling

SEARCH PASSENGERS FOR $30,000 STOLEN

Galveston, Texas, March 16.—The reported theft at sea of Mexican bank notes and London exchange valued at $30,000 gold caused the presence at the pier today of United States officials, city detectives and special agency operatives when the Norwegian steamship City of Tampico arrived from Vera Cruz. There are 53 passengers on board and each one along with his personal belongings, was searched as was every member of the crew. The loss of the money was reported by Cabino Viscera, of El Paso, a passenger on the City of Tampico.

READY TO MAKE A DEMAND ON GERMANY

Washington, March 16.—The United States will make its formal representations to Germany on the sinking of the American ship, William P. Frye, by the cruiser Prinz Eitel Friedrich as soon as certain necessary facts regarding the destination of the Frye's cargo of wheat are obtained.

President Wilson said today that the informal conferences between state department officials and Count Bernstorff, the German ambassador, had served to pave the way for formal representations, which will include a demand for an indemnity for the cargo and ship.

HUSBAND AND WIFE END LIFE BY NOOSE

Reading, Pa., March 16.—Edward Seyfert, a farmer, and his wife committed suicide by hanging themselves in their barn. The tragedy was discovered by their two young sons who went to the barn to feed the stock.

Upon entering the building they found their parents hanging side by side. Husband and wife retired last night in the best of spirits, bidding their children a pleasant good-night.

They were about 45 years old. There is no known motive for the double suicide.

GERMANS ARE HIT IN WEST

Have Suffered Reverses at Two Points, Declares Paris Report.

BUT BEAT BACK RUSSIAN ATTACK

Nineteen of Sunken Dresden's Crew Reported Missing.

Today's War News Given in Summary.

The claim is made by the French war office that the Germans have suffered reverses in two sections of the western front. The British army is said to have recaptured St. Eloi and to have carried new German positions near the village. In Champagne progress for the French at two points is reported.

The German official statement announces the winning of St. Eloi but makes no mention of its subsequent recapture by the British. The French attacks in Champagne, it is said, broke down.

Only brief mention of the eastern campaign is made in the Berlin report. It is asserted that Russian attacks near Przasnysz were defeated everywhere and that the Germans took 2,000 prisoners.

Additional Prussian casualty lists bring up the total of killed, wounded and missing since the war began to 1,050,020. This does not include casualties in the German states other than Prussia.

The British auxiliary cruiser Orama, which took part in the battle off Juan Fernandez island on Saturday, in which the German cruiser Dresden was sunk arrived at Valparaiso, Chile, and it was learned that 19 members of the Dresden's crew were missing. The survivors, some wounded, were aboard the Orama.

Paris, March 16.—The events of yesterday on the Franco-Belgian front are described in a statement from the war office this afternoon as follows:

"The Belgian army has consolidated its gains for the past few days. The British army, after having retaken St. Eloi, has also recaptured trenches to the southwest of the village and compelled the enemy to evacuate trenches to the southeast of the same point which have been completely demolished by the artillery.

"In Champagne fresh progress has been made to the northeast of Souain. In the forest of Le Pretre we have recaptured from the Germans the remainder of the trenches won by them yesterday morning, or to be more precise, the site of these trenches, for defensive works has been completely shattered by mine explosions. On the southern slope of Great Reichackerkopf an attack by the enemy yesterday morning carried a trench. We have retaken it and made some prisoners."

MEXICAN FERMENT SUBSIDES A BIT

Washington, March 16.—Official assurance that Gen. Carranza has abandoned his blockade of Progresso, were received today from two sources. American Consul Silliman, at Vera Cruz, reported that Carranza "at the request of President Wilson has recalled his order closing the port of Progresso."

Carranza's minister of foreign affairs telegraphed the Carranza agent here: "I beg to advise you that on March 14, the port of Progresso will be open."

Conditions in Mexico generally are regarded by President Wilson as much less in a ferment than they were a few days ago. He told callers today that the American representations and notes had been effective and that he feels that there were now security for foreigners. Keeping open the railroad between Mexico City and Vera Cruz the president regards as an awkward task, because the Carranza force held the Vera Cruz end, while their enemies are in possession at Mexico City. The Vera Cruz line is considered more of a military question now and the president indicated that if the railroad north from Mexico City to the American border were kept open as an avenue of egress for foreigners, the Washington government would be satisfied. The president said he had no doubt that those guilty of killing John B. McManus, an American citizen, recently, would be punished. With punishment of the offenders and payment of indemnity to the family the incident probably would be closed.

AGED LABORER HURT IN UNUSUAL MANNER

John E. Irwin, aged 70 years, and residing at 713 St. Mary's avenue, was seriously injured at 11 o'clock at the intersection of Wayne and Barr streets, where he was employed as a street cleaner, when an automobile and a two-horse wagon came in collision. The accident occurred in singular fashion. The auto, belonging to the Randall Sales company and driven by Theodore Bronson, a young colored man, came from the south on Barr street just as the wagon, in charge of Frank Mays, 1004 Eliza street, and employed by the Gilmartin Lumber company, was turning from the west into Barr street. Mays had a skeleton wagon, used to haul lumber and it being without a load was short-coupled with its reach projecting six or seven feet from the rear. The auto turned in such fashion as to strike the projecting reach and hurled the wagon to one side. Irwin, who was at work with his shovel and hand-cart, was struck and knocked down by the wagon. A large hole was torn in his forehead and he suffered other wounds of the scalp and injuries about the chest. He was taken to Hope hospital in the police ambulance. He will recover. Bronson says he could have avoided the collision had not his brakes failed to work. Bystanders who saw the accident agreed that no one seemed to be especially at fault. The injured man will recover.

ASKING A REHEARING.

Express Companies Want Reopening of Rate Case.

Washington, March 16—Representatives of the American, Adams, Southern and Wells Fargo Express companies asked leave of the interstate commerce commission today to file a petition for rehearing of the express rate case. It declared that the low rates in force prescribed by the commission have been disastrous".

COMPLETE PLANS FOR ST. PATRICK'S DAY

Big Parade Will Form at St. Patrick's Church at 8 O'clock.

Everything is in readiness for the celebration of St. Patrick's day, Wednesday, by the Ancient Order of Hibernians. According to the program the annual parade will move promptly at 8 o'clock and the line of march and assignments of places are as follows: Allen county board A. O. H., Citizens' band, St. Patrick's A. O. H. cadets, Cathedral A. O. H. cadets, all under command of Edward C. Cleary, marshal; Division No. 1 A. O. H. and all patriotic Irishmen.

The line of march will be north on Calhoun street to Wayne, east on Wayne to Barr, north on Barr to Berry, west on Berry to Fairfield, south on Fairfield to DeWald and east on DeWald to St. Patrick's church.

Upon arrival at St. Patrick's church the parade will be met by Ladies' Auxiliaries Nos. 1 and 2 and all will join in assisting at solemn high mass, which will be celebrated by Rev. Joseph F. Delaney, assisted by Rev. Nicholas Keller, deacon, and Rev. Bennett, subdeacon. Rev. Edward Mungovan will be master of ceremonies and will deliver the sermon.

After the services close the parade will re-form at St. Patrick's church and move north on Harrison to Butler, east to Calhoun, north to Lewis, around Cathedral square to Library hall and disband.

The evening entertainment will be under the auspices of Divisions Nos. 1 and 2, Ladies' Auxiliary Ancient Order of Hibernians. Brief addresses will be delivered by Hon. James E. Deery, state president A. O. H.; Rev. John R. Quinlan and Rev. Joseph F. Delaney. Refreshments will be served. Hon. James E. Deery is judge of the Indianapolis municipal court.

Green will doubtless be greatly in evidence throughout the entire day. Many of the stores will be appropriately decorated.

BUSY SEASON FOR THE COUNTY AGENT

C. Henry, county agent, will give another oat smut demonstration Tuesday evening at Milan Center in Milan township. A demonstration was given Monday evening at the M. E. church in Scipio township before the members of the Scipio Township Farmers' clubs. About forty members were present. On Friday together with T. A. Coleman, in charge of the county agents of the state, he will attend a meeting of farmers to be held at Auburn.

The county agent has been busy for the last two days sending out letters to the teachers of the county regarding the boys' and girls' clubs and asking for their co-operation.

Mr. Henry received word Tuesday morning from T. A. Coleman, of Purdue university, that the conference of county agents to have been held at Muncie on March 23 has been changed to March 29 on account of a conflict in dates.

Dr. Starr, a hog cholera expert, connected with the extension department of Purdue university, was a visitor in Fort Wayne Tuesday morning. He came here to change cars and while in the city called upon the county agent.

RICH JEWELS FROM MEXICO

Priest in Flight Brings a King's Ransom in Church Gems.

VALUE MORE THAN HALF A MILLION

Historic Vestments Pass Hostile Lines in Battered Suit Case.

New York, March 16.—A king's ransom in jewels blazoned in the royal eagles of Spain at the time of Charles V, the most powerful monarch of the sixteenth century, lies under guard at the customs house here awaiting appraisal.

The gems, set in gold on white and purple robes and mounted on two golden crowns, were brought into New York by a Catholic priest clad in shabby clothes, who fled from Mexico City a month ago, made his way to Vera Cruz and sailed aboard the steamer Montevideo.

From the depths of a battered suit case the gems and robes were tumbled out upon the dock for inspection by the customs authorities. They so dazzled the inspectors that they were hastily put back into the suit case. Under guard they were taken to a safe deposit vault, where they were locked up and special watchmen detained to guard them. Rough estimates placed their value at from $300,000 to $500,000.

Had Lain for Centuries.

This rich prize, it is said, lay in the cathedral of Mexico City, presumably for centuries—till it slipped through Carranza's fingers in the flight from Mexico of the priest who brought it to America. The name of this priest was withheld. It was learned, however, that the priest had said he hastily packed the jewels and robes in his suit case when Gen. Obregon called for a church tax of $500,000, locking up many Catholic priests in Mexico City until the tax was raised.

An archbishop's robe of purple is the chief article of value. The robe is of silk and apparently of great antiquity. Wrought in diamonds, emeralds, rubies and pearls, on the front of the robe so that it covers the wearer's breast, is the ancient Spanish coat of arms consisting of double eagles, back to back, wings raised, necks, back and beaks open. The entire design is done in gold, in which the gems are mounted, and the robe is very heavy.

From Sixteenth Century.

From the double eagle design, the customs officials believe there is truth in the priest's story that the robes were sent to Mexico in the sixteenth century, Spain in that period was at the height of her power and her ruler, Don Carlos I, was known as Charles V of the Holy Roman empire.

Next in value to the archbishop's robe are two gold crowns mounted with diamonds, rubies, emeralds and sapphires. Some of these gems, it is said, are as large as hazelnuts. There are spaces left on the tops of these crowns for other jewels and the uncut gems to fill the vacant spaces dangle from the crowns, secured by silken cords.

Several smaller clerical robes, in purple and white silk, some of them spangled with gems, complete the lot. The

Dead Men's Names on Registration Books

Indianapolis, Ind., March 16.—Dead men were placed on the registration books in Terre Haute last October, according to Ira Wellman, Silas Brewer and Jos. G. Elder, who testified in the Terre Haute election fraud case today.

The three men testified they had verified the poll as taken from the registration books and found many registered from vacant houses, impossible numbers, and addresses outside of the precincts in which they were working, and several hundred names of men who could not be found at all.

Wellman verified the poll in three precincts, he said. He testified he found two dead men registered in one precinct. One man had committed suicide a few days before registration and the other had been dead several years, he said. He added he had found one man registered from a street which would have been in a gravel pit, filled with water. He was unable to find about 300 men on the registration books, he testified.

Brewer worked in four precincts he said and found one man, who had been dead a year, registered from a house that had been moved away. There were a total of about 200 names on the books that he could not locate, he asserted. In addition he testified many were registered from vacant lots and impossible street numbers.

Elder also testified he found ten persons registered from vacant lots in one precinct.

Wellman, it was brought out on cross examination, was a former republican deputy sheriff of Vigo county. Mr. Bailey objected to bringing politics into the case and Judge Anderson ruled that politics had no place in the present case and stated that the attorneys would not inject it further.

LAST MINUTE NEWS

QUINCY HAS THIRD BIG FIRE IN WEEK

Quincy, Ill., March 16.—Quincy's third destructive fire within one week early today wiped out three of the city's industries, the Payton Pump company, the Stationer's Manufacturing company, and the Dayton Magneto company. The three plants were housed in one building, Henry F. Dayton being the president of each. The loss is $150,000, three quarters insured.

WILSON ATTEMPTS TO END BIG COAL STRIKE

Washington, March 16.—President Wilson today began preparing a proposal of arbitration to settle the Eastern Ohio coal strike. He will communicate it to the operators and miners leaders in letters probably tomorrow.

ITALY NOW NEAR DECISION ON WAR

London, March 16.—Dispatches from Italy make it apparent that nation is approaching a decision whether it shall adhere to its policy of armed neutrality or intervene in the war.

Following the reports of partial suppression by Italy of the mails to Austria and the conference of Emperor Francis Joseph with his ministers of war, governing the defense of the Italian frontier, is a dispatch from Rome to the effect that the Italian fleet is being concentrated at Tarento. This is the point in Italy nearest the Dardanelles.

So far as has been reported officially the bombardment of the Dardanelles has produced no further important results. Unofficial advices from Athens say that on Sunday the attacking warships silenced Turkish batteries, which had been posted above Kum Kalet, at the entrance of the Dardanelles.

A Russian official statement says the German assault on Ossowetz is producing only insignificant results. In their effort to capture this important fortress, where they have centered their attack on the Russian fortified line in northern Poland, the Germans have moved up their heavy artillery, but the Russian statement says the advantage thus far rests with the defenders. It is also said that the German advance toward Przasnysz is being held in check and that attempts to relieve Przemysl, in Galicia, have been ineffectual.

It is admitted that in the Carpathians the Russians are making little progress and have suffered very heavy losses.

WRIT SAVES HARRY THAW

His Attorneys Halt Effort to Rush Him Back to Matteawan.

ASYLUM ATTACHES READY IN COURT

Justice Page Denies Motion to Return Him to New Hampshire!

New York, March 16.—Harry K. Thaw will not be sent back to New Hampshire by the state of New York, as his counsel demanded, but must be returned to Matteawan asylum "unless legal papers calling for his detention in New York city are served upon the warden of Tombs prison."

Such was Supreme Court Justice Page's decision today in disposing of the formal motion to have Thaw returned to New England.

In the meantime counsel for Thaw, as in anticipation of just such a decision, had obtained from Supreme Court Justice Bijur a writ of habeas corpus which will keep Thaw in Tombs prison till next Friday when he must be produced in court.

Close Call for Thaw.

It was a close call for Thaw as plans had been considered by the state for returning him at once to his long-time residence in the hospital for the criminal insane. Asylum attendants were in the court room, ready to rush him there by automobile the moment the motion for a return to New Hampshire was denied. But the writ of habeas corpus which had been served half an hour before on Warden Hanley of the Tombs prevented this.

Sheriff Grifenhagen, of New York county, had heard whisperings of a plot to abduct Thaw during the brief interval when he should be out of Warden Hanley's custody in going to and from the prison to the court room across the bridge of sighs. Accordingly, the sheriff armed twenty deputies with revolvers and scattered them throughout the crowd that packed the court room. Many more armed deputies were sprinkled among the crowds in the corridors.

Taking No Chances.

"I am taking no chances," the sheriff said. "I am well heeled for an abduction."

Thaw entered the court room smiling and confident. He glanced over the crowd for a familiar face, apparently seeking his mother, his sister and his half-brother, Josiah Thaw, but they were not present.

Smile Changes to Frown.

When the decision was announced Thaw's smile changed to a frown. Plainly he was disappointed. He turned quickly to John B. Stanchfield, of his counsel, spoke a few words in an undertone and took his seat. A moment later, two of the sheriff's deputies led him away to the Tombs.

Justice Page took occasion to comment, in his decision, on the good faith displayed by the state of New York towards New Hampshire by placing Thaw on trial on the conspiracy charge. There had been no evidence the court held, to warrant the charge that Thaw had been brought back simply to again be sent to Matteawan. Nor had there been adduced any adequate reason why Thaw should be sent back to New Hampshire after his trial and acquittal.

Thaw was to go back to Matteawan, Justice Page decided, upon the old commitment of Justice Dowling.

Next Step on Friday.

The next step in the litigation to keep Thaw out of Matteawan will be taken Friday before Justice Bijur upon return of the writ of habeas corpus. It is expected an effort will be made then to have the question as to Thaw's insanity decided by a jury. Failing to obtain Thaw's release there is a strong probability that the case will be thrown into the federal courts again and will eventually find its way to the United States supreme court. Mr. Stanchfield so asserted. "The motion to have Mr. Thaw returned to New Hampshire and its denial are without precedent in law," he said. "In a case of this kind, where a man's sanity and constitutional rights are involved it seems to me that the matter should be settled by the United States supreme court."

It was understood that an appeal probably would be carried through the state courts to the highest tribunal and afterward, if necessary, taken into the federal courts and finally before the supreme court.

SURE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way that never fails to get rid of blackheads and that is to dissolve them.

To do this get about two ounces of plain powdered neroxin from any drug store—sprinkle a little on a hot, wet sponge—rub over the blackheads briskly—wash the parts and you will be surprised how the blackheads have disappeared. Big blackheads, little blackheads, no matter where they are, simply dissolve and disappear, leaving the parts without any mark whatever. Blackheads are simply a mixture of dust and dirt and secretions from the body that form in the pores of the skin—pinching and squeezing only cause irritation, make large pores, and do not get them out after they become hard. The powdered neroxin and the water simply dissolve the blackheads so they wash right out, leaving the pores free and clean and in their natural condition. Anybody troubled with these unsightly blemishes should certainly try this simple method.

RULES FOR CORN GROWING CONTEST

Each Contestant Must Grow Five Acres in One Continuous Piece.

Rules for the county corn growing contest to be held in Allen county and other counties throughout the state have been announced by the agricultural extension department of Purdue university and are as follows:

Each contestant shall grow five acres of corn, same to be in one continuous piece in one field and within Allen county.

Each contestant shall make application for entry to contest on or before May 15, 1915.

Each contestant shall keep an accurate record of how the crop was grown and shall report same on blanks furnished by the committee not later than September 30, 1915.

Each contestant shall keep an accurate record of all items pertaining to the cost of producing the crop. Each two-horse load of manure is valued at $2 per load, and commercial fertilizer at the actual cash value, but only one-half of either will be charged to the present crop. Labor of each man shall be valued at twenty cents per hour, while man and team shall be valued at thirty-five cents per hour. Estimate rent of land at $6 per acre. This is to be reported on blanks furnished by the committee not later than September 30, 1915.

Each contestant shall assist the committee in measuring the plot and determining the yield.

The plan to be followed in determining the yield of the field is as follows:

On or before October 10, 1915, a committee of three disinterested persons, one of whom shall be appointed by Purdue, shall visit the field to secure data as to—

(a) Size of plot.
(b) Ear bearing stalks per acre.
(c) Weight of corn per acre.
(d) Weight per bushel (moisture content to be considered).

Awards will be made on the following basis:

(a) Yield 70
(b) Cost of production 30

CALLS INTERVENTION ALMOST INEVITABLE

Paris, March 16.—That "anarchy in Mexico and the crimes committed there make intervention by the United States almost inevitable," is a statement credited to Premier Dato, of Spain, in a dispatch to the Petit Journal from its Madrid correspondent. The premier is reported to have said the Spanish government had decided not to maintain diplomatic relations with Mexico until the situation there again is normal and will decline the invitation of Gen. Carranza to send a representative to act as successor to Minister Caro, who was expelled from Mexico.

A dispatch from Madrid on March 14 said the Spanish government had published the negotiations with Gen. Carranza, which grew out of the expulsion of Minister Caro. It was said that Spain had accepted in principle the explanation offered by Carranza and probably would send Manuel Walls Merino to Mexico as its confidential agent.

NAMES MULBERRY MAN.

Indianapolis, March 16.—Governor Ralston has appointed Nathan B. Combs, of Mulberry, a member of the state board of veterinary medical examiners. He succeeds Dr. Thomas A. Sigler, of Greencastle, who resigned. Mr. Combs a democrat, was a member of the 1913 general assembly.

Beware of Tight Cough, Precedes Pneumonia.

Home-Made Syrup Loosens.

You can make a simple laxative cough syrup which will loosen the tightest cough in one hour and cure any cough or cold in a very short time. Here is the formula:

Essence mentho-laxene.....2½ Ozs.
Granulated sugar syrup.....13½ Ozs.

Make the syrup by using a pint of granulated sugar and a half pint of boiling water. Mix, stir and let cool. Then go to the drug store and buy a 2½ oz. package of Essence Mentho-Laxene (concentrated), empty it into a pint bottle and fill up with the syrup. Take a teaspoonful every hour or two as needed and you will soon be entirely rid of your cough and cold. This relieves and cures old people quicker and surer than anything ever heard of, and it is just fine for children, they like the taste so well.—Adv.

WILL CONTINUE USE OF RED CROSS SEALS

The Fort Wayne Anti-Tuberculosis society will continue to use the Red Cross seals of the state organization, according to an agreement that was reached Monday afternoon at a conference between the executive committee of the local body, Prof. Severance Burrage, of the state organization, and Dixon Van Blarlom, of New York city, field secretary of the national organization.

According to the agreement the state society will in the future receive 25 per cent. of the money derived from the first 100,000 seals sold by the Fort Wayne body, 20 per cent. from the second 100,000, and 15 per cent of all over 200,000. Last year a total of 270,000 seals were sold here. Fort Wayne ranking second among all the cities in the United States according to its population.

It was contended by the local society that the state society was not organizing the smaller towns in this section since making this complaint the state society has established branches in Lagrange, Kendallville and also at Decatur.

LOUIS MOHR PASSES AWAY IN CALIFORNIA

Louis Mohr, a former well known business man of this city, and a distinguished music director, died at the family home in Whittier, Cal., Sunday evening at the age of 72 years, following an extended illness. This was the message received by relatives in this city but contained only a few details. However, it stated that Mrs. Mohr was seriously ill and would be unable to accompany the remains to this city.

The deceased was born in this city and was the son of Mr. and Mrs. John Mohr, and was a member of one of the best known and oldest families of the city. While residing in this city Mr. Mohr was engaged in the sewing machine business but moved his family to the west six years ago. For a short time while living in Fort Wayne he was in the insurance business.

Besides the widow he is survived by the following children: Arthur Mohr, Rose and George Mohr and Mrs. W. S. Howey, of California. Mrs. H. C. Taylor, of this city, is a sister.

ACCUSE MUNCIE MAYOR OF ACCEPTING BRIBE

Muncie, Ind., March 16.—Following a grand jury investigation of several days, Mayor Rollin H. Bunch and Deputy Prosecutor Gene Williams were arrested early last evening on grand jury indictments which charge them with accepting bribes and Justice of the Peace John Day was arrested on an indictment charging him with having failed to docket cases in which fines were levied by him in his court.

Mayor Bunch is charged in true bill with having accepted $1,600 from Loyd Yount, an agent for a machine concern, and Deputy Prosecutor Williams is charged with having accepted $100 from Yount. All three men were released on bond.

Dresden is Sent Down in a 5-Minute Fight

London, March 16.—The admiralty office last night announced that the German cruiser Dresden had been sunk.

The Dresden was trapped by the British warships Glasgow and Kent and the converted cruiser Orama near Juan Fernandez island, in the Pacific, 400 miles off the Chilean coast.

After five minutes' fighting the Dresden's colors were hauled down. The ship had been set on fire, its magazine exploded and the vessel sank.

The 320 members of the crew, including fifteen badly wounded, were saved. None of the British ships was damaged and there were no casualties among their crews.

Escaped Falklands Battle.

The Dresden was the only German vessel which escaped in the battle near the Falkland islands in the South Atlantic in December, when the Scharnhorst, Gniesenau, Leipzig and Nurnberg were destroyed.

The sinking of the Dresden leaves at large on the high seas, so far as is known, only the cruiser Karlsruhe, last reported as operating in the West Indies, and the auxiliary cruiser Kronprinz Wilhelm, which is raiding commerce in the South Atlantic.

The Dresden was a sister ship of the famous Emden, which was sunk off Cocos island, in the Indian ocean, by the Australian cruiser Sydney after an adventurous career.

Ends Long Search.

The destruction of the Dresden ends a search of two seas which has been in progress on the part of the British "flying squadron," aided by Japanese cruisers, ever since the Falkland islands battle.

The Dresden, a vessel of 3,600 tons, was no match for the battle cruisers in the fleet of Vice Admiral Sir Frederick Sturdee in the battle, and after the destruction of the four other German ships the Dresden steamed away and escaped in the darkness.

SEEK STATEMENT FROM SURVIVORS

New Terre Haute Murder Case Proves Puzzle to the Police.

Terre Haute, Ind., March 16.—Efforts were to be made today by police and prosecutor to get a statement from one of the survivors of the family of William C. Balding, the telephone company employe, three members of whom were murdered in their beds and three others of whom were wounded by being beaten with flat irons. At the hospital Clifford Balding, 12; Irene, 3, and Walter, one year old, were still unconscious this morning. An attempt was made to get a statement from Clifford last night when he showed signs of returning consciousness, but it proved unsuccessful. The mother, Mrs. Mary C. Balding, died last night.

The police held one man today whom they suspected might know something about the tragedy but were not confident of any immediate solution of the mystery.

Reports that $10 which Mrs. Balding was known to have had in the house turned the police toward the theory that robbery may have been the motive for the crime. William C. Baalding, the husband and father, returned to the city early this morning from Centralia, Ill., where he had been doing line work for a telephone company. He said he knew of no enemies of the family and could give the police no additional information upon which to base their search for the murderer.

OFFICIAL FLAG FOR THE VICE PRESIDENT

Washington, March 16.—A flag for the vice president, the first in the history of the American navy, has been authorized by Secretary Daniels. It is like the president's flag except that it has a white instead of a blue field, for the coat of arms of the United States. The flag will be hoisted for the first time when Vice President Marshall as the representative of President Wilson at the Panama-Pacific exposition, boards the flagship Colorado at San Francisco, this month.

MARSHALLS AT CHICAGO.

Chicago, March 16.—Vice President Marshall and Mrs. Marshall are here on their way to the Panama-Pacific exposition at San Francisco. They will leave tonight. Franklin B. Roosevelt, assistant secretary of the navy, will make the trip to the coast with them.

ARMED MEN GUARD BODY OF MRS. ROCKEFELLER.

Tarrytown, N. Y., March 16.—Two armed guards kept watch today over the body of Mrs. John D. Rockefeller, sr., in the mausoleum of John D. Archbold, in the Sleepy Hollow cemetery here. It was stated that guards would be kept on duty until arrangements for the permanent burial had been completed. Mr. Rockefeller owns a lot in the Lakeview cemetery at Cleveland but it was said that he might decide to have a vault constructed here.

DOWNS ESCAPES INJURY.

Elwood, Ind., March 16.—Gar Downs was thrown beneath a cut of freight cars when his buggy was demolished at a crossing here yesterday. Four cars passed above him. He was not injured.

Mrs. George B. Stemen, of 1102 West Main street, is sick at the home of Mr. and Mrs. C. A. Stemen in the south side. She went there on a visit a week ago and was taken with inflammatory rheumatism and has been unable to go home since.

SEVERE HEADACHES, SLEEPLESS NIGHTS

Was the Lot of A. O. Richardson 2418 Gay St., Fort Wayne; Is Now Well.

A. O. RICHARDSON.

Eminent authorities say that headaches are merely warnings of other trouble, in other words it is merely a notification of nature that something is wrong and generally it is the digestive system that is clogged up and you are poisoning yourself and your nerves cry out in protest, and many just swallow a headache powder, depress the heart and circulation and let it go at that, with the results that the warning is suppressed and dire results often follow. Clean out your stomach and intestinal tract and you will get rid of the pain in the natural way, and Herb Lax-a-Tone will not only clean it up, but it will put it into such shape that your trouble will disappear permanently. Mr. Richardson says, have had a bad stomach for three years, would bloat up terribly with severe pain across the stomach and such terrible headaches that I had to sit up nights with pain. But now, thanks to Lax-a-Tone, I can truthfully say my trouble is at an end. If you have bilious spells, constipation, kidney trouble with swollen feet and ankles, try this great tonic.

The Herb Lax-a-Tone man is at Dreier Drug Co., 526 Calhoun street, where he is demonstrating this remedy. Free samples given Tuesday and Wednesday.

DIVORCED AND REWED AT 15.

Day After Getting Decree Girl Takes Second Husband.

Webb City, Mo., March 16.—Divorced and married again within twenty-four hours at the age of fifteen, is the record of Grace Tucker, of this city, now Mrs. Willie Shadwick.

At the age of twelve Grace Tucker was married to Mirt Jamerson, thirty years old. After two years they separated. She was granted a divorce, pleading that she had been forced into the first marriage by her relatives.

Her maiden name of Grace Tucker was restored and the next day Miss Tucker, with the consent of her mother, was married to Willie Shadwick.

NEWS OF FORT WAYNE'S NEIGHBORS

KEPT MARRIAGE LONG SECRET.

Bluffton, Ind., March 16.—The friends of Charley Wiley, of Elwood, a former Bluffton boy, and the son of Mrs. Susan Wiley, of this city, have been informed of his marriage performed while Mr. Wiley was working in New York city over twenty years ago and which had never previously become known here. Mr. Wiley's wife died about a year and a half after their marriage, according to the best information obtainable here, and left him with an infant son. Mr. Wiley placed the son in the charge of his maternal grandparents and has been supporting and educating the boy with them for twenty years past. The announcement of the marriage was made last week when Mr. Wiley sent for the boy to join him at Elwood.

ADAMS COUNTY FARMER DIES.

Decatur, Ind., March 16.—John Newton Stevens, aged 35, one of the well known young farmers of Union township, is dead at his home on the Clark Brothers' farm. Mr. Stevens had been suffering from pneumonia, which developed into heart failure, causing his death very unexpectedly. Mr. Stevens was a son of Mr. and Mrs. Smith Stevens, residents of Union township, and was born there Sept. 19, 1875. He was reared to manhood on the farm and had followed that vocation all his life. Mr. Stevens s survived by a widow and two daughters.

PASTOR TO LEAVE AUBURN.

Auburn, Ind., March 16.—The members of the First Baptist church of this city were taken by surprise when Rev. H. B. Mellinger, pastor of the church, announced that on May 10 he would leave the pastorate of the church. As yet Rev. Mellinger is undecided as to where he shall go from Auburn, but it is certain that he will move from this city. Mr. Mellinger has been the pastor of the local church for the past ten months and at the time his resignation takes effect on May 10 he will have been here a year. Mr. and Mrs. Mellinger came here from Clyde, Ohio, where he was pastor of the church at that place.

FIND BONES OF MASTODON.

Plymouth, Ind., March 16.—On exhibition in this city are the bones of a mastodon, the prehistoric elephant that roamed this region when its climate was more tropical. Eight bones were unearthed by a dredger digging the Seltenright ditch on the Mosslander farm, four miles north of Plymouth. Six of the bones are vertebrae and are of enormous size. There is also a part of the femur, or thigh bone. Only about two-thirds of this bone is preserved. Its size indicates that the specimen to which it belonged was in life seventeen and one-half feet high and approximately thirty-four feet long. The bones have attracted much attention here.

AGED NATIVE OF COUNTY DIES.

Goshen, Ind., March 16.—Mrs. George W. Farrell, one of the oldest natives of Elkhart county, is dead at her home here, aged seventy-six years, after a year's illness. Mrs. Farrell was born at Fairlawn farm, March 1, 1839, and was a life-long resident of the county. She was a daughter of William Latta, who was one of the first settlers of Elkhart county. She was one of eleven children, only two of whom are still living. They are Mrs. Mary L. Bivins, of Goshen, and Mrs. Carrie Hachstaff, of Denver, Colo. In 1870 she was united in marriage with George W. Farrell and lived at Waterford until 1886, when the family moved to Goshen. Her husband, three sons and three grandchildren survive.

OF INCENDIARY ORIGIN.

Hartford City, Ind., March 16.—Three colts, six milch cows and two calves were burned to death in a fire which destroyed two large barns and a buggy shed and damaged the house on the farm of John Schwartzkopf, well known Harrison township man, near Montpelier. The loss will be about $6,500, with $3,500 insurance. Schwarzkopf believes the fire was of incendiary origin. So quickly did it break out in the larger of the two barns that there was evidence that the fire had been started simultaneously at a number of points. Twelve head of horses, a bull and a buggy were saved from the flames.

WOMAN HAS SMALLPOX.

Huntington, Ind., March 16.—Mrs. D. H. Shell, wife of the county superintendent of roads, who lives in Union township, is ill with smallpox. Though the case is not severe, Mrs. Shell has been very ill. The illness was at first treated for a case of the grip without a physician seeing Mrs. Shell. Later it was reported that she had broken out with something and a visit by two physicians showed a well-developed case of smallpox.

SCARLET FEVER EPIDEMIC.

Huntington, Ind., March 16.—The ninth case of scarlet fever in the vicinity of Monument City was quarantined yesterday when Helen Wolverton, young daughter of Mr. and Mrs. Edward Wolverton, was found to have contracted the disease. It is believed that she was exposed to the disease at the Monument City school, as several other pupils are now quarantined.

EAGLES TO ENLARGE HOME.

Warsaw, Ind., March 16.—Plans to enlarge the Eagles' home in the future assumed definite proportions when the Eagles' lodge secured an option on the building of Robert Hickman, now occupied by the Brant and Beebe billiard hall. According to the agreement at the death of Mr. Hickman the lodge is to buy the building. A price of $7,100 is to be paid.

ST. JOE WOMAN CALLED.

Auburn, Ind., March 16.—Mrs. John Y. Davis, for thirty-four years a resident of St. Joe, passed away at her home there Monday, dropsy being the immediate cause of her death. She had been ailing for about three years and for the past three months had been confined to her home. She is survived by her husband, one son, Frank Davis, of St. Joe, and one step-daughter, Mrs. John Wineland, also of St. Joe.

LAOTTO PAIR JOIN HANDS.

Albion, Ind., March 16.—Miss Ina M. Simon, of near Laotto, and Donald Brown, of Laotto, were married here in the Lutheran parsonage by Rev. C. S. Bream. They expect to reside on a farm near Laotto. The bridegroom has been a resident of Laotto for the last two years, being employed in a store. He will quit to start farming. The bride is the attractive daughter of V. C. Simon, trustee of Swan township.

MAKES WORK FOR COURTS.

Goshen, Ind., March 16.—A few hours after she had received a decree of divorce from her husband, Earl Woods, and was allowed to resume her maiden name, Violet Hardwood filed a paternity charge against Carl Routsong, of this city. Routsing was arrested and held under $400 to circuit court.

TAKEN TO PENITENTIARY.

Bluffton, Ind., March 16.—Clint Deam, whom Judge Eichhorn sentenced to two to fourteen years in the state prison at Michigan City, has been taken there by Deputy Sheriff George Albright. An appeal had been granted, with bond fixed at $3,000, but it was indicated that there would be no appeal. Deam was found guilty of assault and battery with criminal intent to commit rape.

GET TO THE CAUSE

Fort Wayne People Are Learning the Way.

There is but little peace or comfort for the man or woman with a bad back. The distress begins in early morning—keeps up throughout the day. It's hard to get out of bed, it's torture to stoop or straighten. Plasters and liniments may relieve, but cannot cure if the cause is inside—the kidneys. When suffering so, use Doan's Kidney Pills, the tested and proven kidney remedy, used in kidney troubles for over 50 years. Doan's Kidney Pills are recommended by thousands for just such cases. Proof of their effectiveness in the testimony of this Fort Wayne resident:

Mrs. A. Smead, 1010 High St., Fort Wayne, says: "Last summer I used several boxes of Doan's Kidney Pills and they did me more good than any other kidney medicine I had ever used. My kidneys were weak and the trouble affected my back. Doan's Kidney Pills cured me and since then I haven't had any trouble. I advise anyone who has kidney complaint to use Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Smead had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

POLICE HEAR STRANGE TALE.

East Carmi (Ill.) Man Tells of Stabbing Intruder in Home.

Carmi, Ill., March 16.—Elmer Baker, a resident of East Carmi, has told a strange story to the police of this city. He said he went home a few nights ago and that when he entered a room some one struck him on the shoulder. Believing the assailant a burglar, he drew his knife and began stabbing at him. He then ran to the home of a neighbor and the two returned and examined the room with the aid of a light. The walls and floor were spattered with blood.

A boat was found near the river, a short distance from Baker's home with the sides blood stained. The police are of the opinion that the wounded man went to the boat to wash away the blood and fell into the river and drowned. Arrangements are under way to drag the river.

THE SENTINEL'S DAILY SCRIPTURE READING.

Luke 18:31-43.

31 Then he took unto him the twelve, and said unto them, Behold, we go up to Jerusalem, and all things that are written by the prophets concerning the Son of man shall be accomplished.

32 For he shall be delivered unto the Gentiles, and shall be mocked, and spitefully entreated, and spitted on:

33 And they shall scourge him, and put him to death; and the third day he shall rise again.

34 And they understood none of these things: and this saying was hid from them, neither knew they the things which were spoken.

35 And it came to pass, that as he was come night unto Jericho, a certain blind man sat by the way side begging:

36 And hearing the multitude pass by, he asked what it meant.

37 And they told him, that Jesus of Nazareth passeth by.

38 And he cried, saying, Jesus, thou Son of David, have mercy on me.

39 And they which went before rebuked him, that he should hold his peace; but he cried so much the more, Thou Son of David, have mercy on me.

40 And Jesus stood, and commanded him to be brought unto him: and when he was come near, he asked him,

41 Saying, What wilt thou that I shall do unto thee? And he said, Lord, that I may receive my sight.

42 And Jesus said unto him, Receive thy sight: thy faith hath saved thee.

43 And immediately he received his sight, and followed him, glorifying God: and all the people, when they saw it, gave praise unto God.

Selling to Warring Nations.

Statisticians with access to a view of the trade channels of this country come forward with the statement that during the first six months of the European war the United States sold war supplies to the value of $400,000,000 to the warring nations. These figures do not take into consideration exports of food supplies destined for the civil population of those countries, but only the material that has actually to do with war operations.

Of this $400,000,000 which was poured into the trade channels of America, about $25,000,000 was expended for motor cars, $105,000,000 for arms and explosives, $65,000,000 for iron and steel, $30,000,000 for uniforms, socks, sweaters, etc.; $6,000,000 for chemicals and hospital supplies; $18,000,000 for soldiers' shoes, harness and other leather products, and $160,000,000 for miscellaneous goods, including food supplies known to have gone to the various armies.

It is not possible, of course, to trace accurately every shipment of goods that will ultimately find its way into military use abroad. A large proportion of the purchases are made through brokers who maintain secrecy regarding the destination of the shipments. The manufacturers may have a suspicion as to the final use of the products, but they are vastly less concerned regarding this phase than in the assurance that payment will be forthcoming, and it usually is. Goods are sold for delivery here, and all shipment is at the buyers' risk.

The ultimate magnitude of American business with the warring nations will, of course, depend largely on the duration of the struggle. Contracts already placed will bring the aggregate up to at least one billion dollars, and it is probable that a good many millions more will pour into the United States in this form of trade before the treaty of peace is signed.

One phase of the problem of the unemployed with which it is difficult to have any sort of patience was forcefully presented in the Fort Wayne city court Monday morning. But two men out of a total of some fifty who had congregated there to feast idle curiosity and degraded tastes by absorbing the reeking details of shame and misfortune were at all attracted by the announcement that jobs for at least twenty-five men were awaiting claimants on a sewer construction contract. The remainder simply treated the offer with silent contempt. There is always sympathy for the man who really wants work and cannot get it, but the sort that made up that police court audience is entitled to neither sympathy nor assistance.

Indianapolis dispatches would have us believe that a $2,000 state job—that of tariff clerk to the public service commission—is yawning in a vast chasm of vacancy because nobody can be found to take it. Much as it pains us to doubt the veracity of Indianapolis dispatches, there are limits to which human credulity cannot extend itself. The case in point is one of them.

Fort Wayne is both gratified and honored by the presence of the Indiana Maccabees in state convention. It extends to them the most cordial welcome, and it expresses the hope that their stay in the city may be most pleasant and their deliberations in behalf of their great fraternal organization most profitable.

And now Senor Guiterrez, who was for a brief space of time nominally provisional president of Mexico, has set up his own junta at Washington as a contribution to the assortment of Mexican factions represented at our national capital. Oh, well; what's a few confidential agencies more or less between friends?

The Indianapolis Times observes that Fort Wayne is showing the proper spirit in taking promptly in hand her own flood problems. It may seem very strange, but the fact is that Fort Wayne has learned that when she wants anything done the proper proceedure is to do it herself.

SOMETHING PRACTICAL.

(Indiana Daily Times.)

If the friends of a constitutional convention are to get anywhere, that forward progress must be on practical lines. First of all, it is suggested the advocates of a new constitution take measures to get political party majorities and committees interested in the movement. This means activity in all parties to select progressive precinct committeemen, county chairmen and state committee members. So the reorganization of parties comes first. Under the new primary law is to be found the opportunity so long desired by the progressive element in every party.

In the making of state delegates is another big work for the practical forces that urge a constitutional convention. It is plain the constitutional convention will be in sight if the progressive forces are able to induce all political parties to adopt a constitutional convention plank in 1916. Having the parties pledged and having individual legislative candidates nominated and put on record in favor of a constitutional convention, it will follow the 1916 legislature must call a constitutional convention without delay. The people have seen in the 1915 legislature how party organizations can be induced to fulfill party promises.

It is to be hoped the advocates of a constitutional convention will give at least part of their time to practical politics and to the task of getting the great agencies of government working for progress. After all, propaganda is not the only essential. Friendly organization men, pledged parties and legislators on record for the constitutional convention are the absolutely vital things.

THE CANAL BUSINESS.

(Pittsburgh Dispatch.)

The traffic through the Panama canal so far exhibits the peculiarity that it is far in excess of Prof. Emory Johnston's estimate on the domestic traffic and far below his estimate on the foreign traffic. Fifty-nine American vessels engaged in coast-wise trade operate regularly through the canal. The domestic traffic through the canal up to February 14 was 992,711 tons, or nearly as much in six months as Prof. Johnston estimated for the first year. So the domestic tonnage is liable to be nearly twice the estimate. The foreign tonnage has, however, fallen short of the estimate, being 1,374,533 tons. This is evidently due to the European war. The remedy for that must be looked for either in the return of peace or the rise of the United States in commerce to supply the lack. We are building ships to do more commerce; but the substitution of American commerce for European will of necessity be a work of time.

INDICTMENTS ARE QUASHED.

Vincennes Prosecutor Will Appeal Gambling Charges.

Vincennes, Ind., March 16.—One hundred and fifty indictments returned by the grand jury against citizens of this city were quashed yesterday when Judge C. M. Willoughby, of the Knox circuit court, sustained a motion, by defense attorneys, to dismiss the charges for gaming and visiting gaming houses. In his rulings, Judge Willoughby held that the first counts in the indictments were faulty because they charged gaming instead of gambling and that the second and third counts were void in that each charged gaming with the same person.

After the motion to quash had been sustained, Prosecutor Kimmell announced that he would appeal the ruling to the higher courts.

HIGH COST OF DYING CONFRONTS CAPITAL

Washington Cemetery Companies Have Boosted the Price of Lots.

Washington, March 16.—The high cost of living in the nation's capital has now been supplemented by the high cost of dying. The cemetery companies have all collaborated in an increase in price of all cemetery lots ranging from 6 to 10 per cent. The only company not included in the death combine is one whose lots are already all sold.

About seven years ago the federal penitentiary at Florence, Ariz., lodged four intellectual prisoners. They were Mexicans who had started a revolutionary junta in Los Angeles and by the activities of our department of justice, influenced by the then administration's friendship for Diaz, had been railroaded to jail on the charge that they had violated a federal statute by equipping actual revolutionary expeditions against a friendly country. They served four years. Among them was one Antonio Villareal.

Today Villareal is the revolutionary governor of the Mexican state of Nuevo Leon. His regime differs from that of Villa, Carranza and the other "leaders" in that there has not been a single execution for political reasons in his district since he assumed power. One of the first things he did when he took office was to announce that all lands not in use for agricultural or other purposes were open to any persons who might wish to use them for such purposes. He has no regard for paper titles or real estate precedents. Land is for those who will use it and use is the only title to land which he recognizes. He settled a strike on the Monterey street railways by briefly informing the European stockholders that if they could not come immediately to terms with the men, the government could easily do so by taking over the properties and running them as a public utility. The stockholders promptly granted the demands of the striking operatives.

A member of President Wilson's cabinet recently stated that the German spy system in Washington had been found to be so pervasive that the president was seriously considering abandoning the twice-a-week meetings with the newspaper correspondents at which he expresses his opinions more or less freely on many subjects. This may or may not have some connection with the recent determination to intermit for three weeks these, as well as other appointments, while the affair of the German commerce destroyer, Eitel Frederick, is under diplomatic consideration.

NICKEL PLATE IS SUED FOR $10,000

That Sum Demanded for the Death of Arthur T. Sturgeon.

Suit has been filed in the circuit court by the Tri-State Loan and Trust company, as administrator of the estate of the late Arthur T. Sturgeon, against the New York, Chicago & St. Louis railroad for $10,000 for the death of Sturgeon. It is alleged in the complaint that Sturgeon met his death November 29, 1913, at his home east of the city while trying to flag a west bound Nickel Plate passenger train that dashed into a farm wagon loaded with manure that had stalled on the tracks where a private roadwy to the Sturgeon home crosses the rilroad. It is said that the condition of the company's right of way at this point was such that the wagon could not be moved. Sturgeon, it is said, saw the train coming at a distance of 6,000 feet and fearing a wreck and the death and injury of passengers, stood on the track and gave warning signals. He was struck, according to the complaint, by a piece of the wagon, into which the train dashed. The company is blamed for conditions which stalled the wagon and for failure of the train to stop when the obstruction was sighted and the warning given.

Kerr Murray Matter Settled.

After more than two years of litigation of one sort and another the estate of the Kerr Murray Manufacturing company, which failed and went into the hands of a receiver, has been finally settled and disposed of in the circuit court by Special Judge Sol A. Wood, who has entered final decree to that effect, in the suit of George Cressler against the insolvent corporation. The decree cites the report of the receiver that all the property and assets have been sold and disposed of, all claims in favor of the company have been collected and all claims against it allowed or disallowed. The payment of fees to Walter A. Olds and Thomas E. Ellison, attorneys in the case, is directed and the distribution pro rata among creditors of $16,652.59 cash, now in the hands of the receiver, is ordered. The estate is therefore declared finally settled.

Notes of the Courts.

Lafayette O. Logan, widow of the late Orrin Logan and administratrix of his estate, has filed her final report in the circuit court.

Frank Wilson has begun action in the circuit court against Noah Amstutz for collection of $60 on account.

The last will and testament of the late Victor A. Huguenard has been filed for probate. The estate is left to the widow, Marie Jane Huguenard and a son, Joseph.

In the circuit court Robert Jeffries, a youth of 18 years, made a plea of guilty to a charge of entering a house to commit a felony and was given a suspended sentence of from two to fourteen years in the reformatory. Judge Eggeman told him that he would give him one more chance to pursue an honest life.

The will of Benjamin F. Ogden has been filed for probate. He leaves all his estate to his wife during her natural life, to then be distributed to his four daughters. Agnes Emily Philley, a daughter, is named executrix.

The superior court awarded the plaintiff $125 in the suit of Nathan Kaplan vs. Henry C. Pequignot.

The suit of the National Mill and Supply company has been dismissed from the circuit court.

The circuit court has denied the petition to have Edward Felger declared of sound mind.

CITY BREVITIES.

The Ladies of the Congenial Maccabees' club will meet tomorrow afternoon with Mrs. Zimmerman, of 1118 Columbia avenue.

BASS COMPANY IS DEMANDING SHARE

Wants Its Portion of Money Paid in for Ornamental Lights.

Through its attorneys, Barrett, Morris & Hoffman, the Bass Foundry and Machine company has filed with the mayor, the board of public works, the city comptroller and County Treasurer J. Herman Bueter, ex-officio treasurer of the city, a formal demand for its proportionate share of the sum of $2,000 that has been paid in by property owners as their assessments for ornamental lighting systems constructed under the board's resolutions numbers 5, 6, 7, 11 and 12, adopted Feb. 3, 1913, and number 13, adopted Sept. 12, 1913. The sum of $2,000 was received by the city March 13, 1915. The demand states that of this sum $2,000 is due the Bass company for furnishing the ornamental standards for the lighting systems. The assessments for work under some of these resolutions have been delayed owing to the fact that collection was resisted in the courts. A number of property owners, however, have been making payments and the Bass company wants its share, payments to it having been long deferred.

BOARD LIMITS CANOPY.

By order of the board of public works Tuesday morning, operations were stopped on the construction of a canopy in front of the buildings at 1030 and 1032 Calhoun street. The Jefferson Theater company is having a Calhoun street entrance to its playhouse, which fronts on West Jefferson street, built through at 1030 Calhoun street, and a part of the design is an ornamental canopy. This was being constructed also in front of 1032, occupied by the National meat market, and promised a portico twice as large as the board had originally contemplated. The permit for the work now applies only to the theater entrance.

HAVE ELECTRIC INCUBATOR.

An electric incubating device for developeing germ cultures taken to determine contagious diseases has just been installed in the laboratory of the city health department. A gas incubator did not work satisfactorily and was discarded. The electric device has an automatic thermal regulator and the heat is kept uniform at a normal bodily temperature, so that development of cultures is never arrested by too low a degree of heat. Another one will be installed in police headquarters that physicians may place their cultures at night when the health office is closed and no time will then be lost in having determinations.

The stork has just left a little son at the home of Mr. and Mrs. A. J. Schreck, on West Wayne street. Upon the authority of Charles S. Bash, the proud grandfather, announcement is made that it is the handsomest baby ever born in the west end.

The entertainment to be given this evening by Degree fo Honor lodge No. 2 is for its friends as well as its members.

WILL HOLD A RECEPTION.

Function in Indiana Building at San Francisco Planned.

Indianapolis, March 16.—Vice-President Thomas R. Marshall, who will speak in place of President Wilson at the Panama-Pacific exposition next Friday, will be a guest of honor together with former Vice-President Fairbanks at a public reception at the Indiana building Friday afternoon. Lieutenant Governor O'Neill has issued the invitations to the reception as chairman of the Indiana exposition committee. Hundreds of Indianans are expected to attend the meeting.

Beautiful Showing of Dress Hats

Tomorrow is an excellent opportunity to inspect these styles at their best, for they will be here in full strength and great variety, forming a specially planned display.

AT THE MAJESTIC.

"High Jinks" Here Matinee and Night Saturday.

The story of "High Jinks," which Arthur Hammerstein will present at the Majestic theater Saturday is all about a perfume, which, once inhaled, makes all who have sniffed of it not only good-natured but remarkably hilarious. The secret of the perfume is communicated by the discoverer to an American nerve specialist, in Paris. The doctor decides to try it in his practice, and experiments on a young female patient. She becomes so joyous under its influence that she throws her arms around the doctor's neck and kisses him to her heart's content. Her husband, a quarrelsome Frenchman, is witness of the incident, and at once seeks satisfaction from the doctor. How the physician sought to outwit the Frenchman, and a tangled maze of femininity form the substance matter of the remainder of the plot, whose fun mounts higher and higher as it proceeds. The book and lyrics were written by Otto Hauerbach, Rudolf Friml, composer of "The Firefly," has furnished a score which is said to be richer in lively and humorous dance melodies than any of recent production. Besides a large chorus of pretty girls, the company includes a score of well-known entertainers.

AT THE NEW PALACE

"The Meanest Man in the World" is the sketch for which Fort Wayne has been waiting, lo, these many moons. Refreshingly humorous without any slapstick monkeyshines to mar the beauty of the lines the skit which is presented by Allan Dinehart, assisted by Miss Marie Louise Dyer, is by far the best offering of its character ever seen in Fort Wayne. Mr. Dinehart, as an impoverished attorney, attempts to collect an old account from an out of town customer and after declaring himself to be the meanest man in the world, he capitulates before the abject woe of the young girl, who owes the bill, borrows the money from a friend to settle the bill and then claims he did it because that's what everybody does, "helps the other fellow along."

Polly Connolly's singing of Percy Wenrich's latest song hits and his own playing of the refrains of a number of them on a Packard grand combine to make their little offering the brightest and snappiest of its character that ever was presented at the New Palace.

AT THE JEFFERSON.

TYRONE POWER IN "ARISTOCRACY"

Noted Tragedian at Jefferson in Paramount Drama.

Tyrone Power, the distinguished actor of the American stage, and acknowledged to be one of our foremost tragedians, comes to the Jefferson theater today, heading a cast of extraordinary brilliancy in a remarkable screen adaptation of Bronson Howard's noted society drama, "Aristocracy." No cast that has ever appeared in a Famous Players' production eclipses the one present in this picture, when individual and collective brilliancy is concerned. Marguerite Skirvin, the beautiful actress whose successes on the operatic stage acclaimed her to American audiences before she entered the silent drama is cast as the young wife of Stockton (Mr. Power) a socially ambitious man who marries the girl for her position in that circle; she, in her turn marrying him for his money. Edna Mayo plays the role of Stockton's daughter, Virginia. Other celebrities in the cast are William Roselle, Arthur Hoops and Ida Waterman.

"Sunshine Molly," another Paramount attraction will hold forth on the Jefferson screen tomorrow.

AT THE EMPRESS.

"I can see nothing wrong with that show," was the way that one lady spoke of "The Tango Queens" as she left the Empress theater last evening, "and I am sure that I am going to tell all my friends about it as I think it was a very good show from start to finish. I always had a different idea of burlesque, but when the Empress announced that they were going to give clean burlesque I thought I would take one chance and now I am glad for I am sure that I will be back every week."

"The Tango Queens" is playing at the Empress all this week and from the way the seat sale is going it looks as if there were a number of people that were glad that the Empress had changed from vaudeville to the class of present shows. However, there are a number of very good vaudeville acts on the present bill and they will please all.

LARGE AUDIENCES AT MAJESTIC.

German Pictures of Great War Are Interesting.

A large audience, of which the greater portion were from the German population of the city, enjoyed the German war pictures shown at the Majestic theater last night and many seats are sold for the matinee and evening performances today. The pictures are clear and easy to watch and present many interesting scenes of which there are a few that have not appeared in magazines or newspapers. The pictures of the German emperor and members of his staff are among the first shown and are especially interesting. There are a variety of scenes of the different armies involved in the awful struggle, of cities destroyed, of battlefields and battleships, ruins of cities and ruins of buildings, the effects of shot and shell on stone and iron, the big guns in action, French hydroplanes and German artillery; in fact so much that few will carry away with them the memory of all they have seen. The pictures are explained by a man who speaks both German and English and he was frequentl yapplauded during the entertainment.

Miss Spindler presided at the piano and played the "Blue Danube" waltz and other equally entertaining selections as well as "Die Wacht am Rhein" in which nearly the entire audience joined in singing.

GRIGG WRITES LETTER.

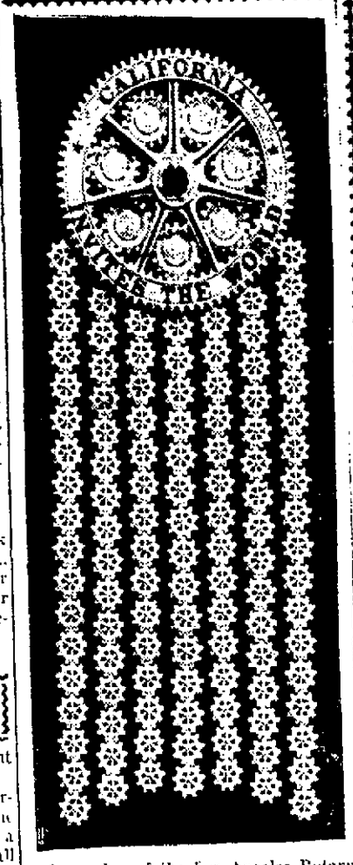
Calls Attention to New Law to Eliminate Houses of Ill Repute.

Harry H. Grigg, of Kendallville, superintendent of the Indiana branch of the World's Purity Federation, has written to members of the league in this city asking for their co-operation in the elimination of houses of ill repute if there are any in Fort Wayne. Mr. Grigg calls attention to the injunction and abatement law passed by the last legislature, which makes the owner of the property responsible rather than the keeper.

NOTICE, MOOSE!

Tuesday evening, March 16, the building committee will report on new home. Important. Be present.
JAMES E. FORD, Dictator.

Golden Wheel Said to Be Worth $10,000



A member of the Los Angeles Rotary club conceived the idea of this unique invitation to the Rotarians of the world and their friends to attend the California expositions in 1915. The Los Angeles Rotary club invited the six other clubs of California—Oakland, Sacramento, San Diego, San Francisco, San Jose and Stockton—to join them in extending the Rotary invitation, which resulted in this beautiful golden wheel with its smaller wheels for each Rotary club.

This golden wheel was designed and made at an expense of about $10,000 and presented to the International Association of Rotary clubs. The large wheel represents the International Rotary emblem, while the small wheels inside represent the Rotary clubs of California. These wheels are made of California gold. The small wheels below the large wheel represent the various Rotary clubs affiliating with the International association, though several additional clubs, including the Fort Wayne club, have been affiliated since the wheel was made. The wheel represents workmanship of a very high order by California craftsmen, and is well worth seeing. It is on exhibition in the window of Trenkley & Koerber's jewelry store.

The wheel is on a tour of the Rotary cities in the United States, Canada, Great Britain and Ireland. At the conclusion of its pilgrimage it will be displayed at the exhibition grounds at San Francisco and San Diego. The local committee in charge is composed of Robert Koerber, chairman; James Shields and H. P. Moran.

On Wednesday the wheel will be escorted by two policemen to the noon luncheon of the club at the Commercial club. Wednesday evening the wheel leaves for Warsaw, Wisconsin.

Millinery Opening

A Wonderfully Interesting Exhibit of the Best of the New Millinery Fashions for Spring Will Begin Tomorrow--"Courtesy Day"

"What will be the millinery styles for spring? is now a question of absorbing interest. It is a question to which we present a complete and highly interesting answer tomorrow in our Spring Millinery Opening. This display includes our entire millinery stock and embraces the new season's best ideas.

Tomorrow will be "Courtesy Day." Purchases will be allowed but deliveries will not be made until the day following. In times past, patrons have come to see the new models late the first day, only to find assortments incomplete because many had been purchased. By leaving every hat on display for one day, visitors can see all the new styles and gain a complete knowledge of Fashion tendencies. We believe that the fairness of this method will be heartily approved.

There are scores of different shapes, styles and trimmings represented in this exhibition; but whatever the shape, if it is small, it is intended to be worn tilted over the right eye and perched upon the head so as to leave the back hair exposed. Rough effects are here in large quantities—all of the shiny tubular straws, gelatine braids, basket-weave raffias and leghorns that are going to be most popular. Straws of high lustre used by themselves or in connection with silks, will probably prove to be the leading favorites.

In trimmings, fruit effects are popular, and many smart flower-trimmed and ribbon-trimmed hats are also shown. After all, though, it is not so much a matter of what is used as how it is used; and the artistes who have created these hats of ours have given to each a distinctive touch that assures smartness and becomingness.

A cordial invitation is extended to you to come to see these new hats tomorrow. We believe you will enjoy your visit!

WOLF & DESSAUER'S

Spring Opening This Evening and Wednesday Evening.

Arrangements are completed for the first night of the spring opening of the Wolf & Dessauer firm and their store presents a beautiful appearance which the throngs of visitors tonight are bound to appreciate. An orchestra will play and the proprietors and their assistants will be out in full force to make the store a still more attractive place to visit and to admire. The decorations are such as might suggest a young girl's party were it not for the long counters laden with cases of rich and varied materials and the shelves and ledges on each of the three floors and in the basement where goods are exhibited. The store is a mass of pink bloom not to be realized without a visit to see its loveliness. The peach tree is in full bloom in the store and only the white cyclamen, Easter lilies, dutzen and pots of fern have been used to carry out the effect of pink and white. Even the cases are lined with green paper of different tints while the handsome goods, silks, chiffons, laces, trimmings and the numerous new things have been displayed in pastel shades particularly to make a harmonizing tone. From the beautifully decorated windows with coats, suits, waists, hats, etc., to make the eyes of women water with longing, to the third floor where carpets and draperies in the newest of "up-to-dateness" sets everyone to planning for new things in her home, the store sets forth the same order of new and attractive things, quite equal to Chicago and New York in variety and choice. The opening will continue tomorrow afternoon and evening.

NEW BROTHERS' SCHOOL.

Contract for Drawing Plans Awarded to Charles R. Weatherhogg.

The contract for drawing the plans for the new Brothers' school to be erected at Clinton and Jefferson streets, has been awarded to Charles R. Weatherhogg, the architect. The building is to be two stories high, with a large gymnasium in the basement. It will be strictly fireproof and will cost between $35,000 and $40,000.

A civil service examination for food and drug inspector will be held in the federal court room on March 17 and 18.

The board of directors of the Commercial club will hold their regular monthly meeting Tuesday evening at 8 o'clock.

The regular weekly meeting of the Fort Wayne Medical society will be held Tuesday evening in the assembly room of the court house. Papers will be read by Dr. C. G. Beall, Dr. C. C. Grandy and Dr. B. Van Sweringen.

CYANIDE PUT IN WHISKY.

Enough to Kill Everybody in Town, According to Chemist.

Oxford, O., March 16.—Donald Logue, aged 20, was committed to the county jail in default of $700 bond, charged with placing two and one-half ounces of cyanide of potassium in a quart of whisky for the purpose of catching a thief. Logue recently bought out a pool-room patronized by negroes, and opened a "speak-easy." In a raid on the place the police found thirteen quarts of whisky hidden under the floor. He was fined $100 and costs.

One of the bottles seemed to contain a foreign substance, and when questioned Logue told of "doctoring" the stuff. Dr. W. H. Whitcomb, professor of chemistry in Miami university, analyzed the liquor and reported that it contained enough cyanide of potassium to kill everybody in town.

DR. HILL TO SPEAK THREE TIMES SUNDAY

Three addresses under the auspices of the International Peace Forum will be delivered in this city Sunday by John Wesley Hill, of New York city. On Monday evening at 8 o'clock at the Majestic theater he will be the principal speaker at a meeting to be held under the auspices of the Lincoln League, a republican organization. His subject Monday evening will be "Progress and Prosperity."

Dr. Hill is the president of the International Peace Forum and his addresses Sunday will be strictly appropriate to the day and will not be political in any sense.

He will speak Sunday morning at the First M. E. church, Sunday afternoon at the Wayne Street M. E. church and Sunday night at the First Presbyterian church.

ADDRESSES REALTY MEN.

Guy Colerick Speaker at Meeting of Fort Wayne Real Estate Exchange.

Guy Colerick, city attorney, was the speaker Tuesday at the weekly noon day luncheon of the Fort Wayne Real Estate exchange at the Commercial club. He spoke on "The New Legislation," which was one of the series of addresses now being delivered before the exchange by professional and business men of the city.

Attorney Colerick spoke at length upon the new park law, and also explained the new drainage law as passed by the last legislature.

B. M. Hutchins, district manager of the Massachusetts Bonding and Insurance company, has gone to the general offices of the company at Saginaw, Mich., to attend a convention.

Your Grandmother's Remedy for Purifying the Blood

And Renovating the System in the Springtime

Ask for Sulpherb Tablets.

What was grandmother's unexcelled remedy? Haven't you heard of it? Yes, you have! It was sulphur, cream of tartar and molasses. The main trouble with it was it was its nauseous taste.

The modern method puts the cream of tartar and sulphur into a sugar-coated tablet and mixes them with herbs, roots, etc., making a wonderful tonic blood purifier and system cleanser.

Just try Sulpherb Tablets (not sulphur tablets), but Sulpherb—remember the name—and get the tablets in sealed tubes at 50c per tube.

Grown-up people and children who don't feel well, who are constipated or sluggish, or who have pimples, boils, carbuncles, ulcers and the like, can soon rid the system of these impurities by taking this good old-fashioned remedy in modern form. Their action satisfies or money is refunded by the Prescription Products Company, Dayton, Ohio. A free trial sent to any address. Buy of any well stocked druggist.

DINNER TO HURTY WAS NOTABLE ONE

Brilliant Gathering Honors Indiana State Health Secretary.

Indianapolis, Ind., March 16.—The testimonial dinner given Dr. John N. Hurty, commissioner of public health, at the Claypool hotel Saturday night in honor of Dr. Hurty's twentieth year of consecutive service as the head of Indiana's health bureau, was one of the most distinguished events ever held in the city of Indianapolis. The governor of Indiana acted as toastmaster at the banquet, the vice president of the United States made the presentation speech in which Dr. Hurty was given a costly Huxley vase, and United States Senator John W. Kern paid the health commissioner a tribute of a kind received but rarely. Among the other distinguished guests present and who made talks were Dr. Victor C. Vaughn, Ann Arbor, Mich., president of the American Medical association; Dr. William A. Evans, Chicago, former health commissioner of that city; Dr. W. E. Stone president Purdue university, Lafayette; Dr. William Lowe Bryan, president Indiana university, Bloomington; Dr. Alexander B. Craig, secretary American Medical association, Chicago; Miss Vida Newsom, Columbus, Ind., president of Indiana Federation of Women's Clubs; Dr. George T. McCoy, Columbus, former president Indiana state board of health.

The dinner was held in the largest banquet hall of the hotel, more than 400 guests, men and women, from all parts of the state and nation, constituting a brilliant gathering. The one theme of all the speakers seemed to be that Dr. Hurty had placed "Indiana on the map" in a health way and Governor Ralston, in a burst of frank enthusiasm, declared that if he should be governor of Indiana for twenty years that Dr. Hurty would continue as health commissioner of the state, should the doctor desire it. Vice-President Marshall said that no servant of the state had made a more profound impression on him when he was governor than Dr. Hurty because of the intensity of Dr. Hurty's desire to give to the people of the state better health protection." Hurty has made Indiana known at the capital of the nation in a health way," said the vice president. "They will tell you at Washington that Hurty is the chief sanitarian of the United States." Senator Kern said that he gave to Dr. Hurty what men do not give to most men, a full measure of personal affection based upon the character and worth of the man who was at the head of Indiana's health work.

A letter was read from Dr. Harvey W. Wiley, Washington, D. C., former United States chemist, in which Dr. Wiley said: "I congratulate Indiana on having had the good judgment to keep Hurty at his post."

When Dr. Hurty rose to speak after the presentation, the guests sprang to their feet and gave him an ovation. Dr. Hurty spoke briefly. He said he had never desired to make money, but that he did have an ambition to remain at his post until the time should come when he could no longer render efficient service. Almost overcome he thanked the governor and other speakers for their kind expressions. Mrs. Hurty sat by his side and seemed to enjoy the occasion more than her husband, Dr. Hurty being a little embarrassed at times by wealth of warm praise showered on him.

Mr. and Mrs. Robert Sparks, Miss Ruth Sparks and her guest, Miss Esther Archbold, of Tocsin, motored to Markle Sunday and were guests of Mr. and Mrs. Vol Giger.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heal the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in guaiacol, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

LOOK AT CHILD'S TONGUE IF SICK CROSS, FEVERISH

When constipated or bilious give "California Syrup of Figs."

Look at the tongue, mother! If coated, it is a sure sign that your little one's stomach, liver and bowels need a gentle, thorough cleansing at once.

When peevish, cross, listless, pale, doesn't sleep, doesn't eat or act naturally, or is feverish, stomach sour, breath bad, has stomach-ache, sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

You needn't coax sick children to take this harmless "fruit laxative;" they love its delicious taste, and it always makes them feel splendid.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeits sold here. To be sure you get the genuine ask to see that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.—Adv.

HAYS CALLS COMMITTEE.

Republican Managers to Meet at Indianapolis on Friday.

Indianapolis, March 16.—Will H. Hays, chairman of the republican state committee, has issued a call for a meeting of the committee in this city Friday, March 19. Party organization will be discussed and the members will be entertained at a luncheon at the Columbia club along with republican county chairmen of the state.

It is understood that a committee will probably be named at the meeting to take up the work outlined for the state committee by the new primary election law. The Jones law provides that all state committees coming under the provisions of the act shall meet within six months after the going into effect of the law, to revise their party organizations' rules to comply with the provisions of the new law.

Another matter to be considered at the meeting, it is said, will be the naming of a successor to Perry Smith, former chairman of the Thirteenth district who died recently at his home in Warsaw.

Spencerville, Ind., March 16.—The Ladies' Guild of the M. E. church will be entertained on Thursday, March 25, 1915, at the home of Mrs. Raymond Bowser by Mrs. Bowser, Mrs. Rebecca Kerst and Mrs. Moody. The home will be opened all day.

The Girls' "Pansy" club was entertained Saturday afternoon by Miss Helena Fairfield at the home of her grandmother, Mrs. Lucy Fairfield. Several new members were added.

Mr. and Mrs. Curtis Watt, of Concord, were Monday guests of Mr. and Mrs. W. F. Rhoades, north of town.

Mrs. Jane Butler and Mr. and Mrs. Frank Bradon, of Auburn, were Sunday visitors at the Boots home, west of town.

Mrs. Jessie Summers is able to walk around some at this writing and will shortly visit her parents, Mr. and Mrs. Jacob Baltz, a few weeks before returning to her home at Coburntown.

Mr. and Mrs. Florence Buchanan, of St. Joe, were Sunday guests of their daughter, Mrs. W. F. Rhoades and family.

Mrs. Frank Baltz, of Auburn, was a Sunday guest at the home of Mr. and Mrs. Jacob Baltz.

Frank McKinley, wife and daughter, Florence, of Hicksville, were Sunday guests of Charles Scott and family.

John Ruppert visited his sister, Mrs. Ida Yearks, of McGoffee, Ohio, last week.

Clem Trease, of Fort Wayne, sold his property on River street last week to real estate dealers in Fort Wayne.

Jack Henderson and wife will entertain Rev. McClinstock, Rev. Furgerson and Mrs. Robinson this week.

Quite an excitement was caused Sunday by Eli Fales' house catching fire by sparks falling on the roof. In a short time enough help was there to put it out.

Mr. and Mrs. Delos White, of Garrett, were over Sunday guests at the homes of Samuel Steward and Reason Chauncy.

Mrs. Rolla Moffit and daughter, Pauline, of Auburn, were Friday guests of Jacob Baltz and wife.

Mrs. Summers, who has been sick at the home of her son, William, at Coburntown, is improving.

THE SENTINEL'S LIVE SPORTS CRISP RELIABLE

GAMBLING IS NOT ALLOWED BY RICKEY

St. Louis Manager Says Poker Must Be Eliminated.

Houston, Tex., March 16.—Following the arrival of the main squad of Brownies from St. Louis, Manager Rickey issued instructions of conduct for his men to follow.

"I may have earned a reputation of being easy with my athletes last season" Rickey said, "but they will find me a different man this year. I have always gone on the theory that I treated men fairly, because they treated me fairly. But I learned that some of my men were taking advantage of me. The earlier they learn that I do not intend to tolerate any loose methods of training or conduct the better it will be for them, and for my team, too.

"I am going to offer no new rules. The players will not be permitted to gamble. That's an old rule, but wasn't enforced last season. By gambling I mean that the men must not wager for any sums that they cannot afford.

"No gambling will be permitted in the hotels. The players may promise to break up their games at 11 o'clock, but they seldom do that. So the ban is on gambling in the hotels, no matter what the promise is for calling the contest earlier, or of limited stakes.

"A little session on the train, under my observation, will be permitted. I can then see that the players cease card playing and retire at a reasonable hour. I do not favor gambling, however.

"Only this morning, when I asked two of my men to room together this season, I learned that there was an objection because of ill feeling that had arisen six months ago over a gambling debt. It is just such little aftermaths as this that injure the ball club. And I don't intend to tolerate it.

"My so-called stars will not be exempt from this or any other club rule. I have always treated my men according to their different temperaments and dispositions, but I have found that some have not been fair with me. They will find in me a different man this season."

It seems that Rickey is not at all pleased with the behavior of some of his players. It all happened more than six months ago, but Rick hasn't forgotten about it. He says he'll have discipline even at the expense of firing an athlete or two, whose salaries are in the neighborhood of $7,000 each. He mentioned no names.

Hamilton reported that his physical condition is good. He also said that he believed his arm would show no ill effects of the auto accident last October when he crashed into a railing on the Eads bridge. He said he believed the wing would be O. K. following several tests he made at his home in Oswego, Kan., in throwing a baseball.

Leverenz, the other left-hander, who had a dismal season in 1914, has been taking things easy all winter in California. He says he took baths in Paso Robles, Cal., and believes the water did him much good. He did a bit of tossing on the coast and felt ni kinks in his salary wing, he says. Levy, incidentally, was paid $4,200 for winning one game last season. He sold his auto and bought a ranch.

Clarence Walker, the Brown's leading hitter last season, was stricken with typhoid after the close of last season. The attack was not severe, and he pulled up here weighing far more than when he quit the 1914 season.

NEW SEMI-PRO TEAM.

Fast Independent Team Being Organized by Two Former Central Stars.

Charles and Cy Alberts, two former Central league ball players, are busily engaged organizing a semi-pro baseball team. Several good players already have been secured, among them being Hoffer, Bob Smith, DeGroth, Peckham, King, Voltz, Druhot, Dietrich, Benoy, Railing, Cy and Charles Alberts.

MANY OLD PLAYERS ARE GIVEN RELEASE

New Manager Expects to Completely Overhaul Fort Wayne Team.

W. C. Klitzke, who heads the new company that has taken over the Fort Wayne Central league club from C. H. Varnell, is contemplating many changes in the team. As a matter of fact the overhauling has already commenced, under the direction of Manager Bade Meyers.

Infielder Mark McLafferty, the veteran member of the local team, has been sold to Terre Haute and Marry Martin, manager last year, has been given the privilege of securing another club to purchase his release. It is said that five members of last year's team are to be disposed of within the next few days. Fort Wayne will have almost an entirely new lineup.

While Martin, last year's manager, is a splendid catcher and will have no trouble in landing a good job with some class B club, it was thought best to let him go in view of the fact that he is to no longer act as manager.

Members of the Fort Wayne team will report for practice on April 5. Manager Meyers left Monday on a scouting trip and expects to land several good players before he returns.

WESTERN AUTOISTS COMING.

Party from Colorado Expects to Spend Night in Fort Wayne.

Charles L. Biederwolf, secretary of the Commercial club, is in receipt of a letter saying that a number of automobiles filled with representatives of an alliance of Colorado commercial clubs would start east on April 8. The trip, which is being made for the purpose of advertising the fact that there are splendid roadways over the Rocky mountains to the Pacific coast, will be made from Denver to Columbus, O. On the return the party will pass through Fort Wayne, spending the night here.

GOVERNOR JUGGLES WITH RACING UNTIL ARKANSAS IS DIZZY.

Hot Springs, Ark., March 16.—They have Governor Hays, of this state, in a hole up to his neck with regards to the state fair bill which has to do with racing in this city and elsewhere in the state.

The governor's action with the bill was very similar to the famous "off again, on again, gone again" stunt of Mr. Finnegans.

First he signed the bill and then he crossed his name off, signed it again, and then crossed it off once more, thereby starting several small squabbles that bordered on riots.

By this action every business man in the town feels that he has been hit square in the vitals; viz., the pocketbook. Had the governor let the bill go through, as was his first impulse his action would have put a flourishing finish financially on what has been the worst and dullest season of the springs.

Too many grasping men wanted to be appointed as commissioners and that is supposed to be one reason that the governor "scratched."

The oratory in his office became too warm for his honor and he folded up the bill, put it in his pocket and took it home with him where in the quiet of his library he penned a few words, which the wise birds say was his political funeral and the death of racing in this state.

So confident was the feeling that the bill would go through without a hitch, that several of the horsemen had sent their stables here to get them acclimated.

The attorney general states that the bill already is a law in as much as the allotted five days' time had elapsed before the governor took action, but he has advised the secretary of state not to publish it in the journal of the general assembly until further notice.

If it is a law then there is another funny situation on hand. There can be no racing without a permit from the three commissioners which the bill calls for. The governor has to appoint three men and he hasn't and probably won't. If, however, sufficient pressure is brought to bear upon him he may see fit to appoint three ministers of the gospel, who would probably permit racing for one day only in order to comply with the law.

Business in the town is at a standstill since the unfavorable reports sifted in here from Little Rock.

One well known lawyer, with crepe on his sleeve, passed a group of men and was asked:

"Where are you going, Bill?"

"To the governor's funeral," was the reply.

REAL ESTATE MEN INVITE SPEAKERS

Members of the Fort Wayne Real Estate exchange are planning for a number of interesting meetings during the next few weeks. An invitation has been extended by President Lee J. Ninde to the members of the Elkhart exchange to be the guests of the local exchange at some future date most convenient to them. An invitation has been extended to Judson Bradway, of Detroit, to come to Fort Wayne and address the exchange at one of its weekly noon day meetings. Mr. Bradway is the winner of the cup for the best five minute talk on "his home town" contest at the national convention last summer at Pittsburg. An invitation also has been extended to Harry Kissell, of Springfield, O., the winner of the same cup two years ago.

Bed-Wetting Cured in Ten Days

URI-STOP WILL CURE

Don't Wait for Children to Outgrow the Trouble—Start Them Taking Uri-Stop Today.

Bed-wetting with all its disagreeable effects, can be cured if given prompt attention. This is a disease and every parent should assist their children to effect a cure by procuring for them Uri-Stop. The wonderful success realized by this remedy seems little short of marvelous, but the many cures in Fort Wayne proved its merits.

Incontinence of the urine is not a local trouble alone, but is a disease embracing the entire urinary system as well as the bladder and kidneys. Uri-Stop is put up in tablet form, pure and harmless. Easily taken by the most delicate child. Price $1.00.

The Boettger Chem. Co., Peoria, Ill., are so confident of the curative value of this preparation that they have authorized the Dreier Drug Co. to refund your money if you are not satisfied after a careful trial. 2-9-tues-3-31

SCHEDULE AWAITS COURT'S DECISION

Chicago, March 16.—Drafts of schedules for the coming season, to be submitted for adoption at a meeting tomorrow, were under consideration by club owners of the Fderela league here today.

The schedules will be presented for adoption immediately after the decision tomorrow by Judge Baldwin, of the circuit court, on the plea of the Kansas City Federal league club for a permanent injunction to restrain the league from transferring its franchise to Newark, N. J. Judge Baldwin took the case under advisement yesterday, promising to give his decision tomorrow. Club owners representing every city in the circuit were in conference last night on the schedule proposition but declined to say whether the playing chart under consideration eliminated Kansas City from the league. James A. Gilmore, president of the league, appeared to be certain, however, that the league would have a club in Newark this season. Pressed for an explanation, Gilmore said he felt confident that everything would be adjusted satisfactorily.

"I can tell more about it," he said, "as soon as the court hands down its decision. This baseball business is a funny thing. Last year at this time we had only six clubs in our league. Now we've got nine."

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Wasn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

MABEL NORMAND, MOVIE STAR, "SIMPLY DOTES" ON BOXERS.

Mabel Normand a nd Frankie Dolan.

(Special Correspondence).

Los Angeles, Cal., March 16.—Mabel Normand, vivacious comedienne with the Keystone moving picture company, is an ardent boxing fan, one of the many women of the west who take a deep interest in the events of fistiana and its heroes.

A sportswoman through and through, this plucky film star admits she'd rather witness a cleancut sparring exhibition than hear Caruso sing, for instance.

"Of course, I can't see many bouts," Mabel explained, "but recently we had one of the cleverest boxers in our studio here in the person of Frankie Dolan. I just doted on him while he was in training. And I certainly felt disappointed when Frankie left the company's employ."

Dolan participated in many four-round amateur bouts here and in San Francisco. When Carlie Chaplin left the Keystone service he took Dolan with him.

In addition to her interest in boxing and boxers, Miss Normand is an experienced horsewoman, loves automobile racing and owns three cars.

TAKE SALTS TO FLUSH KIDNEYS

Eat less meat if you feel Backachy or have Bladder trouble.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occasionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get up two or three times during the night.

To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive; harmless and makes a delightful effervescent lithia-water drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases.—Adv.

MARSHALL TALKS AS WIFE SEES MODISTE

Thinks Foreign Relations Safe and Opposes War With Mexico.

Chicago, March 16.—Vice President Thomas R. Marshall, who is in Chicago on his way to San Francisco, where he will represent President Wilson at the formal dedication of the Panama-Pacific international exposition March 20, yesterday voiced his views concerning the problems that the administration is facing.

He came unannounced. Mrs. Marshall was busy with her modiste and the vice president retired to the lobby of the Hotel LaSalle, where they are stopping, to receive reporters.

In discussing the questions that are causing worry the vice president wanted it understood that he gave his own views and that he wasn't speaking for the administration.

Against War With Mexico.

"Vera Cruz, with its snipers, taught us only in a small way what armed intervention in Mexico would mean," he said. "It would mean wholesale bloodshed. It would be years after we captured the cities before we could subdue the country. What would we do with the bloodthirsty Yaqui Indians? We might never subdue them.

"While we were intervening how would the republics to the south of us look upon it?

"Even after we conquered Mexico wouldn't we have another Philippine islands on our hands—something we would want to let loose of and couldn't find a way out?

Of Foreign Relations.

"Ever since the war in Europe broke out we have been sitting on a powder barrel as regards our foreign relations. We hardly get one mixup straightened out until we are in another, but everybody down at Washington is extremely hopeful. The nation can thank itself it has a Woodrow Wilson sitting in the presidential chair at this time.

"Those jingoists who are talking war ought to be made to take a physical examination and enlist in the army as a test of their valor before they are permitted to spread broadcast their doleful predictions.

"I'm glad that congress adjourned. There isn't any doubt in my mind that while it was in session business stood still. Business had a right to pause in the face of the full dose of legislation given it, not to speak of the serious situation arising out of the European war.

Way Clear Now.

"There is no reason now, however, why it shouldn't proceed. This talk about 'wait until the courts determine what the new statutes mean' is all bosh. Both as a lawyer and politician I say that no business man needs a lawyer to tell him what is right and what is wrong.

"I realize that there are many freak statutes on the books whose meaning might be misconstrued, but no business man need fear the enforcement of any legislation affecting business unless there is some radical wrong, not upon the part of one man, but upon the part of many, and a public demand based on moral right asking for its enforcement. All business men have to do is to obey the dictates of their consciences and they need fear no trouble."

OPPOSE RUM RATION TO BRITISH TROOPS

English War Office Gets Severe Criticism from the Press.

London, March 5.—Correspondence of the Associated Press.—Opposition to the action of the war office in supplying rations of rum to the British troops at the front is manifest in many sections of the British press. Although the war office in defense of its action stated that the allowance of rum was regarded by the military authorities as a medicinal supply rather than a part of the food ration, a large part of the demand for the abolition of the alcoholic ration comes from the medical profession.

A round dozen physicians, all of them leaders in their profession, were signers of a recent appeal to the government to follow the lead of Russia in abolishing absolutely the sale of spirituous liquors in Great Britain for the duration of the war.

Speaking in behalf of the army medical corps, Captain Sir Victor Horsley, a well known medical and scientific leader, contributes an article to the current issue of the British Medical Journal, remonstrating against the issue of rum to the soldiers as an alleged protection against cold and damp. He says:

"All medical scientists now know that although alcohol produces a temporary flush on the surface of the skin, this is due to a rush of blood to fill the arteries slackened by alcohol, and that the excess of blood thus driven to the surface loses its heat and on returning to the interior chilled by such exposure, inevitably lowers the bodily temperature.

"Although army regulations say the rum is only issued by order of the commanding officer on recommendation of the medical officer, the spirit is no part of the medical stores, but is in the commisariat with the food supplies and in many battalions has been issued daily in and out of the trenches to every man who would accept it.

"The spirit drinking habit in the British army was first contracted during the duke of Marlborough's campaign in Flanders two hundred years ago. It is a national misfortune that this story of two hundred years ago is being repeated, for our army is again as then, being taught to become victims to the spirit-drinking habit.

"In the American civl war, when McClellan's great army on the banks of the Potomac endured several weeks of severe hardship in trenches, it was determined to issue spirit rations, but after one month the rations were withdrawn because the men were the worse for it, the medical officers reporting specifically that the ration was injurious, that it had increased the ailments of the men, and was 'nothing but an unmitigated evil.'

"In the present war, the authorities have contracted for the supply of over 500,000 gallons of rum, of which more than half has already been sent to France. The war office has gone from bad to worse by a new concession of rum to raw recruits in training at home.

"I stake by professional reputation on my declaration that rum causes loss of resistance to cold, and is a cause of chilliness, misery and frostbite. It also causes loss of resistance to such diseases as pneumonia, dysentery and typhoid."

IN FIVE MINUTES NO SICK STOMACH, INDIGESTION, GAS

"Pape's Diapepsin" is the quickest and surest Stomach Relief.

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth, and stomach headache, you can surely get relief in five minutes.

Ask your pharmacist to show you the formula, plainly printed on these fifty-cent cases of Pape's Diapepsin, then you will understand why dyspeptic troubles of all kinds must go, and why it relieves sour, out-of-order stomachs or indigestion in five minutes. "Pape's Diapepsin" is harmless; tastes like candy, though each dose will digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxitives or liver pills for biliousness or constipation.

This city will have many "Pape's Diapepsin" cranks, as some people will call them, but you will be enthusiastic about this splendid stomach preparation, too, if you ever take it for indigestion, gases, heartburn, sourness, dyspepsia, or any stomach misery.

Get some now, this minute, and rid yourself of stomach misery and indigestion in five minutes.

MARINE INSURANCE HIGHER.

Loss of Steamer Indian Prince Has Nearly Doubled Rates.

New York, March 16.—Marine insurance rates to French and British ports within the field of operations of the German submarines have advanced today to almost double those prevailing last week. This was attributed mainly to the loss of the steamer Indian Prince, with her $750,000 cargo of cotton which, it was said, swept away the profits of the war risk insurance on all cotton shipments to England and France since the war began.

The communes damaged by the earthquake numbered 372.

CORPORATIONS MAY FILE EXEMPTIONS

County Assessor Gets Ruling by Attorney General on Mortgage Debts.

Attorney General Richard M. Milburn of Indiana has ruled that corporations in this state may file mortgage exemptions and claim the benefit in taxations, according to notice received by County Assessor William Eggeman. Some other interpretations of the tax laws relating to assessors and assessments are given in the attorney general's letter and these are some of them:

"The affidavit required by section 2, of the law, may be sworn to before any person authorized to administer oaths and must be filed with the county auditor. A new affidavit must be filed each year the exemption is claimed.

"The affidavit must be filed between the first day of March and the 30th day of April. Affidavits cannot be legally filed after that date.

"The auditor is not required to furnish blanks, but he, or his deputies, may swear persons to affidavits and charge therefor 25 cents. This fee belongs to the county and not to the auditor.

"Under no circumstances can one person legally secure more than $700 deduction under the law, no matter how many mortgages he may have given. Neither can he deduct his mortgage indebtedness from the assessed value of his real estate and then use that portion of his mortgage indebtedness so deducted as a deduction from his personal credits.

"Partnerships are entitled to exemptions the same as natural persons, likewise corporations, where such mortgage has not already been taken into consideration in making their assessment.

"Under no consideration can a deduction from real estate exceed one-half the assessed value as shown by the tax duplicate for the year in which the deduction is prayed.

"The word 'mortgage' includes mortgages held by non-residents of this state as well as school fund mortgages held by building and loan associations. It does not include a bond for a deed, nor a vendor's lien, a ditch assessment, an indemnity mortgage or any kind of a lien except one securing a bona fide existing indebtedness.

"It is the duty of the county board of review to pass upon the validity of each claim for deduction and reject or allow the same in the proper amount and make a record of the rejection or allowance showing the sum allowed for deduction."

Government Indian Land Schooling Car Is Here

Sent out from McAlester, Okla., to interest the public in the manner of securing the rich Choctaw land which will soon be offered by the department of the interior, a handsome Pullman car arrived here today. The car is located on the Calhoun street crossing of the Nickel Plate railroad and will be open to the public from 9 a. m. to 9 p. m. daily and Sundays. According to R. J. Jeffcott, manager of the car, it will remain in Fort Wayne several days to give the people of this city the opportunity of learning about the segregated lands.

These lands are in the extreme southeastern corner of the old Indian territory, which is now a part of Oklahoma, having been joined to Oklahoma territory in 1907 at which time Oklahoma entered into statehood.

According to the report of John White, the United States demonstration agent at McAlester, fully 50 per cent of the lands in Pittsburgh county, of which McAlester is the county seat, is first-class agricultural land; the balance is well fitted for ranching or fruit growing.

Oil Possibilities Bright.

The segregated lands are all within the proven oil belt of the state and Oklahoma is the leading oil state in the union, so the opportunity for the settler or investor is most unusual, as he may not only be buying himself a good farm for a few dollars per acre, but the oil that may be discovered on his land may make him independently wealthy. Owing to the fact that this land was not available for drilling, the field has long remained undeveloped, but recently active development work was commenced and the records of Pittsburgh county show that, at least, 60 per cent of the land in the county is covered by oil and gas leases or is owned outright by oil and gas men.

The rules governing the auction sale promulgated by the department of the interior provide that no one person is entitled to more than 160 acres of agricultural land; hence, the necessity of advertising the sale in the older states.

Admission to the car and all information is free and the public is cordially invited to inspect the exhibit of farm products and photographs of the land and the thriving city of McAlester.

It is not necessary to live on or to improve this land, as the Homestead Act does not apply.—Adv

SHOP AND RAIL ROAD NEWS

NEW INDUSTRY HAS BEEN ESTABLISHED

Auto Food Company Installs Plant for Making Potato Chips.

A business which its promoters expect to expand until it has taken a prominent place among the industries of Fort Wayne is the Auto Food company, which has leased the second story of the building at 610 Clinton street and equipped it for the manufacture of the Auto brand potato chips, which are put up in neat paper boxes and retailed at 10 cents a package. "Always ready to eat" is the legend on each box and potato chips were never placed on the market in a more attractive manner. H. C. Schlie and F. B. Ladd are the chief movers in the Auto Food company.

Y. M. C. A. AUXILIARY.

Women Join the Men in the Interest of the Association.

Nineteen women signed the membership roll of a Ladies' Auxiliary to the Railroad Y. M. C. A., which was organized at the association rooms Monday afternoon. The greater portion of the charter members were present at the meeting and the interest displayed presages the success of the movement. The charter members are Mrs. O. M. Rhodes, Mrs. A. W. Willeman, Mrs. C. B. Watterman, Miss Flora E. Wehrle, Mrs. A. M. Brown, Mrs. George Tibbetts, Mrs. G. W. Barbier, Miss Eldora Evans, Mrs. Ray Woodhall, Mrs. Bert Mains, Mrs. S. N. Longsworth, Miss Elizabeth Beattie, Miss Margaret Beattie, Mrs. V. C. Miller, Mrs. E. N. Osborne, Mrs. Lucile Tegtmeyer, Mrs. R. B. Evans, Mrs. William Madara and Mrs. A. J. Cash.

The officers elected yesterday are Mrs. O. M. Rhodes, president; Mrs. A. M. Willeman, first vice president; Mrs. C. B. Watterson, second vice president; Miss Flora E. Wehrle, secretary; Mrs. A. M. Brown, treasurer; Mrs. George Tibbets, chairman of membership committee; Mrs. G. W. Barbier, chairman devotional committee; Miss Eldora Evans, chairman social and reception committee.

The charter will be held open awhile to admit those who wish to get in as charter members. Meetings will be held the first Monday of each month.

HIS MICA WAS CELLULOID.

Nickel Plate engineers and firemen are enjoying a story concerning a well known engineer, which leaked out yesterday after it had been in the background several months. As the story goes Emory had to get some new curtains for his automobile and some new mica pieces for his base burner, and being of a resourceful turn, he conceived the idea of making the lights in the curtains serve in the base burner. He soon had the damaged pieces in the stove replaced by pieces of the curtain lights, but, alas, when he built a fire in the stove, the new "mica" went out with a flash and smoke poured out and filled the room. Then he discovered the curtain lights were celluloid. "Yes, it's a fact," said Emory, when Caller Henry Uenhake asked concerning the story, "but how in the Sam Hill did you learn of it?"

LIGHT DEMAND FOR LUMBER.

Inquiries concerning prices and the number of orders being placed for building material at present are below normal and lead the lumber dealers and operators of the planing mills to the belief that there will not be as much business for them the coming spring as there was last year. "Our shop is fairly busy at present," said a planing mills and lumber yard man, "but the orders coming in are small and chiefly for material to be used in repair work. New work may develop later, but there is little to indicate a building boom such as Fort Wayne experienced the preceding two or three springs." The light demand for lumber, however, has not materially reduced the price.

INJURED TURK IDENTIFIED.

The Turk who was injured by a train at Lima, Ohio, about a week ago, is recovering and will leave the Lima hospital this week. The railroad company yesterday took another Turk to the bedside of the injured man and by this medium obtained the correct name of the fellow and his story about the accident. His name is Yanie Pinagot and he says he was going down the track to look for a fellow countryman when he stepped aside to allow a train to pass and was struck by another train. He was not on a train, nor was he trying to get on one.

BOOMING THE CO-OPERATIVE STORE.

At a meeting of the ward workers for the Co-operative store project at the office of C. M. Preble last night, it was announced that meetings for the residents would be held in the various wards from time to time to give opportunity to subscribe for stock. A mass meeting will be held at the James H. Smart school, in the Tenth ward, tonight, and meetings for the Ninth ward people will be held at 1820 Richardson avenue; 1629 St. Mary's avenue, and on Sherman street, near the corner of Putnam.

BIG BUSINESS ON ROAD.

The Nickel Plate had a rush of freight over the line last Saturday and Sunday that was heavier than expected. As a consequence two emergency crews were sent out of Fort Wayne and one out of Bellevue. Much of this extra business was for export.

NICKEL PLATE MAN IN HOSPITAL.

F. W. McManus, a Nickel Plate car inspector at Conneaut, Ohio, was operated upon in the St. Joseph hospital Sunday by Dr. J. Frank Dinnen for appendicitis. The sick man was discovered in an unconscious condition in one of the parks of the city and taken to the hospital, where an examination revealed the fact that he was suffering from appendicitis. He is doing well and will be able to go home in two or three weeks.

TAKING BACK SOME OF THE FURLOUGHED.

There has been a slight improvement in the demand for products at some of the departments of the Fort Wayne Electric works and some of the girls who had been on furlough have been recalled. Yesterday eight were taken back in the small motor department. The Electric Works' employes have been more fortunate than the employes of some other industries, inasmuch as the works have managed to keep the working force of the plant very near the normal mark during the dull times of the past year.

ELKS' ROUTE TO CALIFORNIA.

The transportation committee for the Indiana Elks announce the following route to Los Angeles, the convention city: Pennsylvania from Fort Wayne to Chicago; Rock Island to Colorado Springs; Denver and Rio Grande to Salt Lake City; Salt Lake route to Los Angeles. A special train will leave Chicago the night of July 7 for Los Angeles. The convention will be held in July.

WILL MOVE TO EAST END.

John H. Kappel, the West Main street druggist, is fitting up a store room at the corner of Lumbard street and New Haven avenue and will move his stock of drugs and store fixtures there the latter part of April. Druggist Kappel has been located at the corner of West Main and Mechanic streets for sixteen years.

STRUCK WITH A SLEDGE.

A glancing blow sent a big sledge against the stomach of George Hoopingarner, a carpenter at the Wabash shops, this morning and painfully injured him, though he pluckily remained on duty after Dr. C. F. Knadt had examined him and applied some remedies. The hammer landed just below the breast bone and no bones were broken.

MOVING TO TEXAS.

Among the passengers on Wabash train No. 9 this morning were Mr. and Mrs. Joshua Stapleton, of St. Joseph township, who are on route to Crystal City, Texas, near which place they own some land on which they will settle and reside in the future. It is understood that these people have disposed of their ownings in St. Joseph township and that they will be followed soon by other people from this county.

STATIONMASTER HAYS SICK.

W. H. Hays, night stationmaster for the Pennsylvania, is quite sick at his home. He was taken ill last Friday and has gradually grown worse until he is now confined to his bed. Mr. Hays is not seriously sick, however, the attending physician says.

TWO SHOPMEN INJURED.

Two Pennsylvania shopmen were injured this morning and were attended by the company's surgeon. H. Klanke, a boilermaker, had one of his hands cut and bruised. Machinist M. O. Shookman had the little finger of one of his hands crushed.

INDUSTRIAL NOTES.

John Rost, of the Pennsylvania blacksmith shop, is sick and off duty.

Machinist William Lerch, of the Pennsylvania shops, is sick and off duty.

Nickel Plate Conductor B. H. Hire is quite sick at his home, 707 Runion avenue.

Nickel Plate Fireman C. A. Blust is taking a lay-off to look after private business.

Brakeman W. G. Robinson is off duty from the Nickel Plate on account of sickness.

Nickel Plate Engineer John W. Wells is taking a lay-off to look after some private matters.

Joseph Slater, foreman of the Bass blacksmith shop, made a business trip to Muncie yesterday.

Machinist George W. Schlichte, who was sick a few days, is at work again in the Pennsylvania shops.

Conductor A. W. Seeley resumed work on the Nickel Plate yesterday, after a few days' lay-off for rest.

Pennsylvania Engineer Lucas Ormiston, who was sick two weeks, has reported for work on the road.

W. J. Welch, general foreman of the Wabash shops, is in Indianapolis today on business for the company.

Cal Durfee is taking a few days' rest and W. O. Granger is sick and off duty. They are Nickel Plate engineers.

Machinist W. C. Doehrman, of the Pennsylvania, is planning for a visit with relatives at Peoria, Ill., next week.

A. F. Needham, general foreman of the Toledo shops of the Wabash, was here today on business for the company.

Master Mechanic E. E. Griest, of the Pennsylvania, was looking after some business in Chicago for the company today.

Commercial Agent E. O. Wagner, of the G. R. & I., has returned from Grand Rapids, where business called him a few days ago.

Milo Slagle, the Pennsylvania fireman who was injured a week ago, is still unable to work, though his injuries are not serious.

Mrs. Calkins, wife of Assistant Yardmaster J. O. Calkins, of the Wabash, is quite sick at the family home, 901 Walnut street.

E. A. Worman, the Nickel Plate fireman, who was hurt three weeks ago at Nickels, Ind., has recovered and is at work again.

Nickel Plate Conductor W. H. Walker has taken a leave of absence and gone to his home in Chicago for a few days' rest.

Night Yardmaster John Miller and Switchman H. P. Sessler, of the Wabash, who are taking a month's leave of absence to tour the west, writes from Los Angeles that they are having a good time.

H. W. Weisheit, who had his eyes injured two or three weeks ago, was able to report at the Pennsylvania erecting shop for work this morning.

Brakeman A. G. Rogers, who had an ankle sprained ten days ago, is recovering and expects to resume work on the Nickel Plate in a day or two.

P. C. Harrod, second trick operator at the Grand Rapids and Indiana offices, was taken ill last night and may not be able to report for work for a day or two.

Brakeman Frank Brown, who has been in the St. Joseph hospital several days, is doing first-rate and will soon be able to resume work on the Nickel Plate.

A. L. Hadley, at the head of the engineering department of the Fort Wayne Electric works, was in Logansport yesterday looking after some business for the company.

Machinist M. J. Crowe, of the Pennsylvania erecting shop, was summoned to his old home in Pennsylvania yesterday by a message stating that his aged father was seriously ill.

George Pederson is a new switchman at the Nickel Plate yards. Mr. Pederson was formerly employed at Kankakee, Ill., in the yards of the Chicago, Indiana and Southern road.

Walter Fagg, night clerk at the Nickel Plate yards, is on duty again after a brief absence, during which he was married to Miss Gladys Arnold, mentioned by the Sentinel Saturday.

Arch R. Reynolds, a yardman at the Berghoff brewery, suffered a painful injury to one kidney yesterday when a heavy box fell on him. He was taken to the Lutheran hospital and was attended by Dr. J. Frank Dinnen.

James Siverts, whose injury while practicing for the tug-of-war event at the Electro-Technic club's blow out lost the game to the firemen, as they claim, is not so badly crippled that he cannot attend to his duties at the works. He will be as well as ever soon.

A. A. Deatrick, checker at the Nickel Plate yards, will resume the show business as soon as the fair season opens next summer. He has been in Cleveland several days, making arrangements for concessions at various points in Ohio. Last year Mr. Deatrick was quite successful in this line.

Secretary A. J. Cash, of the Railroad Y. M. C. A., has erected a bulletin board in the entrance to the reading room on which the events of the day are placed. This morning it announced the noonday meeting at the Pennsylvania shops and the bible class and bible class social at the association rooms tonight.

E. S. Cloud, passenger engineer on the east end of the Nickel Plate, fell in alighting from his engine at Bellevue yesterday morning and was dragged a considerable distance, bruising the flesh and straining the ligaments of one of his legs badly. Mr. Cloud is well known to all Nickel Plate enginemen and trainmen.

Under the law providing for the admission of antiquities free of duty, it is possible, it was said at the customs house, that the robes and gems would be admitted without charge.

FATHERS' DAY CELEBRATED.

Speaker at Hammond Says "Father is the Goat."

Hammond, Ind., March 16.—Five hundred fathers and mothers celebrated Fathers' day in this city and heartily applauded when C. J. Sharp, in his address, said: "Father is the goat." The speaker said mothers neglected their duty to their children, and that they tried to place the responsibility on the fathers.

R. J. Leonard, an educational expert, said Indiana had changed from an agricultural to an industrial state in ten years, and that there are 6,000 fewer farms now than there were ten years ago because the average mother thinks her boy too good to be a farmer.

200 BUSINESS MEN GREET TOUR PARTY

Marion Lawrence Speaks on the Sunday School as a Good Investment.

Nearly two hundred business men of the city gathered at the First Baptist church at noon Tuesday for the noonday lunch to greet the six members of the International Sunday school tour party, who arrived in the city for the day. Following the lunch Marion Lawrence, the general secretary of the International association, delivered an address on "Investments That Pay."

He said: "The organized Sunday school work is the greatest enterprize in every scope and way, as it has at the present time over 30,000,000 members and 300,000 separate schools. This is the great gain which it has made from one school in 130 years. Nearly 200,000 men have been added to the membership of the schools each year and the schools are the means whereby nearly 1,000 are added to the church each day." He gave these statistics to show that the Sunday schools are a great investment.

Warren First Speaker.

E. K. Warren, the president of the association, and also president of the Warren Featherbone company, in Three Oaks, Michigan, was the first speaker. He spoke on the Sunday school from a business standpoint of view and told how a business man was greatly benefited by having membership in a Sabbath school. The third address was delivered by W. C. Pearce, who chose as his subject, "The Tread of the Mighty Army," in which he referred to the Sunday school as the mighty army, and told that this army would be the only one which some day would conquer the entire world.

The party, which is composed of E. K. Warren, Marion Lawrence, W. C. Pearce, Bert Cashman, Dr. George H. Lau and George W. Bond, arrived in the city at 11:45, coming here from South Bend, where they conducted meetings Monday. Approximately 5,000 people turned out in that city to hear them at the various meetings which were also some of the best ever held by the tour party.

The Afternoon Meetings.

At the close of the noon day luncheon, the party went to the Wayne street M. E. church, where another large audience greeted them. W. C. Pearce, superintendent of the adult division of the International association, delivered a lengthy address on the subject, "The Challenge of America's Adult Bible Class." He supplied some interesting figures as to the number of members which the organized adult bible classes of America had. He said that it has been proven that the Sunday school is not only for children, but for adults as well, and that no school could be a successful one unless it had one or more adult bible classes.

At 3:30 o'clock Marion Lawrence conducted a round table conference at which time he supplied some valuable information to eager Sunday school workers, who gathered at the church to ask any questions on the work in the school.

At 4:30 o'clock this afternoon hundreds of school children gathered at the West Jefferson street Church of Christ, where Bert Cashman gave a stereopticon lecture on the subject, "The Sunday School Work of the World." His instructive talk was made still more interesting by the hundred or more slides which he showed on the work of the Sunday school in various parts of the world.

The closing session of the tour party will be held this evening at 7:30 o'clock at the Wayne street M. E. church, corner Wayne and Broadway, and will open with a song service, under the direction of George H. Lau. The main address of the evening will be given by Marion Lawrence on the theme, "Greatest Character Factory of the World."

NAVY READY, HE ASSERTS

(Continued from Page 1.)

through the water torpedoes capable of sinking leviathian ships any nation can construct. The Sixty-third congress had the wisdom to see that the backbone of any naval fighting machine is the great ship which is able to keep the ocean when storm-tossed."

Secretary Daniels said that he had been directed by President Wilson to say for the president that he was proud of the new Pennsylvania and hoped it would never be called upon in war to prove its prowess.

Urges Example of Peace.

"There never was a time when it was so important for our country to set the warring world an example of peace. May we not hope that the day is not far distant when the nations at war will solicit our good offices in leading the way to honorable peace."

The secretary said the country was fortunate that the mantle of patience and peace of martyred Lincoln had fallen upon the shoulders of President Wilson to guide the ship of state. With such a pilot, he said, the nation could look with confidence to the future.

PENNSYLVANIA LAUNCHED.

Uncle Sam's New Dreadnought Is Mightiest Warship Afloat.

Newport News, Va., March 16.—The new dreadnought Pennsylvania was successfully launched here this morning shortly after 10 o'clock.

In size and gun power the Pennsylvania is greater even than the Queen Elizabeth of the British navy, which led the recent terrific assault of the allies on the forts of the Dardanelles. While the British monster carries larger guns, her main battery is only two-thirds the size of that of the Pennsylvania in number and the American battleship is 3,000 tons greater in size.

The Main Battery.

The main battery of the Pennsylvania will consist of twelve fourteen-inch, forty-five calibre rifles, set in four turrets, three guns to a turret, the plan of big-gun arrangement adopted in the sister ships which preceded her, the Nevada and Oklahoma. Her tonnage measurement is 31,400 against 27,500 for the Nevada and Oklahoma and the Queen Elizabeth. The latter, however, carries eight fifteen-inch rifles, forty-five calibre, set two to a turret, while the Nevada and Oklahoma have ten fourteen-inch rifles each in two three-gun and two two-gun turrets. In all these ships, including the Pennsylvania, the turrets are all on the center line to concentrate their fire on either broadside.

Five battleships of the British navy yet to be launched will have less tonnage than the Pennsylvania, the ships of the Royal Sovereign class being of 24,500 tons displacement, and none will equal the Pennsylvania in armament. Each is designed to carry eight fifteen-inch guns.

Details of four other British battleships, already authorized, are not known here officially.

Five ships of the Japanese navy, estimated for in 1914 and known as the Fuso class, will not equal the Pennsylvania in tonnage with their displacement of 30,000 tons, but will carry the same main battery of twelve fourteen-inch rifles. They will exceed the Pennsylvania in speed, estimates calling for twenty-two knots against twenty-one knots for the Pennsylvania.

The 1914 estimates for the German navy call for three ships of the Kaiser Fredrich III class, with a displacement of 29,000 tons and carrying eight fifteen-inch rifles.

The British ships of the Queen Elizabeth class greatly exceed those of any other navy in speed, requirements calling for twenty-five knots an hour while the Royal Sovereign class will make at least twenty-two and five-tenths knots.

Since the outbreak of the war details as to foreign naval programs have been jealously guarded and it is probable that Great Britain, Germany and France have laid down many vessels of which no report has been made. So far as is known, however, no vessels have been planned which will exceed in size the three American ships of the California class, work on which has barely started.

These will have a displacement of 32,000 tons each and armament equal to that of the Pennsylvania.

Increased Cruising Radius.

The cruising radius of the Pennsylvania will be considerably increased by the fact that she will be equipped for oil fuel exclusively and will have a capacity of 2,322 tons of fuel oil. The Queen Elizabeth has a capacity of 4,000 tons of oil because of her high speed requirements.

From her enormous main battery the Pennsylvania will be able to hurl, with the pressure of a single firing lever, seven and a half tons of steel on either broadside. In addition she will carry a secondary battery of twenty-two five-inch rifles for defense against torpedo boats. She will be fitted also with four submerged twenty-one-inch torpedo tubes and her ships company will be composed of sixty-five officers, 863 bluejackets and seventy-four marines. The ship measures 608 feet over all and ninety-seven feet beam and her mean draft is twenty-eight feet ten inches, almost the limit in size for the Panama canal and present navy dry docks. There are only few docks in the world which can receive her and she could not enter many busy harbors except under most favorable conditions of tide and wind.

When completed the Pennsylvania will have cost the government more than $13,000,000. She will be ready for commission, under contract, by February 28, 1916. Her keel was laid October 27, 1913.

The enormous size of the new ship and the startling rapidity with which battleship construction had developed, even before the great war, is indicated by comparison of the Pennsylvania with the British battleship Dreadnaught, first of the all-big-gun ships in any navy. The Dreadnaught was estimated for in 1907. She was designed to displace 17,600 tons, but actually is considerably larger. In the main battery are ten twelve-inch guns with a broadside fire of six guns and her trial speed was twenty-one and two-tenths knots.

The Pennsylvania will be equipped with turbine engines as is the Oklahoma, the Queen Elizabeth and all of the newest English, German and Japanese battle craft. The Nevada will be operated by reciprocating engines while the California, of the 32,000 class, will be driven by electricity. One of the other two American battleships of the California class will have turbine engines and the other reciprocating in line with the navy department's policy of not entirely abandoning the reciprocating type until a thoroughly satisfactory marine turbine is found. If the experiment on the California with electric drive, current to be generated by steam turbines running at high speed, is successful, the engine problem may be solved. It already has proved satisfactory in a navy collier and the experiment with the California only needs to determine whether it is equally efficient in high power plants.

CHICAGO GRAIN AND PROVISIONS.

Chicago, March 16.—Diminishing of stocks in Europe tended today to lift the wheat market. The trans-Atlantic visible supply total was reported as showing a decrease of 344,000 bushels, as against an increase of 10,424,000 bushels a week ago, and an increase of 1,400,000 bushels a year ago. There were also advices that Portugal had purchased 1,500,000 bushels in Argentina and that 1,000,000 bushels was being taken out of store at Kansas City to go to the gulf for export. After opening ¾c to 1⅝c higher, prices reacted to a moderate extent.

The close was weak at ⅝c to 1c net decline.

Corn suffered from lack of support. Better weather counted against the bulls. Opening prices, which varied from ¼c off to ⅜c advance, was followed by a sag all around.

The close, though, was steady at ⅛@⅜c under last night.

Export demand gave relative steadiness to oats, as compared with corn. Commission houses, though, were generally on the selling side, with prices slightly under last night's level.

Lower quotation for hogs weakened provisions. The chief pressure was on ribs.

LIGHTWEIGHT CHAMP AND PARTY ARRIVE

Freddie Welsh in Perfect Trim for Go With Hal Stewart Here.

Freddie Welsh, of England, world's premier lightweight fighter, who meets Hal Stewart, the local aspirant for the laurels and bays of the 133-pounders at the Majestic theater Wednesday night, arrived in Fort Wayne with his party Thursday forenoon over the Pennsylvania. With the champion were Harry Pollock, his manager; Griff Davis, welterweight title holder of Canada, his trainer, and

HAL STEWART,
Fort Wayne's 133-Pound Boxer, Who Meets the World's Champion.

Burt MacIntosh, his sparring partner. The Welsh party took quarters at the Anthony, and there Welsh was provided with a room in which to have a rub down and do some shadow boxing, which with some light road work is all the training he will do in preparation for his go with Stewart Wednesday night.

The champion surely showed need of nothing in the way of condition. He looks good to score all the points out of a possible hundred and he declared himself to be feeling just as good as he looked.

"I never get much out of condition," said Welsh. "I keep myself right on my own account because, you see, I expect to go right on living for a good while and the better I keep myself the longer and easier that will be. Of course I've not had time to fall off much in condition if I had been careless, for I did some getting ready for my bout with Willie Ritchie in New York the other day. So I'm all right for Mr. Stewart, and they say he is a fine strong boy, willing to have things hard and lively. It ought to be a right interesting meeting and I'm sure it will not be my fault if we do not."

Welsh was in good humor, and his broad and ready smile proved it. He was a bit tired from his long journey, but a rub down and a trifle of exercise limbered him up and he seemed ready to step into the ring on a moment's notice.

The champion did not agree with all the newspaper reports that Willie Ritchie, from whom he stripped the championship in their London contest, had all the best of the New York meeting.

"Ritchie is a good boy, a hard fighter, and Americans may be proud of him. But I think the London go was a good argument for me. We shall probably get together again over the longer route, and then we shall see who has the right to be called the world's champion if there is any doubt about it," said Welsh.

There is widespread interest in the contest Wednesday night and the Majestic will be crowded to capacity. The reservations for outsiders is heavy. From Payne, O., Hal Stewart's hailing place, will come one hundred of his neighbors. Lima has ordered 125 seats and nearly all northern Indiana towns within a radius of fifty miles will send big delegations.

THE DAY ON WALL STREET.

New York, March 16.—Specialties were again more active than the seasoned issues at the outset of today's market operations. The Copper, Alaska gold, Central Leather and Motor shares made general gains, while leaders were slightly lower or unchanged. Later Bethlehem Steel and Texas company were added to the list of higher prices, the former advancing two points. Some very substantial recessions were recorded by Americans in London, notably Canadian Pacific, Reading and Union Pacific.

Reading became acutely weak toward midday, declining two points to 142⅜ on steady selling, much of which was ascribed to out of town sources. The balance of the list was sympathetically affected, Canadian Pacific yielding 1⅝, with substantial declines in United States Steel and Amalgamated Copper. Bethlehem Steel, however, held much of its rise. Bonds were lower, several large blocks of the New York Central debenture sixes selling at lowest prices.

Specific stocks were further affected by moderate liquidation and standard shares made but slight recovery from their low levels. The closing was heavy.

THE WEATHER.

OFFICIAL FORECASTS.

For Fort Wayne and vicinity: Fair tonight and Wednesday; not much change in temperature. Lowest tonight, about 28 degrees.

For Indiana: Fair tonight and Wednesday.

For Ohio: Unsettled in south portion, fair in north portion tonight; colder tonight in extreme south portion; Wednesday fair.

GERMANS ARE HIT IN WEST

(Continued from Page 9.)

THE GERMAN VERSION.

Berlin, March 16.—The German war office today gave out a report on the progress of the fighting which is dated March 16 and which reads as follows:

"The English position on the height near St. Eloi, south of Ypres, has been taken by the Germans. Fighting for the possession of this location has been going on since the day before yesterday. On the southern slope of the Loretto hills, to the northwest of Arras, fighting is going on for the possession of the crest of a hill.

"In the Champagne district several partial attacks delivered by French troops broke down in the face of the German fire. The French losses were heavy. To the north of Beauzjour German troops took possession of several French trenches. An engagement begun yesterday in the Argonne continues today. Also in the Vosges there are several places where the fighting is still going on.

"On the Orzyc, to the northeast of Przasnysz Russian attacks everywhere have been repulsed. There was an especially violent engagement for the possession of Jednorozek. Two thousand Russians were taken prisoners.

"South of the Vistula there is nothing to report."

Syria, almost the only country in the world in which pistachio nuts are cultivated, produces about half a million pounds of them a year.

The governments of Brazil and Peru have combined to maintain a chain of wireless telegraph stations all the way across the continent of South America.

That guinea pigs furnish a cheap and appetizing meat is one of the discoveries of German dietists forced by the necessities of food economy during the war.

BAD BOYS TURN OUT THE PRETTY LIGHTS

Three Sections of Ornamental Illumination Put Out of Use.

When the ornamental street lights on Calhoun street from Wayne to Washington, on Wayne street from Harrison to Clinton and on Washington street for the same distance suddenly went out at 8 o'clock Monday night and left one of the busiest downtown sections in darkness, people in the neighborhood wondered what had happened at the city power plant. The management of the Palace theater also wondered, for the street leading to Fort Wayne's newest and finest playhouse was as dark as a cistern. Night Patrolman Bert Brown, who also was in that part of the city, likewise wondered. He also investigated and as a result of his sleuthing he picked up William Gillespie, 14, of 628 Harrison street; John Pattee, 13, of 201 East Superior street, and William Fisher, 15, of 815 Clay street, and booked them for disorderly conduct. The lads had got at the control switches in the alley west of Calhoun street between Wayne and Washington streets, and with a pole shut off the current from the three sections of ornamental lighting. They did not know exactly why they did it, and their extreme youth precluded any suspicion of a big safe cracking or mercantile robbery. Judge Eggeman in the juvenile court will undertake to learn the why and wherefore of the mischief, for the boys were certified to that tribunal and turned over to Probation Officer Work.

Tom Tolan Back to Jail.

Tom Tolan, whose vicissitudes, marital and otherwise, make up a varied and heavy burden, was sent back to jail to stay fifteen days in default of paying $5 and costs on a drunk charge. Thomas and his wife have separated and she is suing for divorce. Tolan was arrested one night last week while trying to enter his wife's apartments through a back window. He pleaded to be shown mercy, but threats he has made orally and in an intercepted letter written at the jail respecting a supposed invader of his home counseled that he be kept in confinement for a more thorough cooling off.

Other City Court Cases.

David Ochstein, a junker, who also conducts a little store at 2125 Maumee avenue, was in court charged with selling milk without a license. On his promise to lose no time in taking out a license, Judge Kerr continued the case indefinitely. Ochstein lost no time making good.

John Mack, charged with drunkenness, was continued until Thursday and put under $300 bond. He will be investigated.

Frank Richards, a loiterer, was turned loose.

William Stone, aged 16, who ran away from his home in Findlay, O., was held for the arrival of Miss Gadt, probation officer in the Ohio city, who wired that she would come for the lad during the day. A middle aged man who gave the name of Sloan was picked up with young Stone. He had traveled into the city with the boy and when questioned by officers was found to have a bottle of whisky. The police told him to leave town at once.

STRUCK BY STRAY BULLET.

A stray bullet fired by someone who had been shooting at a mark with a revolver, struck J. F. Hathaway, 2115 Broadway, in the breast as he was returning along the Wabash track Monday evening from his work in the Pennsylvania offices. The bullet, a 38-caliber projectile, struck him just as he was a block west of Fairfield avenue. Because the bullet was already well spent, and Hathaway was at the time wearing a heavy corduroy vest probably saved his life. Only a slight flesh wound was inflicted.
